

GREEKS REINFORCE RULES

Judicial Measure Backs Up Rules Adopted In Meeting Of IFC-Panhellenic Councils

by Pat Gower

At a joint meeting Thursday night, Panhellenic and Inter-Fraternity Council adopted a set of rules of conduct along with an enforcement measure.

This legislation resulted from an earlier meeting this semester at which time a six-member committee composed of IFC and Panhellenic delegates was given authority to examine sorority and fraternity policy on such activities as water fights, raids and kidnaping, and set down rules and regulations whereby certain safety measures and precautions could be established and enforced.

The group formulated six rules and set up a judicial committee as an enforcement agent.

Both Councils Adopt

Quorums were present from both IFC and Panhellenic on Thursday night, so the groups were able to adopt the proposed legislation separately and officially incorporate it into their respective by-laws. The following action went into effect this morning:

The responsibility of any action shall fall upon the entire group—fraternity or sorority. This policy shall hold true for pledges as well as actives.

Penalties for violating these rules shall be left to the respective governing bodies upon the recommendation of a Judicial Committee made up of the IFC President and the Panhellenic President, and one representative from each council. Recommendations which are sent to the respective councils may be appealed to the Judicial Committee.

A representative(s) for the defense and one for the prosecution is required to attend the Judicial Committee meeting at the time the complaint is brought before it.

Violations shall be reported within a 48-hour period to the respective presidents of the councils. Any group not reporting a violation of these rules shall be given a penalty equal to that given the violator.

1. There shall be no taking of property—personal or otherwise—without written permission of the president.
2. There shall be no kidnaping.
3. There shall be no tampering with fuse boxes or any other electrical equipment.
4. There shall be no entering without permission.
5. There shall be no unnecessary noise by a visiting group outside a house after 7 p.m. with the exception of serenades which shall terminate by 10:30 p.m.
6. There shall be no water fights except between the hours of 9 a.m. and 7 p.m. IF there has been ample warning. There shall be no entering of a house at a water fight. ALL SAFETY PRECAUTIONS WILL BE STRICTLY ENFORCED.

Each house shall be responsible for revising any activity which shall be deemed unsafe. Any violators will be dealt with by the governing body.

JR.-SR. PROM PLANS TAKE FORM AS JOHNSON TURNS IN WINNING THEME

A winning theme and ambitious chairmen promise to make the Junior-Senior Prom one of the biggest events of the year. Both classes are working hard to give the student body an unforgettable night, reports Maureen Mahoney, the Junior Class social co-chairman. "Moon Mist and Memories" was declared the winning theme in a recent contest here on campus. Responsible for the brainstorm is Ron Johnson, who deposited his idea in one of the suggestion boxes that had been set up around the campus. A free bid and the corsage of his choice for his prom date was Johnson's reward.

Prom chairmen for the dance, to be held March 7, 1958, at the Coral Casino, are Suzie Hardy and Marty Campilio.

As this dance will be involving quite a large sum, seniors are urged to buy their class cards for the spring semester of 1958. By doing so, seniors will facilitate the cost of the dance.

The Senior Council has been working to build up the class funds. Some class projects have been selling cokes at GGR and at the Frosh Tribunal dance, and also selling season tickets for the Gaucho home basketball games. If class members have any suggestions for fund-raising ideas or are interested in any form of class government, they are urged to leave a note in the Senior Class president's box located in the ASB office.

Interested juniors can contact Maureen Mahoney, junior vice president.

'GAME OF LOVE' NEXT IN SERIES

Based on Colette's famous "Le Ble en Herbe," the motion picture "Game of Love" will be the fourth in the Assembly Committee's film series.

Neil Kleinman, committee chairman, anticipates a capacity turnout for this controversial French film and has made arrangements for two showings on Wednesday evening, Dec. 4, one at 7 and the other at 9 o'clock.

Adolescent Love

The plot deals with love, but Colette looks at the subject through the eyes of two adolescents, a boy, age 16, and a girl, 15. A beach resort sets the scene for the sensitive portrayal of passion, guilt and emotions involved in growing up.

Colette is the only female member of the French Academy, so acclaimed as her literary works. Several of her novels have been produced as motion pictures.

'Spectrum' Analyzed At English Forum

The current edition of *Spectrum*, published by students at SBC, has hit the newsstands across the country and is rated as an important contribution to the literary world. The booklet sells for 35 cents and includes works by Jean Cocteau, Marvin Mudrick, William Carlos Williams and student writers.

Students who gathered material and published this *Spectrum* will attempt to define its objects and critically examine it and past issues. George Dekker, Dick Hendrickson, Don Lent and Jacqueline Newby compose a panel to consider these points Monday evening, Dec. 2, at 7:30 p.m. in Santa Rosa's lounge.

This will be an official meeting of the English Majors' forum but all interested students are invited to sit in on the discussion and offer suggestions and criticisms for the publication.

All-College Lecture Features MacCarthy On 'Youth Fitness'

Shane MacCarthy, executive director of the President's Council on Youth Fitness, is the guest speaker in the next of a series of All-College Lectures in the new Classroom Building auditorium, Dec. 11 at 4 p.m.

MacCarthy's speech is titled "The Fitness of American Youth" and is an outgrowth of his work in the Council on Youth Fitness established by President Eisenhower in June, 1956. The council's work has been directed primarily toward "promoting existing programs and launching additional programs which will enhance the fitness of American youth."

MacCarthy is a native of Ireland who was educated at the Catholic University of America. He holds the Doctor of Law and Doctor of Human Letters degrees from New York University and Salem College, West Virginia, respectively.

Since 1934 he has held posts in various federal agencies, including Interior, Agriculture, Labor and State. He has taught in the political and social sciences at Georgetown University, Catholic University and Southeastern University.

The President's Council on Youth Fitness was organized around this problem, as phrased by President Eisenhower: "That national policies will be no more than words if our people are not healthy of body, as well as of mind, putting dynamism and leadership into the carrying out of major decisions. Our young people must be physically as well as mentally and spiritually prepared for American citizenship."

LA CUMBRE

Jan Bartlett, La Cumbre Editor, announced that students who wish to submit candid pictures for publication in the yearbook may do so now. Pictures will be returned at a later date, she added.

'Sounds of Music,' Annual Fall Festival, Closes Tonight; Faulkner Directs SBC Orchestra Through Musical History

Tonight marks the end of a three-day musical symposium presented by the Music Department.

To the theme, "The Sounds of Music," this fourth annual fall music festival has featured faculty, students and guest artists. The program takes the audience through several facets of musical art, emphasizing the differences in media and textures through

FRESHMEN DONATE PERPETUAL CROWN

A perpetual crown trophy has been donated by the Freshman Class to UCSB students, Bruce Patterson, Freshman Class president, announced recently.

To be used for the coronation of all future campus queens, the rhinestone-encrusted crown was first worn by Homecoming Queen Marty Campilio.

Susie Lidicott, in charge of the purchase, says that the crown will be worn by the queen only through the ceremony, after which it will be returned to the campus, with the queen receiving another type of award in her honor.

Purchased by the Freshman Class out of class funds, this was the first attempt of any freshman class to make a donation to the school. Patterson indicated that this gesture on the part of the Class of '61 should set a precedent for other classes to follow.

Display Policy Set By Art Committee

Policy concerning displays in the seven large glass cases in the new Classroom Building was established in a preliminary statement issued by the Art Objects and Displays Committee, of which Howard C. Fenton, Art Department, is chairman.

This committee, which is to approve all such displays, feels that material of general interest to the faculty and student body would be more desirable than material advertising campus events.

A request is made of faculty and student organizations for suggestions for aesthetic and informative displays in these cases. Communications should be addressed to Mr. Fenton, chairman of the art department.

GAUCHO NOTICES

The Phi Lambda chapter of Omega Tau Lambda will meet at the house today at 6 p.m.

There will be an organizational meeting of the Sociology Club today at 3 p.m. in Bldg. 423, Room 215. All sociology majors and other interested students are invited to attend.

Veterans under P.L. 550 (Korea), State, and also veterans' dependents should sign vouchers on Dec. 2 in the Dean of Students office.

several periods of musical history.

Tonight's Program

The final concert tonight exemplifies the changing concepts of orchestral color and techniques from the earliest time in which the art of "orchestration" can be said to exist to the present time. Work from different periods will be featured.

Under the direction of Maurice Faulkner, the University Symphony Orchestra extends its pieces was the predominant theme in last night's program. Included in the presentation was an unaccompanied duo for violin and cello, the Poulenc Trio range of works from a Giovanni Gabrieli canzona through a movement from Brahms' Fourth Symphony to the Chostakovich First Symphony.

Sacred Text

Sunday evening witnessed the choral and orchestral groups performing four settings of the sacred text, "Stabat Mater Dolorosa," which was a favorite for composers during the Renaissance and Baroque periods.

Van Christy, Maurice Faulk-

UCSB DIRECTORY ISSUED DEC. 3

The *Student Directory*, a guide to all campus life, will make its 1957 appearance at UCSBC on Dec. 3. In this booklet is a list of every student's local address and telephone number, permanent address and year in school. Also included are the addresses and telephones of the faculty and administration, as well as the Associated Student Body officers. The fraternities and sororities and the residence halls also are listed.

The booklets will be on sale at the Student Union, Library, Las Casitas and in the Graduate Manager's office. Price is 40 cents.

Chimes, junior service organization, is assisting in the circulation of the directory.

Miramar Hotel Is Speech Confab Site; Three SBC Orators Enter Competition

Three UCSB speech majors have been selected to present a dramatic reading at the Western Speech Convention to be held at the Miramar Hotel over Thanksgiving. Janice Asper, Bruce Loeb and Rosalind Pfaff will read an hour-long selection from Jane Austen's novel, "Emma." The same dramatic reading will be presented Tuesday, Dec. 3, at 8 p.m. in the Classroom Auditorium.

Approximately 400 delegates, including educators on the secondary school and college level from 11 Western States, will attend the convention. Fields ranging from asphasia testing and therapy to public speaking and the professional theater will be represented.

Among the visiting speakers will be Ben Bard, director of new talent at Twentieth Century-Fox Corp., and Charles Coburn, actor and former professor of drama at Union College, Schenectady, N.Y. UCSB faculty members will participate throughout the events.

An international debate will take place Friday at 8:30 p.m. in the Lobero Theater on "Resolved: The U.S. Has Yet to Prove Her Capacity for World Leadership." The public is invited to attend and there is no admission charge.

ner, Stefan Krayk and Carl Zytowski, faculty members of the music department, conducted these works. Soloists in the Berkeley work were faculty member Dorothy Westra and Zytowski and guest artists Shirley Easley, Chieko Sakata, John Walsler and Robert Walton.

Chamber music for two to five for three bass instruments, a woodwind quartet by Malipiero and the famous Schubert "Trout" quintet.

Charities Committee To Hold Food Drive

Christmas, for the ones in need, it just another day when the poor try desperately to make ends meet. The Christmas season is totally without the holiday spirit which we, the more fortunate, are so well acquainted with.

There is now available an easy way to make this Christmas a special day full of happiness for those who know life only as a routine struggle for existence.

Charities Committee is holding its annual "Christmas Food Drive," starting Monday, Dec. 9, through Friday, Dec. 13. Sacks will be distributed to the presidents of all the living organizations. The living groups will have until 4 p.m. Friday to fill these sacks with canned foods. It is hoped that the sacks will be bulging. The food will go to the Santa Barbara Council of Christmas Cheer for distribution to needy Santa Barbara families at Christmas time.

A small amount of time, money and effort will make Christmas take on a different meaning for the more unfortunate.

Uncle Scrooge set a fine example of one who had plenty and brought happiness to the needy, namely Tiny Tim and his family. Not only will the food add joy to these people's hearts but they will have the feeling that they are not really alone and someone does care.

FACULTY SLATES KERR RECEPTION

Faculty Club is busily arranging an informal reception for Chancellor Clark Kerr. The reception is scheduled to take place Monday, Dec. 2, from 3 to 5 p.m. in the Faculty Club.

The affair is for the purpose of acquainting President-elect Kerr with each member of the Santa Barbara College faculty.

Let's Have Action . . .

Ed Note: On this page is an article by El Gaucho Managing Editor Lou Robinson concerning the access road to the campus. Since its inception in the now almost ancient-history annals, the issue has been kicked around to please anyone who comes forward with a rebuke for the proposals. Nothing concrete is being accomplished by this political hasseling which has in effect clouded the original premise for an access road. *El Gaucho* feels that the issue is of tremendous import to the student body and has been doing research on the subject for several weeks. The end of this article will by no means be the end of its presentation to the students. We feel that the road was originally planned to provide a route to the campus which would take the students off the highway and, consequently, remove many hazards involved in commuting between the community and the school.

The powers-who-be have not taken the basic issue into consideration—an access road to a state university free from traffic hazards—but have temporarily rejected or, at the most, taken no action on, the proposal that we feel is valid.

Various plans have been presented, most of them hinging on satisfying some segment other than the university. We don't mean to say that our every whim should be satisfied; what we contest is that we will be using this road, that the university is an asset to the community and state and that the education received at a university must have some worth or the state is pouring a lot of money down the drain supporting this school. Considering these points, we feel that there is no valid argument for not considering our plans in this matter.

The progress (which is next to nil) in this matter will result in an access road (somewhere) that will be inadequate to handle the traffic as a result of the school's growth in the interim.

The solution is for some action on the part of the officials involved replacing the bickering and legal loopholes that have dominated the scene to date.

We hope that you, the students who will be using the access road, will conscientiously consider the matter. *Ray Ward*

Letter to the Editor

Dear Editor:

It was forcibly brought to our attention in the November 12th edition of the *El Gaucho* that in spite of our earnest endeavors in the GGR, for which we were substantially rewarded with a lovely first place trophy in the mixed-division, we were completely ignored in your article presenting the winners to the public. (We were absitively, posilutely crushed).

At a special hall meeting called to deliberate on this deep injustice, it was unanimously decided to inform you of this gross error.

With sincerest regards, (Just don't let it happen again)

Mary Kay Clemens
Secretary of Laurel Hall

Ed Note: Laurels to Laurel Hall for its victory in the recent GGR. A fine, well-rounded group, which gets our congratulations for a skit that was well cast.

'SAFETY' DISREGARDED IN LATEST PROPOSAL BY HIGHWAY COMMISSION

by Louis G. Robinson

On Aug. 27, 1954, Santa Barbara College submitted to the Regents of the University of California a proposal requesting consideration of an access road to Santa Barbara College. They urged that the University, in co-operation with city, county and state officials, investigate the possibility of a direct road between the city of Santa Barbara and the college which would: 1) take the students off Highway 101, as a safety measure, and 2) provide direct access from the city to Santa Barbara College. The proposal was accepted by the Regents and recommendations were made to state officials representing Santa Barbara County in the California Legislature. They in turn took steps to get the

that the original purpose of the proposed access road has been distorted out of proportion. Some state officials have decided to make a political football out of the issue. The Regents of the University have urged them to keep in mind the primary purpose they sought in having an access road—*safety*—to keep the students off Highway 101, since that highway is so heavily overburdened with interstate trucking as well as all manner of interstate traffic transversing this area.

As originally proposed by the Regents, the access road would begin at the La Cumbre Road intersection with Highway 101, skirt the edge of Hope Ranch, parallel an abandoned railroad bed along the beach, and approach the college from an easterly direction.

Chief Objection

The chief objection to this route has come from Sen. John J. Hollister, California state senator from the county of Santa Barbara. The senator envisions our present slough being transformed into a thriving yacht harbor which would not only increase surrounding property values but would also enhance prestige to this area and the college. Sen. Hollister feels that the proposed road would block the entrance to his "dream of the future." How possible a yacht harbor would be in this area is another thing. In a report made by Col. Charles T. Leeds, a Los Angeles consulting engineer, to the State Lands Commission, was presented evidence for the "possibility" of a yacht harbor in the slough area. However, even the proposed sketches of the harbor show faults, as the entrance to the harbor presented would interfere with aircraft approach patterns employed by the airport. At most, the yacht-harbor plan is but an ambitious proposal with more arguments against than for it. But this has been the sena-

tor's argument and this is partly why today we still have no access road.

Many other problems have come into play since our access road was first presented for consideration. The State Highway Commission, too, has been a delaying factor. Time and again the commission has seen fit to skirt proposals submitted to it by not only state authorities but also the University Regents and Santa Barbara city and county officials.

How do we stand by today?

Numerous proposals have been made by the Highway Commission which would: 1) allow the college to have "a" college road, 2) please Sen. Hollister by not allowing the road to endanger the proposed entrance to the proposed harbor of the senator's dreams, and 3) appease the Regents of the University by allowing the road to approach the college from an easterly direction. (The entire campus is so planned architecturally that a westerly approach would probably disrupt the entire scheme of the campus layout.) "A" college road is mentioned here because that is all that the proposed alternate would be. It would merely be "a" road which the commission and all involved hope will settle the natty problem presented.

Basic Purpose

The basic purpose of the road as originally presented by the Regents hasn't even come into consideration here. The original proposal was for the purpose of getting the students off Highway 101. This idea has been lost in the shuffles of politics, protocol and reason.

Since the beginning of this semester, there have been at least four major traffic accidents in which college students have been involved or injured. They have occurred in those stretches of Highway 101 and Hollister Avenue which are in question. Could those accidents have been avoided if the college road, as proposed originally by the Regents, were now in existence? Possibly they could have. And what about the future? Will alternate proposals, as presented by the Highway Commission, be able to handle the increase in students estimated for Santa Barbara College?

It is estimated that 10,000 students will be enrolled in this college in 10 years. As our enrollment increases so will our traffic accidents increase unless a realistic plan is formulated now and petty squabbling is eliminated.

ATOMIC POWER POOL WITH ENGLAND CAUSES MAJOR SECURITY PROBLEMS

by Clark Reynolds

The greatest espionage and security problem perhaps in the United States has been the ever-present shadow of atomic power and how to guard its secret from the enemies of the free world.

Since the first New Mexican atom blast in early 1945, the Federal Bureau of Investigation has been plagued by the Communist spy system within the government. But it has met the problem with relative success.

The War Office of Great Britain has also been under pressure from foreign enemy agents and, plus this, Great Britain has failed to guard its secrets!

Thus it is on this stand that President Eisenhower is hesitating as to a decision of pooling of the atomic forces of the two nations. Why give away atomic secrets to an unsafe source such as England?

The initial atomic leaks came during the war when the U.S.S.R. was considered an ally and member in good standing of the United Nations.

Dr. Allan Nunn May worked, as a British scientist, on several Canadian-American atom projects from 1942 to 1945, when he was arrested, confessing that he had transmitted everything he knew to the Soviets.

Dr. Klaus Fuchs

An active Communist since 1933, Dr. Klaus Fuchs, who professed he needed political asylum in England in 1940 (being German-born), worked on numerous Allied atomic projects from 1943 to 1950, when he, too, confessed his disloyalty and aid to Russia. His accomplishments are summed up in the widely quoted statement, "He did more damage than any spy in the history of nations."

British-naturalized Italian scientist, Dr. Bruno Pontecorvo took, after working on Allied projects, a "vacation" to Moscow in March of '55, where he has remained ever

since. Two months later two British intelligence experts, Donald Maclean and Guy Burgess, turned themselves over to the Soviets with a full report of the latest atomic "dope" from Britain.

And it was Burgess who supplied the Reds with the vital U.S. directives forbidding Gen. MacArthur's advance into Red China during the Korean conflict, thus bringing on the near total destruction of the U.N. forces in North Korea early in the war.

Vital Information

Men as these have served on British legations and boards in the United States and have had, and perhaps still are having, more access to vital information than many American top officials.

As this blackened record of the security of Great Britain's atomic defenses is unfolded, the President is forced to take no other action than to refuse to commit our most important secrets to England.

With these facts presented to the people of the country, no doubt pressure will be eased on the administration. Until then, however, ignorant loud-mouths still persist in aiding the Communist movement by voicing their uncouched opinions on world affairs. And such a person is of more benefit to the Kremlin than 10 Communist rifle teams in action.

PREVIOUS AND PENDING ACCOMPLISHMENTS OF FROSH COUNCIL SHOW VARIETY OF INTEREST AND SPIRIT

One of the most unusual accomplishments on the campus this year is the new Freshman Class, more formally called the Class of '61.

The Freshman Class Council, headed by Class President Bruce Patterson, is a new addition to the freshman status on campus and, as a point of information for interested frosh, there are still four vacancies on the council.

cil.

The accomplishments of the council have thus far surpassed any efforts of previous frosh classes, beginning with the erection of a float for the Homecoming Queen through the tireless efforts of many class members.

Along with the Homecoming festivities the council donated a new rhinestone crown to the

school, to be used for all coronations but especially for Homecoming queens, in commemoration of the first crowning this year.

The council is preparing a constitution for the Freshman Class, the document to be for the use of all succeeding frosh classes. A committee already has completed its first draft.

Other important items of interest are now under way within the council but the initial step toward completion of the body is the filling of the council ranks.

The next meeting of the council is one week from today, Tuesday afternoon, Dec. 3, in the Huddle at 3 o'clock. At that time petitions will be handed out to candidates who desire a voting position on the council.

All Freshman Council meetings are open and each and every freshman is invited to sit in on the discussions to "get the word" on the latest activities. The voting membership on the council will be 17 when capacity is reached.

MODERN COEDS ADOPT STYLES SET BY "JOSY"

by Lee Vanosdall

Everyone has heard of Darwin's theory of the evolution of man but not too many are aware of the theory of the evolution of fashion which is occurring right before our eyes.

Most of us can remember the "sloppy-joe" sweaters of the '40s. After the war they slowly disappeared—but not completely. Take a look around the campus and you'll see them today, worn over the latest fashion fad, Ivy League shirts, which also aren't as new as they seem.

The same can be said about those very stylish pointed-toe shoes. If I remember correctly, this style was also the rage during the '20s. Another revived fashion of the '20s are the chemise dresses which have been appearing more and more frequently in the fashion news.

Just a few seasons ago the empire silhouette was "the thing." This particular style dates way back in fashion history. Seems to me Napoleon's Josephine appeared in a few little numbers of this style.

Not to be forgotten in our theory of fashion evolution are men's styles. The "new" narrow lapels and three-cutton suits are very reminiscent of when Grandpa was a beau. He thought they were pretty sharp too.

Where's it all going to end? Who knows? Could be we'll devolve right back to the hourglass figure and bustles!

New Judicial Setup In Casitas Dorms

Interpretation of the University rules concerning the residents of Las Casitas Girls' Residence Halls is being left up to the newly formed Las Casitas Judicial Committee this year.

The committee, in its first semester of existence, already has proven itself. Its meetings are held weekly in one of the five Girls' Casitas Halls. There is one judicial chairman from each hall with a housemother or RA sitting in on the session. The chairman from the host hall usually presides.

Judicial chairmen and their respective halls include: Mary Pyle, Madrona; Janet Stubblefield, Manzanita; Judy Goolsby, Oak; Carol Ozanian, Palm, and Arlene Kehl, Laurel.

Rules Conflict

Last year each of the halls had its own separate judicial setup and more than once the rules conflicted. The punishment of the offender would depend on which hall she was in. This year's plan not only does away with this but makes for unity in the five residences.

What doesn't seem to be clear in everyone's mind is that the committee has the final say in all the cases. Its purpose is to give majors and minors out according to University rules. However, unusual cases receive careful thought and the five chairmen make their own fair and just decisions.

Questions Allowed

Anyone may ask to appear before the committee if there is any question as to the fairness of her penalty. All she has to do is contact her hall chairman.

The committee has also displayed a willingness to go around to any hall and explain its policies and clarify the University rules.

Scabbard and Blade Initiates Members

Santa Barbara Campus company of Scabbard and Blade, national military science honorary, initiated 14 new members at a recent meeting of the society. The initiates are upper-division ROTC cadets, elected by the active members of the company.

The new members are Michael W. Andrews, David L. Garst, George Hart, Alva Jones, Robert Kieding, Stanley McGinley, Melville R. Sahyun, Thomas C. Potter, Herbert C. Simpkins, Donald W. Steiger, Marvin L. Van Horne, Frank S. Whittington, Bruce Varner and Ronald C. Wyse.

These members are now taking an active part in the affairs of the company. Several committees, including one for the planning of the annual Military Ball, have been appointed from among the new members. Frank Whittington served as a delegate to the national Scabbard and Blade convention held in St. Louis this past week.

RHA Announces Its Annual Open House

The Residence Hall Assn. announces an open-house inspection of campus men's and women's dorms Sunday, Dec. 8, from 2 to 5 o'clock.

The student body and the general public are invited to attend the open house and a "get-together," which will be held in Santa Rosa Hall.

Dec. 2 Deadline Set For Doll Contest

Students competing in the doll-dressing contest are reminded to turn in their dolls Dec. 2 at Room 1211 at Santa Rosa Hall. The contest is sponsored by the AWS and is its annual Christmas project. Approximately 90 dolls have been distributed throughout the campus for rejuvenation.

Judging is scheduled to take place Friday, Dec. 6. Entries are judged on over-all appearance, originality of costume, and quality of workmanship. There are several categories, and two or three prizes will be awarded in each. The categories are "Miss Universe," which includes dolls dressed in foreign costume; "Baby Doll," "Miss U.S. Fashion" and "Most Original." Winners will receive ribbons.

Sally Richards, chairman of the project, said that the dolls will be turned over to the Council for Christmas Cheer on Dec. 9, and from there will be distributed to the underprivileged children of Santa Barbara at Christmas time.

URC NOTES

Interfaith Council meets tonight at 5:30 for dinner and meeting at the URC Building.

Episcopal student Holy Communion and breakfast will be held at 6:45 a.m. Wednesday at the URC Building, 781 Embarcadero del Mar.

The Religious Conference Chorus will not meet this week due to the Thanksgiving holiday. Next meeting will be at 3:30 Thursday, Dec. 5.

SWING TO HOT JAZZ LICKS WITH THE DORSEY BROS.

A golden dream got under way in 1935 and has made a sudden disappearance within the past year. That dream was the six-letter name "Dorsey," preceded by those two immortal prefixes, Jimmy and Tommy.

The somewhat mediocre swing band of the Dorsey brothers made an unusual disappearance in '36 and soon, very soon, two separate bands reappeared. Jimmy and Tommy, quick-tempered as they both were, had declared official war between each other.

From the standpoint of jazz history, this was a wonderful milestone in music. The Tommy Dorsey Band quickly skyrocketed to "Sentimental" game, and hot-jazz Jimmy burned up the juke boxes with his sizzling clarinet between 1935 and 1940.

In the latter year, drummer Buddy Rich and vocalist Frank Sinatra joined T.D., and trumpeter Ziggy Elman replaced Bunny Berigan.

Song hits such as "Marie," "Song of India," "Boogie Woogie," "Opus No. 1," "Swing Low, Sweet Chariot" and "Hawaiian War Crant" sold millions. Soon Dick Haymes replaced Sinatra and Connie Haines and Jo Stafford sang.

Next Week: Artie Shaw.

"Next — SIX in a Row!"

You will be pleased with our work.

Sports

Intramural Teams To Begin Basketball

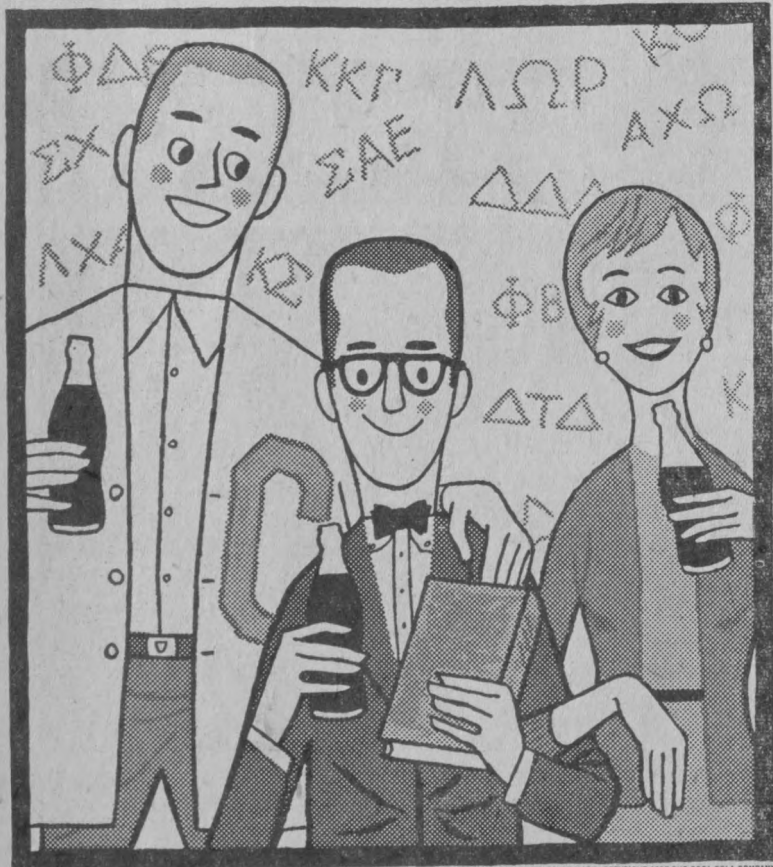

Intramural basketball season has begun, opening with the largest turnout of teams in the history of UCSB—18 teams. New additions to intramurals this year is a faculty basketball team. All games will be played between the hours of 7 and 10 p.m. in the UCSB gymnasium. Following is the schedule for the ensuing week:

- | | |
|--|--|
| November 26 | December 3 |
| 7:00—Delta Tau Delta vs. Sigma Pi; Sycamore vs. Birch. | 7:00—Sigma Pi vs. Delta Sigma Phi; Independents vs. Sycamore; Pine vs. Hustlers. |
| 8:00—Kappa Sigma I vs. Sigma Tau Gamma; Larrencians vs. Cypress. | 8:00—Faculty vs. Sequoia. |
| 9:00—Lambda Chi Alpha vs. Kappa Sigma II; Faculty vs. Hustlers. | 8:00—Sigma Alpha Epsilon vs. Kappa Sigma II; Californian Hotel vs. Hustlers. |
| December 2 | 9:00—Delta Tau Delta vs. Lambda Chi Alpha; Birch vs. Cypress. |
| 7:00—Californian Hotel vs. | |

WATER POLO SEASON ENDS AS UCLA SHUTS OUT SANTA BARBARA, 15-0

UCLA's powerful water polo team swamped the Gauchos, 15-0, last Friday in the College pool. After taking a 2-0 lead in the first quarter, the Bruins shut out any Santa Barbara hopes for victory by scoring six times in the second period.

This was the second straight win for the Bruins over the Gauchos. Santa Barbara was unable to move the ball against the UCLA defense. Most of the play took place on the Santa Barbara side of the pool as time after time the Bruins stole the ball or intercepted passes.

The Bruins increased an eight-point half-time lead to 11 by the end of the third quarter. The Gauchos were held to three goal attempts while they were kept busy defending against 31 tries. Bruin Bill Fox dominated the scoring by tallying seven digits.

The Gauchos, in their first season, failed to win a game;

they seemed to lack offensive ball control as they averaged between 10 and 15 shots a game while their opponents averaged close to 30 shots a game.

Santa Barbara loses only two players by graduation—Goalie Brian Hurst and top scorer and captain, Ron Wilmot.

The Gauchos are able to look forward to having a good number of experienced players on hand next year. Possible returnees for next year's squad include Guard Bill Bryson, Forwards Walt Switkin, Don Smith and Stan Guth, Guards Bobby Miyashiro, Warren Glaser and Les Meredith, and Center Backs Ed Nelson and Bob Bowen.

UCSB Cross Country Team Finishes Third In Conference Meet

Santa Barbara's cross-country team finished third in the California Collegiate Athletic Assn. run behind San Diego State and Long Beach State. The meet was held last Saturday at San Luis Obispo.

This marked the seventh straight championship for San Diego as they won seven of the first eight places for 15 points, followed by Long Beach with 69, UCSB with 73 and Cal Poly with 86. Due to injuries, the strong Fresno State team was forced to cancel its entry.

Bill Gallaher, Ed Abisak and Clarence Hanken of San Diego finished in a dead heat for first place and were followed by teammates Bob Gallaher and Bob Larsen in fourth and fifth, respectively.

The Gauchos' Bill Collins, finishing in sixth place, led the Santa Barbara runners and Raul Yanez placed eighth. The order of the Santa Barbara finish was: Collins, Yanez, Jerry Mullins, Rosendo Castillo and Bob Oldham.

This marked the last meet for the 1957 team and for Captain Bill Collins. Coach Nick Carter will have the entire team (except for Collins) back next year. The returning group includes Yanez, freshman; Mullins, sophomore; Ned Wilson, junior; Castillo, freshman; Oldham, freshman; Herb Leiper, sophomore, and Paul Stein, freshman.

Montecito CC Downs SBC Women's Team

The Santa Barbara women's tennis team was defeated by the Montecito Country Club women's team, 5 to 3, last Wednesday afternoon. The match, which was played on the Montecito courts, was a series of four doubles matches.

The scores of the matches were:

Martha Omerly and Eve Wilson (MCC) tied Jo Broun and Mary Sue Thompson (SBC), 6-2, 7-9; Madole de Mott and Brooke Williams (MCC) defeated Brooke Claridge and Marlene Gillette (SBC), 6-3, 6-3; Dora Bradley and Alexandra White (MCC) tied MariLynn Conley and Mary Pyle (SBC), 6-1, 3-6; Pat Bair and Donna Beeler (SBC) tied Bonnie Bircher and Martha Clyde, 6-2, 1-6.

Volleyball Signup

The Santa Barbara YMCA is holding an indoor doubles volleyball tournament beginning Dec. 4 at 7 p.m. Entry fee will be \$2 per team. All entries must be in by Tuesday, Dec. 2. Entries may be made at the YMCA or with Les Meredith at 71625.

GAUCHOS SEEK UPSET OVER POLY THURSDAY

by Russ Hoyt

Santa Barbara's gridmen hope to make a very successful football season even more successful Thursday when they take on the powerful Cal Poly Mustangs at Poly Stadium in San Luis Obispo. Game time for the Turkey Day clash is 11 a.m.

Rescheduled for Thanksgiving Day after the flu bug hit Santa Barbara, the contest now takes on even more lustre than previously. The powerful Mustangs, enjoying one of their best seasons, boast a 7-1 record. They are undefeated in college competition, holding wins over such clubs as San Jose State and Fresno State. Cal Poly's only loss came at the hands of the San Diego MCRD. The Mustangs are ranked 12th among small-college teams.

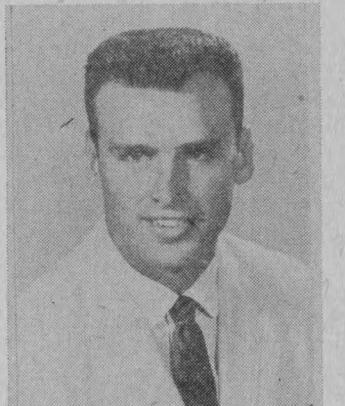

Santa Barbara, having one of its finest seasons, has mercifully beaten the last five opponents on the Gaucho schedule. Except for a momentary lapse against Occidental, the Gauchos could have been the only undefeated college outfit on the Pacific Coast.

Trauthen Ready

At the beginning of last week the Gauchos, who have been tabbed as 17-point underdogs, faced the loss of their starting quarterback, Don Trauthen. However, Trauthen, at last report, will be ready to go against the Mustangs.

This news will undoubtedly be greeted with a large amount of dismay by Cal Poly. Trauthen has provided the Blue and Gold

with a dangerous air attack as he has passed for 610 yards and nine touchdowns. Spearheading the ground game, in what promises to be the most important Gaucho game in years, will be Johnny Morris, Bruce Varner, Duke Ellington and Gates Foss. In the line, Gaucho Coach Ed Cody is expected to open with Kelly Hoover and Jack Lyon at the end positions, Bob Lopez and Ray Schaaack at the tackles, Jim

Don Trauthen

Pullman and Vic Snider at the guards, and Leon Schumaker at center.

The inspired Gauchos may be even more fired up by the fact that Santa Barbara has not defeated a Cal Poly outfit since 1950. Since 1951 Santa Barbara has scored 15 points against them, while Poly has tallied a resounding 158 points against Gaucho defenses.

If comparative scores mean anything, then UCSB must be given a good chance for victory. Against two common opponents, Pepperdine and Long Beach State, the Gauchos come out second best but by only a very slight margin. Santa Barbara defeated Pepperdine 32-14, while Poly beat them 32-18. The Gauchos downed Long Beach 28-7 and Poly dumped the 49ers 41-7.

THE WIT TO WIN

Moon Mulline, the old Notre Damer who coached St. Ambrose before moving on to Kansas State as athletic director, was a disciplinarian in the tradition of Knute Rockne. He was dead set against smoking and told his players so. One day he came around a corner unexpectedly and spied one of his boys frozen against the wall, a lit cigarette at his feet.

"What about that cigarette?" he demanded.

"You can have it, Coach," the boy said. "You saw it first."

'C' Meets Tonight

The Block "C" is holding its combination business and social meeting tonight at 7:30 at the Recreation Center on East Carrillo Street. A short meeting will be followed by fight movies and refreshments. According to President Dave Iman, all lettermen should make a special effort to attend this meeting.
