Childrens Parade, Fireworks On Program for The Fourth

Plans for the Fourth of July* celebration sponsored by the Chamber of Commerce and American Legion are progressing rapidly and the American Legion Auxiliary completed arrangements for the second annual childrens parade at the meeting on Tuesday evening.

The parade will assemble in front of the Post Office at 2:00 p. m. and children who wish to enter are ask to be present to register at 1:30 so that the parade may get under way promptly. From the Post Office the children will march to the beach at the foot of Linden Avenue where prizes will be awarded and free ice cream served to each child participating.

All children in the Valley or who may be visiting in Carpinteria on the Fourth under the age of 16 are invited to participate in the event, the only requirement being that they must be in some sort of patriotic costume or enter a small float carrying out a historic or patriotic theme.

The parade will be divided into three divisions according to ages and prizes will be awarded in each class. First division will include children up to the age of 9; the second division, children between the ages of 9 and 12 and the third division, children between the ages of 12 and 16. Children who wish to ride horseback or enter vehicles drawn by horses or other animals in the parade will be permitted to do so this year and a separate division will be formed for them.

Following the Children's parade a water fight will be staged between the Carpinteria and Summerland divisions of the Carpinteria Fire Department on Walnut

FIRE PLUG ZONE MUST BE KEPT CLEAR OF CARS

Carpinteria residents are warned that the fire plug near the new Safeway Store on the Coast Highway must be kept clear of cars, according to Les Carter, fire chief. Ample parking space has been provided by the new store for patrons.

Several persons who have parked in this red zone have been given tickets by the highway patrol during the past week.

The plug is located in the heart of the business district and in event of fire in this area it is essential that the fire truck be able to connect up without delay in order to prevent serious fire loss.

The only exception to this law is that a car may be left by a fire plug if a licensed operator remains in the machine.

Fryer Files for Sheriff's Job

Harry E. Fryer, of Santa Maria, has filed for the office of sheriff of Santa Barbara County, and is now engaged in formulating a platform for the intensive campaign which he plans to launch in the immediate future.

Avenue between 6th street and 8th street.

In the evening a fireworks display will be given at the beach at the foot of Linden Avenue shortly after 8:00 p. m. and tentative plans are being made for a street dance to be given at the foot of Linden Avenue.

ATTENTION CHILDREN

All Carpinteria children under the ages of 16 are invited to take part in the Fourth of July Kiddies Parade sponsored by the American Legion Auxiliary on the afternoon of the Fourth at 2:00 p. m. Free ice cream will be served all children entering the event and the only requirements are that each child be in costume of a patriotic theme, or enter small floats appropriately decorated for the occasion. A separate division will be made for those wishing to ride horseback in the parade or wishing to enter vehicles drawn by horses or other animals.

Prizes will be awarded and the parade divided into three sections; one for children under nine; one for children between the ages of 9 and 12 and one for children between the ages of 12 and 16.

MIDGET AIR RACES TO BE HELD SUNDAY

Several Carpinteria boys will be among the hundreds of youths that will enter the Chancellor Midget Air Races to be held at the Fleischmann Polo Field next Sunday morning between the hours of 9:00 a. m. and 12 noon.

The planes to be flown in the various events are real models of larger planes and are powered with small motors. The races will furnish all the thrills of a real air meet with close competition replete with stunts, crack-ups, etc.

Admission to the event is 25 cents for adults and 10 cents for children.

LION'S HEAR TALK ON BRITISH ISLES

Members of the Lion's Club enjoyed a talk and motion picture of "The British Isles," presented by Fred Champion, treasurer of the Southern Counties Gas Company, at their dinner meeting in the memorial building last night. Dr. G. H. Coshaw was in charge of the program arrangements for the evening. John Hudson will arrange the program for next week.

RESORT EDITOR OF KFWB VISITS

Roy Hewitt, resort reporter for KFWB spent Wednesday in Carpinteria, visiting the beach, the gladiolus beds of Mr. Miller and Mr. Kagerize on the mesa and other points of interest. He was accompanied by his wife and his daughter, Mrs. S. Wettan and her two children.

Public Invited to Community Cribbage Party Tonight

TRAFFIC FATALITIES SHOWS DECLINE FOR SIXTH MONTH

Traffic fatalities have declined for six straight months, as compared with the same months for 1937, announces the Safety Department of the National Automobile Club. This means a saving of 2,850 lives. It proves that careful driving and careful walking can stop the unnecessary slaughter of lives on streets and highways. All walks of life profit by this decrease and both pedestrians and motorists are urged to walk and drive safely and keep the automobile fatalities on the down grade. Every one can help in the war on accidents by making sure of every action, whether behind the wheel or as a pedestrian.

Construction of School To Start Soon

The bid of the Westco Construction Company of Los Angeles for \$91,900 for construction of the new grammar school was formally accepted at a meeting of the grammar school board on Tuesday and construction of the building is expected to start the latter part of next week.

Henry Sturmer Enters Race for Constable

Henry Sturmer has filed for the office of constable of the first township, bringing to the total number of candidates for this position from Carpinteria to three. Also in the race are Warren Toby and C. A. Talmage, the incumbent.

Church Plans Discussed At Dinner at El Cortijo

GAS TAX FOR MAY SHOWS DECREASE

Sacramento — Gasoline sales throughout California took a substantial drop during May, the State Board of Equalization reported today.

The gasoline tax for last month amounted to \$4,296,311.55, or 8.24 per cent below the \$4,635,695.55 assessed for the same month of 1937. The loss was approximately the same when last month's figure was compared with April of this year when a total of \$4,632,373.50 was assessed in gasoline taxes.

So far this year gains have been shown by only two months, February and April, while losses were recorded by the other three months in comparison to 1937.

F. Babbitt, Del Kent, Winsor Soule and Dr. Payne.

Prizes will be awarded tonight at the Community cribbage party in the Veteran's Memorial Building to the winners of the Men's Cribbage tournament which was concluded last Friday night. The K. P. team, composed of Walter Dowling, Verne Rickman, George Holsten, Shell Martin, Frank Bauhaus and Dye Boren, will receive the Chamber of Commerce cup, for finishing in first place with a score of 89. The Lion's Club finished second with 86; Masons, third with 84, Chamber of Commerce and Cribbage Club tied for fourth place with 76 and the American Legion finished in last place with 75. Others who will receive awards are Lawrence Doerr, highest individual score, 32; G. Hatton and D. Cummins, high partner score, 31, and Dick Kistler, low score of 15.

All cribbage players in the valley, both men and women are invited to join in the play tonight which will start promptly at 8:00 p. m. and will take the form of an elimination contest. A large variety of prizes have been donated for the event and winners of each round will receive prizes during the course of the evening. Refreshments will be served and no admission will be charged.

If the event meets with the approval of Valley players plans will be made for similar parties in the future.

Mr. and Mrs. John Stambaugh and son, Richard, left Wednesday for their home in Oakland after spending a week with Mr. and Mrs. Wm. H. James. They were enroute home from a trip to Colorado.

Forest Service Opens Drive Against Man-Caused Fires

Until fall rains reduce forest* fire hazard in California, campers and travelers in national forest areas of the State are urged to be cautious with fire in the woods. This statement from Regional Forester S. B. Show comes as a part of the U. S. Forest Service campaign to reduce the number of conflagrations caused by humans.

"Few people realize," said Show, "that one-fifth of the area of California is under U. S. Forest Service administration. State fire laws and national forest regulations cover the careless disposal of burning material and the work of incendiaries. Too large a percentage of forest fires result from throwing burning matches and tobacco and leaving unextinguished and unattended campfires.

"The reduced number of fires last year indicates splendid improvement in forest fire consciousness on the part of the California

(Continued on page 8)

MINOR ACCIDENT MON. AFTERNOON

The motor trip of Mrs. G. C. Hicks, 1985 Atlantic, Long Beach, her son, Billy, 19 months old and Carol E. Gowder of Tacoma, Washington, to San Francisco came to an abrupt halt Monday afternoon about 3:30 when Miss Gowder, operator of the car, reached for a cigarette and lost control of the car. The machine crashed into the parked car of Roy Wood in front of his shoe repairing establishment on the coast highway and was seriously damaged.

The occupants of the car escaped injury but are temporarily grounded in Carpinteria awaiting repair of the car. Mrs. Hicks was enroute to San Francisco to join her husband who is aboard one of the U. S. Navy vessels which left San Pedro this week for San Francisco.

NOW IS THE TIME

Hundreds of thousands of youngsters pour forth from the classrooms this month, some to work, some to hunt work, and others to frolic the summer long under the beneficent California sun.

Parents can be justly grateful for the abundance of open country in California, the sweeping landscapes, the clean air of the mountain and sea. The dark blight of over-crowded cities of the industrial East where children's recreation grounds are all too often nothing but sidewalks and crowded streets, are thankfully far removed from these Western slopes. May they ever remain so!

But the blight of summertime's most common tragedy does strike us here in the West as in the East, and in too many California homes every year you will find new evidence to that fact.

"Death—by drowning" is again moving into the headlines as thousands of vacationing youngsters plunge lustily—and oftentimes ignorantly!—into the water for that cooling swim.

Now is the time for every youngster to learn to swim! Better that his parents undertake to see that he receives instruction than leave him to be egged on by his scornful playmates into risking his life with a foolish display of bravery.

Summertime brings no arithmetic lessons, but every wise parent will see to it that summertime brings swimming lessons to every untrained youngster!

TROUBLED WATERS

The deep waters off Alaska have long been troubled waters.

A month ago Alaska fishermen threatened to wage war with violence against the Bering Sea Japanese, asserting their illicit operations endangered Alaska's \$50,000,000 a year salmon industry.

Japan has frankly admitted that her own salmon fisheries off the Far Eastern coast of Siberia are virtually depleted. Because it was believed likely she would shortly succeed in also depleting the salmon in our own Alaskan waters, the State Department has made urgent protests to the Japanese government within the past year.

Shortly before adjournment last week, the Senate concurred in a House-approved measure expressly forbidding any commercial fishing in Alaska by any person not a citizen of the United States. Now our policy toward alien fishing in those waters has been incorporated into law, subject to enforcement by the Alaska coast guard patrol.

With the salmon season opening this week on June 24, this very timely measure should make America's attitude clear enough henceforth to take international wrangling out of domestic angling.

The Churches

Carpinteria has a number of Churches, whose pastors and members will be glad to welcome you to their services.

THE CARPINTERIA COMMUNITY CHURCH

Rev. Deane F. Babbitt, Pastor.
 The Educational Policy of the Church of Jesus Christ should face toward the unfinished tasks of the Kingdom of God. This the Sunday School of today is doing. Classes are provided for children of all ages at nine-forty-five each Sunday morning.

Are there limits to our actions? Is the Christian citizen confined to a narrow field of endeavor, or does opportunity present itself for abundant living. At the Eleven o'clock Worship Service the pastor will preach upon "The Limits of Liberty," taking as his text: "All things are lawful unto me, but all things are not expedient." 1 Cor. 6. 12.

Home-coming College Students and High School Youth of the Valley believe that "They Have a Right to be Rich." At the home of Miss Edith Van Metre on Linden Avenue, Myron Sturmer will direct the teachings of Amos concerning the use of money. This 6:30 meeting marks the first of the "At Home" meetings of the Youth Fellowship for the summer months. The Hour—6:30 p. m.

CIVIL SERVICE EXAMS FOR LIGHTHOUSE KEEPER

The United States Civil Service Commission announces an open competitive examination for Assistant Lighthouse Keeper. Vacancies as they may occur in this position within a salary range of \$1,140 to \$1,800 per annum, depending upon the station to which assigned, and in positions requiring similar qualifications, including Light Attendant positions, etc., at approximately the same rates of pay in the Eighteenth Lighthouse District, Department of Commerce, with headquarters at San Francisco, California, will be filled from this examination unless it is found in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

The necessary forms and information concerning this examination may be obtained from the Secretary, Board of U. S. Civil Service Examiners at 12th U. S. Civil Service District, Rm. 119, Federal Office Bldg., San Francisco, Calif.

Applications must be on file with the manager, 12th U. S. Civil Service District, Room 119, Federal office building, San Francisco, California, not later than June 9, 1938.

NO BOUNDS FOR POWER— Leaders of the electric power in industry met last week in America's time-honored convention town, Atlantic City. Cool ocean breezes promoted the conciliatory spirit, and a sincere desire to cooperate with the government was expressed. Another boom seems to be on the way, for according to one spokesman, a \$13,000,000,000 investment in new plant facilities will be required in the next decade to meet growing demand for electricity. It was revealed that at the end of 1937 Americans were using 2,100,000 more electric refrigerators, 325,000 more electric ranges, 2,000,000 additional radios, 750,000 washing machines, 1,200,000 electric clocks, 1,350,000 flatirons, 600,000 vacuum cleaners and 250,000 more toasters than at the close of 1936.

HAY FIELD IN VENTURA CO. SINKS OVER NIGHT

A four and one-half acre hay field bordering on the Puerta Zuela gully in Ventura county dropped nine feet overnight. A hay-baling crew, at work on nearby fields, were expecting to move onto this field, but since the slip occurred there is no way for them to reach the field with their equipment. The "going down" hay field is one and one-half miles north of Somis on the Atholl McBean farm. The entire field is a network of fissures, from a few inches to several feet in width, and estimated to be from fifty to one hundred feet in depth. The drop occurred the night of June 17. Piles of hay that had been previously cut and shocked, dot the field.

Some of the earth rolled over into the channel of the Puerta Zuela gully that CCC enrollees from the Somis camp are stabilizing with dams and plantings of trees and shrubs. This gully has eaten away thousands of dollars worth of rich farm lands.

H. R. McConnell, project manager for the 40,000 acre erosion control area where the hay field is located, stated that the exact cause of the earth slip has not been determined. He indicated that the possible cause might be that a subterranean cavity existed, and that its collapse caused the earth's surface to drop. Engineers estimated that around half a million cubic yards of earth were moved by the slippage.

While on an inspection trip of soil and water conservation work in California, Dr. H. H. Bennett, chief of the U. S. Soil Conservation Service, visited the "going down" hay field. He stated that it was one of the largest earth slips he had seen.

Geologists have found that on hillsides the extra weight and improved lubrication furnished by heavy rains has often been enough to start the soil or rock debris slipping down the slope. Movements of this sort damage both the area from which the material is lost and that where it is deposited. Topsoil, removed from one part of the hillside and mixed with clayey subsoil and rotten rock, not only loses its own value but destroys that of the soil on which it comes to rest further down the hill. Caving along stream banks, gully walls, and other undercut slopes is another mass movement which plays an important part in destroying agricultural land and increasing the area of gullies and stream channels.

Over 50,000 farmers throughout the nation are cooperating with the Soil Conservation Service in curbing gullying and other types of soil erosion.

OFF-SALE LICENSES DUE JULY 1ST

All off-sale retail liquor licenses must be renewed by July 1 in accordance with provisions of the Alcoholic Beverage Control Tct, which places this type of license on a fiscal year basis, July 1 to June 30, the State Board of Equalization advises.

The act provides penalties for those who do not file application for renewal by the specified date, according to William G. Bonelli, member of the board from this district.

Amendments to the act by the last legislature placed all liquor licenses on a renewal basis, making it unnecessary for licensees to file an original application each year. Licenses are not permanent but must be renewed each year and may be recoked or suspended by the board at any time for cause.

WOMEN IN THE NEWS

By LEONE BAXTER

Two women—housewives—started a tax tempest in their own home town a few weeks ago that quickly fanned out over a half-dozen states, brought them a hearing before a key Senate committee, and elicited so much interest and support from thousands upon thousands of women—and men—that from the very first the furor earned its challenging title: "Women's Rebellion."

California so far has heard little of the movement. Unquestionably it will hear more, for there's great and growing desire among women, whether housewives, business women or women of leisure, to "do something" to help their menfolk out of the business and financial doldrums, to bolster the so far futile attempts to stop the downgrade recession that's already worse than depression.

Leaders of the "Rebellion" seem to have not only a set of principles, but a working program of governmental sanity and public economy that may go far toward accomplishing the thing that's currently solvency and security, for the individual and for the nation.

Mrs. Charles P. Bispham, wife of an Episcopal rector, and Mrs. Charles L. Hulswit, both of Sufferin, New York, head the "Rebellion." Their crusade is launched against "the way politicians—whether they call themselves Republicans or Democrats—are running the country."

"This is not political" they emphatically state. "It is patriotic! After talking with the grocer, the drygoods man, the baker, our neighbor and friends, we have come to realize that the public in general is sick at heart with the burden of excessive taxes and with uneasiness and fear of the future. We have come to realize that a nation in debt means every home in the country in debt! We believe women can do something about it. And we propose to try!"

So the two housewives, with no organization, no secretarial staff, no call for funds, no personal attacks, started a revolt of women against extravagant public spending at the expense of the taxpayers—a crusade for reason in government which already has reverberated loudly in 40 states of the Union, and is destined, doubtless, to make history.

"That California women have much at stake in any such crusade must be apparent to every woman who can see beyond the powder on the tip of her nose!" said Dr. Walter Scott Franklin of Santa Barbara, interviewed at a meeting of Northern California women in behalf of his candidacy for the lieutenant governorship. "Employment, salaries, wages, savings accounts, life insurance, the education and health of children, standards of living—all are of vital interest to women—and all are threatened by extravagance, unprecedented taxation and by mountainous public debt!"

And in the words of the New York Sun, also commenting on this newest women's crusade, "If the spirit of the 'Women's Rebellion' inspires to action the millions of American women who do the buying and the saving—just who shall prevail against them?"

FARM BUREAU HAILS EXTENSION OF LOW FARM LOAN RATES

Continuation of low federal land bank interest rates for two more years, through the over-riding by Congress of President Roosevelt's veto of the measure originated and sponsored by the American Farm Bureau Federation, was hailed today by the Santa Barbara County Farm Bureau, a unit of the national organization.

Action by Congress, in the closing hours of the session, will continue until June 30, 1940 the present emergency 3½ per cent interest rate on federal land bank mortgages and the emergency 4 per cent interest on commissioner's loans, U. E. Smith, President of the Santa Barbara County Farm Bureau, said.

President Roosevelt's objection to this legislation was that it already cost the federal government \$160,000,000 to subsidize the operations of the federal land bank system on the basis of lowered interest charges to farmers; and that extension of these low rates for two more years would entail an additional expenditure by the Treasury of \$48,000,000 or a grand total of \$208,000,000.

Three years ago, Smith said, the American Farm Bureau Federation drafted the measure providing for this economic relief to agriculture and it was enacted by Congress as the Wheeler-Gillette bill over the protests of the administrator of the Farm Credit

Administration and President Roosevelt.

"However," Smith said today, "lowered returns to farmers and ranchers for the commodities they have to sell more than warrants a reduction in interest rates.

"While prices we receive are going down, costs of production,

including interest rates, taxes, wages for labor, freight rates, other fixed charges, and the prices we pay for the commodities we buy, are going up.

"Continuation of this condition means wholesale bankruptcy for agriculture.

"We are indeed grateful to Con-

gress for supporting our measure for lower interest rates."

A International Mining Congress for the promotion of world peace will be held in San Francisco in 1939 in conjunction with the Golden Gate International Exposition.

New Name For Dog
Bob Burns, Paramount comedian, has been informed in a letter from a Hanford, Calif., fan that his pet Australian Shepherd dog has been named "Bazooka," after the instrument which Burns invented and which he will play in his next picture, "The Arkansas Traveler."

SOCIAL & PERSONAL

ATTEND DANCE AT BILTMORE

Mr. and Mrs. Harold Heltman, Mr. and Mrs. Arthur Weishaar, Marion Linkey, Mildred Waterman, Herbert Gordon and Mel Curtis attended the Epsilon Sigma Alpha spring formal which was held at the Biltmore Hotel last Saturday night.

LEGION, AUXILIARY HOLD POT LUCK DINNER

The American Legion and American Legion Auxiliary held a joint pot luck dinner in the Veteran's Memorial Building on Tuesday evening. The program was in charge of Marc Latham and Dr. Harry C. DeVighne, who has spent many years in Alaska gave a most interesting talk on climatic conditions, scenery, fishing, etc.

Following the dinner the Legion and Auxiliary adjourned to their meeting rooms for brief business sessions to discuss plans for the Fourth of July celebration.

Those present were: Mr. and Mrs. C. J. Miller, Mrs. O. L. Lyman, Mr. and Mrs. Stanley Shepard, Mr. and Mrs. Richard Kistler, Mr. and Mrs. Henry Sturmer, Mr. and Mrs. A. W. Horton, Mr. and Mrs. C. A. Vaughan, Mr. and Mrs. Marc Latham, Mr. and Mrs. F. W. Thomas, Mr. and Mrs. E. D. Solari, Mrs. Ann Waynflote, Howard Mays, Robert Orrill, Miss Del May Orrill and Dr. and Mrs. Harry C. DeVighne.

CROP INSURANCE AVAILABLE FOR WHEAT FARMERS

The first of a series of educational meetings on Crop Insurance in Santa Barbara County was held at the Cuyama School in Cuyama Valley Tuesday afternoon, June 21. The meeting was attended by J. J. McNamara, Assistant Farm Advisor of San Luis Obispo County, Philip W. McMillan, Secretary of San Luis Obispo County Agricultural Conservation Association, S. A. Anderson, Santa Barbara County Farm Advisor, William J. Page, Secretary of the Santa Barbara County Agricultural Conser-

vation Association, and M. D. Neighbors of Santa Ynez, newly appointed Wheat Crop Insurance Supervisor for Santa Barbara County.

Crop Insurance will be available to all 1939 wheat growers after the first of July, and will be for the purpose of assuring them an established percentage of average production per acre of wheat on their farms to sell regardless of actual loss on their farms from unavoidable causes, such as drought, flood, wind, insects, and pests and plant diseases. Premiums will be based on the loss history of the farm and will be in actual wheat or its cash equivalent with those premiums paid in cash to be immediately converted into wheat.

Crop Insurance at present is only available to wheat growers. If the program is successful it may later be extended to Corn, Cotton and other crops. A wheat farmer can insure his crop for either three-quarters or one-half the average yield of his farm. The program is to be administered by the Federal Crop Insurance Act, a part of the Agricultural Adjustment Act of 1938. Local administration will be through the County Committee, and it is expected it will be possible to file applications for this insurance on the 1939 crop after July 1 of this year at the Agricultural Conservation office in the Post Office Building.

SANTA BARBARA CELEBRATION

The Sixth Annual Semana Nautica (Marine Celebration) will be held in Santa Barbara, July 2, 3 and 4, according to the Touring Department of the National Automobile Club. A varied program of sports and entertainment, in which visitors may participate, has been prepared to include: Outboard motor races, illuminated marine pageant and yacht parade, street dances, garden tours, golf, tennis and badminton tournaments, and a pistol and rifle meet.

Your printing orders will be well done and appreciated at The Chronicle office.

A. J. ELLIOTT

A. J. ELLIOTT ISSUES CAMPAIGN ANNOUNCEMENT

A. J. Elliott has issued the following statement in regard to his candidacy for re-election to Congress from this district:

"I am a candidate for renomination for the office of Representative in Congress from the Tenth District of California, subject to the will of the Democratic voters of Kern, San Luis Obispo, Santa Barbara, Tulare, and Ventura counties, as expressed in the Primary on August 30, 1938."

"I have given the best service possible to every legitimate interest of the citizens of the District. That service will be continued. My experience gained during the past year, coupled with the confidence and respect of our Congressional leaders, will enable me to be still more effective as a Representative of all of the people."

New "Drummond" Actors

H. B. Warner and Heather Angel are new additions to the cast of Paramount's successful "Bulldog Drummond" series. Miss Angel will portray "Phyllis," and Warner, "Colonel Neilson," in "Bulldog Drummond in Africa."

MANY LIQUOR LICENSES DENIED

Thirty-nine applications for liquor licenses in Southern California were denied by the State Board of Equalization at its meeting in Sacramento last week, while 11 licenses were suspended and five revoked for violating provisions of the Alcoholic Beverage Control Act.

Denials were prompted by a variety of reasons such as proximity of premises to schools or churches, creation of a policing problem in supervising operation of premises and contrary to public welfare and morals because premises are in residential areas.

Four of the suspensions were ordered because of sale of liquor to minors.

The revocations were based on sales after 2 a. m., sale to Indians, disorderly premises, adulteration of liquor and proximity to a Boy Scout Camp.

Benny Cowbird Wins

Jack Benny, star of "Artists and Models Abroad," has received word that a cowbird named "Jack Benny" won an annual race between Waukegan, Ill., his home town, and Chicago. Another racing pigeon named after his wife, "Mary Livingstone, came in third."

HERE IS SCHEDULE FOR GRUNIONS' RUN

It's that time again! The East has its ground-hog day, San Juan Capistrano annually celebrates the return of the swallows, but all of Southern California looks forward to the summer appearance of grunion.

Prognosticators of the outing bureau of the Automobile Club of Southern California have gazed into the crystal ball and have come up with the prediction that the

silvery fish will appear on the opening day of the season, July 1. Meat market proprietors are laying in an extra supply of weiners for it seems to be an old Spanish custom that every member of the family from grandmother down to the toddling youngster hies himself away for a beach barbecue to await the grunion run.

The following table lists the expected 1938 summer appearances:

July 1, Midnight to 1 a.m.
July 2, 12:30 to 1:30 p.m.
July 13, 9:30 to 10:30 p.m.
July 14, 10:00 to 11:00 p.m.
July 15, 10:30 to 11:30 p.m.
July 16, 11:00 p.m. to Midnight.
July 28, 10:00 to 11:00 p.m.
July 29, 10:45 to 11:45 p.m.
July 30, 11:30 p.m. to 12:30 a.m.
July 31, Midnight to 1:00 a.m.
Aug. 11, 9:00 to 11:00 p.m.
Aug. 12, 9:45 to 10:45 p.m.
Aug. 13, 10:15 to 11:15 p.m.
Aug. 14, 10:45 to 11:45 p.m.

Grunion runs are heaviest from Topanga beach on the north to San Clemente on the south. The law specifies that the fish must be caught only with bare hands, warns the automobile club.

Ross and Hope Together

Shirley Ross and Bob Hope are to be co-starred in a new Paramount picture titled "Thanks for the Memory," in view of the phenomenal success of the song of that title which they sang in a recent Paramount picture.

Plants growing out of giant glass bowls filled with chemical solutions will tell the story of plant nutrition at the 1939 Golden Gate International Exposition.

"ON BORROWED TIME" OPENS AT LOBERO JULY 4TH

"On Borrowed Time," a two-act comedy, the eleven scenes of which continues to please New York theater-goers with its laughs and its heart-throbs, will have its Pacific Coast premier at Lobero theater on the night of Independence Day and will continue through the week.

Paul Osborn's offering has been pronounced by Eastern critics an "uncommon" play. This fable of sorts is uncommon from several points of view. It is at once a delicate fantasy and a hearty, uproarious play. Dwight Deere Wiman and Arch Selwyn unite in its production and the several sets will be the first product of the scenic shop which Arthur J. Beckhard has added to the facilities of this city's famed playhouse.

Lawrence Edward Watkin, author of "On Borrowed Time" is a native of Camden in upper New York state, a graduate of Syracuse and Harvard universities. At Washington & Lee University, Lexington, Virginia, he is known as Professor Watkins and teaches English literature.

Watkins says that the idea for "On Borrowed Time" came from a story told in a Syracuse classroom by Prof. Eaton more than ten years ago. An old woman, in return for a good deed, was allowed to detain death in her apple tree until the villagers, finding death essential, made her let death down. The playwright changed the story to use instead of the old woman, an old man and a small boy. He took these characters from his own family, picturing his wife's grandfather and his own son.

Victor Moore will play "Gramps" in the Santa Barbara production. James West, a new discovery by Ralph Pincus in San Francisco, will carry the role of "Bud." Others in the supporting cast will be Esther Dale (Mrs. Arthur J. Beckhard) remembered for her work in "Spring and Autumn," the 1937 Fiesta play; Guy Bates Post, seen here in the title role of "Omar, the Tentmaker" and Leona Roberts, who had important roles in several recent Lobero plays.

Clark Gable, Myrna Loy and Spencer Tracy will be seen on the screen at California Theatre for three days starting Sunday, in "Test Pilot." The companion feature will be "Maid's Night Out" starring Joan Fontaine.

SAN LUIS OBISPO COUNTY BRIDGES

Contract for two timber bridges and a corrugated multiplate culvert and about three-tenths of a mile of roadway, to be graded and surfaced, has been awarded by the State Division of Highways, according to the Touring Department of the National Automobile Club. The construction will be at Rocky, Santa Rita and Paso Robles Creek, between Summit and three miles south of Paso Robles on the Cambria to Famoso via Paso Robles Highway.

BUSINESS—A better feeling prevailed last week in business and agricultural circles. Farmers, especially in the west, were cheered by the fact that the price of wheat which two weeks ago dropped to 67½ cents a bushel, was back to the 75-cent level. With America's wheat crop estimated at one billion bushels, this rise means \$80,000,000 more for farmers. Cotton rose too, more than \$2 a bale, on reports of heavy rains damaging the crop. Great Britain ordered 400 airplanes from U. S.

firms, practically assuring capacity operations in this industry for at least two years. Auto manufacturers said that it may not be necessary to close Detroit plants for two months this summer, as previously expected. Renewal of confidence is seen in the fact that railroads last month ordered 6,114 new freight cars. In April only three were ordered.

BONELLI SEEKS PLACE ON BOARD ON PAST RECORD

"Because of the public response which has attended my efforts to improve conditions in the Fourth Equalization District since my appointment, and my personal conviction that a great majority of our citizenry will support a program of strict law enforcement, I am announcing my candidacy for election to the state Board of Equalization at the coming August Primaries," said Wm. G. Bonelli today.

The statement continues: "The vitally important work of this Board, which reaches into the life and business of every citizen and tax payer, offers an outstanding field for public service.

The \$200,000,000 annual volume of work of this Board is a great responsibility. Its functions are many and varied. My experience in the handling of personnel and executive duties in both public and private business has been valuable to me; my familiarity with legislative work has been helpful in assisting to work out new rules for the solution of regulative problems in the Board's work, and my legal training has been of assistance to me in the judicial work of the Board.

Administrative cost must be kept down and savings effected at the same time that efficiency is preserved. Vigilant enforcement is necessary to protect the revenue of the State. All of these functions must be carried out impartially, uniformly and apart from politics.

In matters of liquor law enforcement, progress has been made in eliminating improper influence and racketeering. All licensees must be required to follow the rules regarding sales to minors, closing hours, and in all license requirements no favors must be given to any one. The program of strict law enforcement in liquor

matters which I initiated in this District will continue throughout my incumbency.

The issues are publicly and positively drawn without the usual confusion of political propaganda and vote gathering promises. The people of this district can repudiate my present enforcement policies by supporting other candidates at the primaries, or, by giving me a vote of confidence, they can assure themselves of a four year continuance of present policies. A non-partisan viewpoint and a judicial perspective must characterize the work of your board member while he maintains an unwavering belief in public decency and official integrity, regardless of personalities and party lines."

S. B. REPUBLICAN TO ENTER RACE FOR CONGRESS

Fred Hoelscher has announced his candidacy for Representative in Congress for the Tenth Congressional District of California, embracing the Counties of Kern, Tulare, San Luis Obispo, Santa Barbara and Ventura. He has been a resident of Santa Barbara and active in civic affairs for the past eleven years.

Born 1890 in Illinois, he worked at manual labor in the steel mills, and then in various sales organizations, was educated at University of Michigan and Northwestern University Law School, and came west in 1912.

His activities in public affairs include legislative work in perfecting the Oregon Irrigation District Law, construction Superintendent on two large irrigation projects in Idaho and Montana, and Director during financing and construction of one of Oregon's largest irrigation projects, followed by several special projects in highway construction. During several years he was consultant for a group of bankers throughout the United States, advising with them on the legal, technical and feasibility status of over twenty proposed irrigation projects in the Northwest.

Hoelscher volunteered for service in the World and was a Sergeant in the Tank Corps. He is married, has four children with excellent scholastic and citizenship records, and owns a modest home. He has successfully managed a business employing twenty-five men through the 29 depression and so far into the present depression.

He has made many friends throughout the entire District in his studies of the problems and needs of the communities and counties. These friends, with a belief that experience and practical knowledge of sound economics are needed in Congress in these emergency years to come, have influenced him to offer his candidacy for the voters decision.

Joe Louis

The Brown Bomber disposed of Max Schmeling in less than a round to withstand the assault on his champion title by the German giant.

Behind The Scenes In American Business

By John Craddock

BUSINESS— American businessmen were surprised to learn last week that the present depression is more severe in the United States than in any other country, according to a report by the Federal Reserve Board. The Board pointed out, however, that manufacture of war materials in foreign countries, particularly England, Germany and Japan, is mainly responsible for keeping many factories humming. In America, factory employment is still well above normal in ten industries, farm implements, iron and steel wirework, cash registers, engines and turbines, machine tools, aircraft, women's clothing, baking, beverages and rayon. It is significant that of these 10 all but the aircraft industry are manufacturing essentially peace-time goods. Perhaps America will be enjoying prosperity when other countries are busy paying for their armaments.

WASHINGTON— Although it had made total appropriations of close to \$12,000,000,000 during its 163 day session, the 75th Congress ended last week with a bitter Senate debate in the final hour over whether the Lobby Investigating Committee should receive an additional \$12,500 to carry on its

work. The total appropriations are a peace-time record, equal to approximately \$50,000 for each minute Congress was in session or to \$92 for each man, woman and child in the country.

Bills passed during the session which will have an important bearing upon business include: federal regulation of wages and hours; \$3,700,000,000 authorization for relief and public works; \$1,500,000,000 authorization to the RFC for business loans; crop control and ever-normal granary; modification of capital gains and undistributed profits tax; liberalization of FHA financing provisions; granting of power to SEC to pass upon reorganizations of industrial corporations.

PRIVATE SPENDING— While the government gears its machinery to spend more money for relief and work projects, 42,000,000 of America's motorists will stage a spending program of their own this summer, parting with \$1,806,000,000 touring the U. S. from Maine to Mexico. This year's rolling army will be 13 per cent greater than last year and the largest ever to take the road, according to The B. F. Goodrich

Company, which made the survey. Of the nation's 25,410,000 passenger automobiles, 14,000,000 are expected to join the tourist parade. Each tourist will spend an average of two weeks on vacation and travel 1,200 miles. The nearly two billion dollar flood of vacation cash will keep people employed at 18,000 hotels, 30,000 tourist camps, 158,254 restaurants, 317,000 gasoline filling stations and 98,004 repair shops.

ROUNDOABOUT CIRCULARS— When a business recession sets in, advertising men have to dig up novel ideas to promote merchandise and build sales. Recently the advertising manager of a British shoe manufacturing concern sent by express to New York a package containing 80,000 letters which had been printed and addressed in London. U. S. postage stamps were affixed and the letters mailed back to prospective customers in England. The manufacturer's theory, of course, was that people are much more apt to open and read a letter mailed from a foreign country.

Nature vs. Eyebrows

How thick and heavy should a woman allow her eyebrows to grow?

This question is inspired by the fact that some women are starting to overdo the popular "back-to-nature" trend for full, natural eyebrows.

I was exceedingly pleased, some two years ago, when then thin, highly arched brows which had been pioneered by Greta Garbo, Marlene Dietrich, and Lil Dagover showed signs of being definitely on their way out as a popular feminine fashion.

Artificiality

Such "emaciated" brows had been eminently suitable for these stars. And occasionally, there appeared other women who could present this affectation with advantage to their personal appearance.

But the fact remained that the thin pencil-lined type of eyebrow was highly unsuitable for the average woman.

I was naturally pleased, then, when this artificiality went into a decline, and began to be replaced by brows of natural thickness and pattern. I have always been an ardent advocate of naturalness in everything—

Naturalness

However, it wasn't long before I began to have some misgivings about the eyebrow trend toward natural lines and thicknesses.

There were some women, I noticed, who looked upon this trend as a license to relapse into a complete carelessness which allowed

Rochelle Hudson

their brows to run altogether wild and unkempt.

Still another school of eyebrow extremists went in for outdoing nature altogether by penciling in these important facial features, and grossly exaggerating their natural thickness, length and breadth.

All of the principles of common sense are against either of these practices.

Supervision

Eyebrows, if allowed to attain an approximately natural growth, can always be improved by some corrective supervision and attention.

It should be remembered that any advice advocating "natural" eyebrow patterning is based on the assumption that this pattern will be a perfect one—and that such uncultivated perfection is seldom, if ever, seen.

The hair of a good many brows is naturally too short. Sometimes it is proportionately too heavy for the face upon which it appears. In cases of this sort the completely

A "cultivated" naturalness of eyebrows, rather than a wild and unkempt one, is recommendation of Make-up Artist Max Factor. Hollywood's beauty authority goes on to present Rochelle Hudson 20th Century-Fox star to illustrate merits of this eyebrow "cultivation."

"natural" eyebrow is not an attractive one, and its deficiencies should be remedied.

Attractiveness

Brows which are too close together lack in genuine attractiveness, and yet they quite often insist on naturally growing that way. Plucking until there is an ideal span of eye-width between them will prove of benefit here.

A great deal of expressional power is lost if brows are too short at the ends—and lots of them naturally are. A well-pointed pencil should be used to darken the ends of these brows a trifle, and a faint line may then be extended to give them the semblance of having greater length.

Nearly every woman who follows the current fashion of natural brows soon finds that there are always a few rebel hairs which grow contrary to the general natural pattern, and spoil the symmetry of the whole growth. Such hairs should be plucked out, and the remaining "naturalness" will consequently be a great deal more attractive.

Rochelle Hudson

With the subject of eyebrows in mind, I can hardly help thinking of Rochelle Hudson; hers are among the most perfect "cultivated natural" eyebrows in Hol-

lywood—even in their real, natural thickness, they are shaped into a perfect continuation of the arch above her eyes. The few stray hairs which do not follow the correct natural pattern line are plucked as soon as they make an appearance. And an illusion of further length at the outer corners is provided by a shadowy touch of eyebrow pencil.

Juvenile

I can remember times, though, when Rochelle was not so sure that her eyebrows were perfect. A mere youngster when she entered pictures, she had the juvenile desire to experiment with the ultra-exotic styles—styles which

were not at all suitable for such a very young person.

But it wasn't long before Rochelle's natural good taste began to guide her away from these extreme stylisms into a logical and attractive correctiveness.

I would very much like to see the day arrive when this same guiding influence would be apparent in the eyebrows of women everywhere.

Miss Jeanne Wilbur, prominent in Southern California society, is photographed at the stables in Hollywood Park. Her companion is one of the mascots of the San Luis Rey Stable. Every stable arrives with its own group of pets and most of the horses are very much attached to their mascots. The stable area at Hollywood Park, aside from the horses, is well-populated now with dogs, cats, chickens, geese and even a couple of goats. The latter are noted for having a soothing effect

on nervous horses.

Miss Wilbur is wearing a dress of beige crepe, woven roughly, and dotted in white. A white pique collar accents the neck and a white zipper runs the length of the gown. Her short jacket features the new bulky silhouette and is fashioned of the highly popular bleached skunk. A white halo hat is tried over her blond curls. Miss Wilbur will be married in July to Mr. Marshall Stenan and her wedding will be an outstanding event in society circles.

rites conducted for M. E. Smith

Graveside services were conducted in the Carpinteria Cemetery on Tuesday afternoon at 2:00 p. m. by Rev. Deane F. Babbitt for Martin Elmer Smith who passed away at his home on Olive St., on Friday, June 17. Mr. Smith had resided in Carpinteria since 1929 coming from Auburn, Washington. He was a member of the Community Church.

Mr. Smith was born on Sept. 25, 1861 and is survived by his wife, Mrs. Lulla Bell Smith, eleven children; Mrs. William Stewart, Alberton, Mont.; Milton Smith, Bakersfield, Calif.; Mrs. Olive Hutchins, Pasco, Wash.; Mrs. David F. Mitchell, Los Angeles, Calif.; Vernon L. Smith, Carpinteria; Elmer Smith, Nyffa, Ore.; Mrs. George Heck, Helper, Utah, Mrs. A. J. Mason, Ellensburg, Wash.; William and Dorrance A. Smith of Paso Robles and Mrs.

Dean Johnson of Carpinteria. He also leaves twenty-one grandchildren and five great grandchildren.

Four of his sons, Milton, Vernon, William and Dorrance A. Smith served as pallbearers.

Small Beer Containers Outlawed

Eight ounce bottles and cans of beer were outlawed in California last week and dealers given 30 days in which to clear their shelves of such containers when the State Board of Equalization unanimously adopted a resolution banning the small-sized containers.

The resolution, presented by William G. Bonelli, member of the board from this district, was declared to be in the interests of more orderly marketing of beer in California through the standardization of containers.

While there was some demand from retailers for the small-sized containers, the board believed brewers and many of the retailers were opposed to them.

Forest Service Opens Drive Against Man-Caused Fires

(Continued from page 1)

people. I hope we can report even lower fire figures next fall."

Four major rules of conduct are listed by Show in aiding the public to conform with forest visitors' regulations:

1. Obtain free campfire permit from any Forest Service officer before building a campfire. Special permits are issued for the Angeles, San Bernardino, Los Padres and Cleveland national forests of southern California. Permits are also necessary for the use of all types of portable stoves used in camping, and for stoves in trailers.

2. Each automobile and pack-train must be equipped with a shovel and ax. This regulation applies to all campers and special use permits on national forest land. Minimum specifications for the shovel are: an over-all length of 36 inches and a blade width of 8 inches; the ax must have an over-all length of 26 inches and head weight of 2 pounds or more.

3. It is unlawful to throw or place burning matches or tobacco or other ignited material or discharge fireworks in any place where they may start a fire. Throwing burning cigarettes from automobiles is the greatest offense, Show believes.

4. Smoking is not permitted on national forest lands except at posted smoking areas, improved public camp grounds or at places of habitation, and above 7500 feet elevation.

Due to increasing high fire hazards some forest areas may be closed to public use during haz-

ardous periods. Announcements of closures are made by forest supervisors from the headquarters of the 18 national forests of California. Restrictions in public use of hazardous fire areas are made only in the welfare and protection of timber, grazing areas, chapar-

al watersheds and other natural resources on national forest land.

Mrs. Wolcott Tuckerman of Foothill Road is engaged in painting various scenes on the mesa, including the gladiolus beds.
