High School Musicians Play Here

Starlet Appears With Orchestra

Presenting Kay Connor, 16-year old Paramount starlet, the third annual spring Music Festival will be held on the college campus from February 27 to March 1.

A total of 140 students from 33 Southern California high schools will participate in the three-day event. Climaxing the program will be the all-Southern California High school concert at the Lobero theatre on Monday evening, March 1.

Tickets for the concert may be reserved in the graduate manager's office. Students will be admitted free upon presentation of their student body card. Reservations must be made by Friday, February 26.

Peter Meremblum, noted Hollywood conductor, will direct the orchestra in their concert appearance. This will mark the third year Meremblum has conducted the all-student orchestra. His work has been the main reason for the artistic success of past performances.

Miss Connor makes her personal appearance with the concert group both as vocalist and violinist. She has appeared in two motion pictures, "There's Magic in Music" and "They Shall Have Music," as actress, singer and violinist. She has also made a number of personal appearances on the Orpheum circuit, and more recently entertained Canadian and American troops on an Alaskan tour.

Maurice Faulkner, chairman of the festival, announced yesterday that the response has been far greater than anticipated under the present circumstances. Already 146 applications have been accepted and several more are expected this week. Last year 115 pupils from 26 high schools participated.

Assisting Faulkner in the arrangements for the three-day program are Dr. Van A. Christy, Mrs. Jane Abraham, Jeanette Ellison, Wilhelmina Menken, Lloyd Browning, Mrs. Helen Barnett, Harold Martin, Lois M. Bennink, C. Douglas Woodhouse, John Falxa, Bob Runge, Carolyn Viets, William Marvel and Vernon Leidig.

ECE Department Hosts Faculty

Members of the department of early childhood education entertained their supervising teachers and principals, college administrators and other faculty members at tea, Sunday afternoon, February 14. The tea was held at the home of Clarence E. Weaver with Mrs. Freya Owen, president, in charge of arrangements. Chairmen of the affair were Helen Webtser, Mary Thomas, Erna Lambrecht and Carol McKenzie.

Senior students who expect to graduate in June and August with teaching credentials were notified today that they must attend a required assembly on March 2, 4 p.m. in room 80, according to Lawrence E. Chenoweth, placement coordinator. Students are asked to be prompt.

Associated Men Students Attend Traditional Smoker Tuesday

Maldo the Magician Highlights Events Of Gaucholand's Initial Stag Party

Gaucholand's fast decreasing male population will gather next Tuesday night at 7:30 to imbibe in smokes and cokes as guests of the Associated Men Students at their traditional campus smoker.

Scheduled to be held in the men's gym, the evening's entertainment will feature several exhibition boxing, wrestling and badminton matches as well as a comic program with George Blumenson and Lou Sarracino sharing the spotlight as masters of ceremonies.

Highlight of the stag event will be the appearance of Maldo the Magician, who has gained fame throughout the west for his slight of hand feats.

Included on the program will be a boxing match between Bebe Mathews and Horrell Chauncey and a second match with Jack Kinzy and Frank Cullom. On the wrestling bill will be Jesse James against the Masked Marvel.

Student Bud Hanley, ninth ranking amateur singles badminton player in the nation, will present an exhibition match during the sports program with his doubles partner Malcolm Morehouse. Together this doubles team ranks third in the state and sixth in the national ratings.

"With the program that has been lined up, it is certain that it will be good to the last event," declared Harry Redoglia, A.M.S. prexy. "We only hope that all the men on campus can turnout for the smoker and enjoy the fun."

Assisting Redoglia in presenting the stag affair are Don MacKenzie, program; Vince Jacobsmeyer, refreshments; and Joe Nunez, equipment.

Admission will be free to A.M.S. cardholders.

WSSF Drive Opens on State Campus

Campaign plans for the campus drive to solicit funds for the World Student Service Funds were completed yesterday as the student committeemen set a goal of \$300 for the Gaucho student body.

Pledges will be solicited during the next week from individual students and faculty and all organizations. Already, according to announcement the student committee in charge of the local campaign have set example themselves by pledging an average of \$2.18 a piece.

In cooperation with the nationwide goal which is one dollar per student on each campus where the drive is held, plans provide that students may pay at once or make a pledge to be paid by April 1.

The funds collected on campus will go to the W.S.S.F. which is administered through such organizations as the Red Cross and various other relief organizations to help student war victims in China, Russia, Greece, Australia and the Far East.

"This is one of the most worthwhile things the student council has ever supported," says John Falxa. "Let's all get behind it and go over the top in our subscriptions."

KAY CONNOR, 16-year old Paramount starlet, makes a guest appearance at the all-Southern California High School concert as vocalist and solo violinist when it is presented in the Lobero theatre, March 1 under the supervision of Santa Barbara State college. Peter Meremblum, noted Hollywood conductor, will direct the high school students in their annual concert.

According to Miss Wold, subscriptions can be secured in the graduate manager's office or in the alumni secretary's office in the Quad. Prices are \$2 with student body cards or \$3 for non-student body members.

Assembly Bill Proposes Merger With U. of C.

INTRODUCED BY MESSRS. KELLEMS, ROBERTSON, AND JOHNSON
January 26, 1943

Referred to Committee on Universities and Colleges

An act to authorize the creation of a branch of the University of California at Santa Barbara to abolish Santa Barbara State College to transfer to The Regents of the University of California all properties belonging to or used for the benefit of said college including moneys appropriated and unexpended or which may be appropriated, to grant to employees of the Santa Barbara State College who may become employees of the University of California, certain privileges with respect to membership in retirement and pension systems.

The people of the State of California do enact as follows:

SECTION 1. Santa Barbara State College is hereby abolished, and in its place and stead there shall be created at Santa Barbara a branch of the University of California.

SECTION 2. All properties, real and personal, belonging to and used by Santa Barbara State College, including all moneys heretofore appropriated for it and unexpended, or which hereafter may be appropriated for it and remain unexpended, are hereby transferred to and vested in The Regents of the University of California, subject to the condition specified in Section 6 of this act. The Regents of the University of California shall be subject to no debts or liabilities which have heretofore accrued, or which hereafter may accrue, against Santa Barbara State College, beyond the amount of the unexpended appropriations heretofore or hereafter made for the State college.

SECTION 3. All officers and boards of this State in anywise empowered or authorized to act in respect of the control, management, or operation of Santa Barbara State College, or empowered or authorized to expend any money for the support or benefit of the State College, or to transfer, convey, or otherwise deal with any of the properties of the State College, or properties used by it or for its benefit, shall take such measures and to do such things as shall be directed or approved by The Regents of the University of California for the accomplishment of the purposes of this act.

SECTION 5. Every employee of the Santa Barbara State College who, at the time the State College becomes a branch of the University of California, is a member of a State retirement or pension system, and who continues in a like capacity as an employee of the University of California, may remain a member of the retirement or pension system to which he belongs at such time, but thereafter, at his option, may withdraw therefrom to become a member of any other retirement or pension system to which he is or may become eligible, provided:

(a) He shall exercise the option hereby given within 90 days after eligibility for membership in such other retirement or pension system shall occur, and

(b) If upon becoming an employee of the University of California he would be required by the provisions of the State Employees Retirement Act to become a member of the State Employees Retirement System, he shall file, within 90 days after becoming an employee of the University of California, a request for exemption pursuant to Section 38 of the State Employees Retirement Act with the Board of Administrators of the State Employees Retirement System.

Much Ado

By GEORGE BLUMENSON

Looks as though General Rommel isn't as thoroughly defeated as we would like to have him be. That crack into the Anglo-American lines took the wind out of a lot of our sails and made us realize that the war as yet, isn't over. However, he has not as yet shown that he has enough power to really crack our lines wide open. Mystery of the Week: where does Rommel get his supplies? From the maps it doesn't look as though he has any supply bases open, yet he keeps coming back for more. Too bad that such a general and strategist has to be a Nazis. Be that as it may, there is only one thing for us to do with him. Either kill him or capture him—and fast.

El Gaucho's esteemed contemporary ran an editorial a few days ago expressing its disappointment in Congressman Outland for voting against continuation of the Dies committee. From this corner it looks like the Dies committee is, at this time even more than in the past, just a waste of the taxpayers' money. In times past that was debatable, but now, with the efficient FBI and Army intelligence this nation has, organizations which should be particularly adept in ferreting out any and all un-American activities.

Looking back, we can't think of one instance where the Dies committee has done any good at all. As its investigators it had well known native fascists, anti-Semites, anti-Catholics and anti-Negroes. The Dies committee never considered the Nazis any particular menace to this nation, judging from its reports. After reading Martin Dies' book, "The Trojan Horse in America," one becomes convinced all un-Americans carry bombs and have long beards. None of them have Charlie Chaplin moustaches. The congressman's book seems to have been written according to a definite formula—a few chapters against the communists and liberals—and even the Democrats—and a page or two against the Nazis—repeated over and over again, until 276 pages have been filled.

When the government is conducting a program of rigid economy, it seems foolish to have two agencies doing the work of one. When a member of the committee, Jerry Voorhies, votes against it, it seems foolish to continue it. Either disband the Dies committee or the FBI.

Congressman Outland is to be congratulated on his stand against the continuation of the Dies committee.

Nazi Extermination of Jews Presents Challenge to U.S.

In a woodland near Warsaw the Jewish workers of Poland had built a sanatorium for their weak and ailing children. This, the famous Medem Sanatorium, had also won renown among European and American educators as a model children's school. A few months ago, a band of Nazis arrived there. The teachers and attendants were ordered to leave the children but adamantly refused to do so.

The 250 children and the entire adult staff were murdered.

In this way the fiendish plan of Hitler to wipe out the Jewish people is being realized. Out of the European inferno have come reports of the most inhuman and gruesome crime in all history. In the towns and cities of Eastern Europe, hundreds of thousands of Jews, young and old, men and women, are being ruthlessly shot, hung, asphyxiated, electrocuted, and buried alive.

During the first two years of the present war, Hitler effected this extermination by means of starvation, epidemic and sadistic torture. This was not enough. It was too slow. Now he has contrived, and is employing lethal instruments and slaughter houses which do the work on a larger scale and with greater dispatch.

In the last few months the Nazis have been murdering the Jews in the Polish capital of Warsaw. Every day 7,000 Jews are evacuated from the Warsaw ghetto. They are taken barefoot into railroad cars, the floors of which are covered with lime, and holes are burned in their feet. Some are shot without further ado. Others are locked in a car and there electrocuted. The young endure days and weeks of torture while awaiting their doom: They are ordered to dig their own graves and are buried alive in them.

The Nazi executioners seem to have a special appetite for Jewish children and youth. There are several cities—and their names are known—in which all children up to ten years of age were murdered before the eyes of their parents.

In this manner two million Jews have already been massacred. Five million still survive in the shadow of horrible death.

These are no fabricated atrocity stories. The Polish Government-in-Exile vouches for the authenticity of these reports. So does the State Department of the United States. In its last report of the Jewish mass slaughters, the Polish Government-in-Exile advised those who cannot comprehend the beastiality of the Hitlerites: Believe in the unbelievable.

In the face of this, Americans cannot remain silent. Eleven of the United Nations with Great Britain at their head have spoken out ringingly on this thousand-fold Lidice. Their warning and resolution must be supported by the whole American people.

They must know that hundreds of thousands of murdered, with their dying words prayed that they be their avengers. They must know that millions await them as liberators from the tyranny.
