EVEN BEFORE YOUR NAME IS ON THE DIPLOMA, YOUR NAME COULD BE ON THE AMERICAN EXPRESS CARD.

It's not too long until you'll be walking up to get your degree. But there's something you could get right now that will help you in any walk of life. The American Express® Card.

Because if you're a senior and you've accepted a \$10,000 career-oriented job, you could get the American Express Card.

That's it. No strings. No gimmicks. (And even if you don't have a job right now, don't worry. This offer is still good for 12 months after you graduate.) This is a special offer from American Express because, as graduating seniors, we think you're kind of special. In fact, we believe in your future. And

this is the best way we know to prove it.

Of course, the American Express Card will prove to be a great help to you in your career—for travel and for entertaining. And, to entertain yourself, you can use it to buy some new clothes for work or some new things for home. In addition, the Card is also a great way to help you begin to establish your credit history.

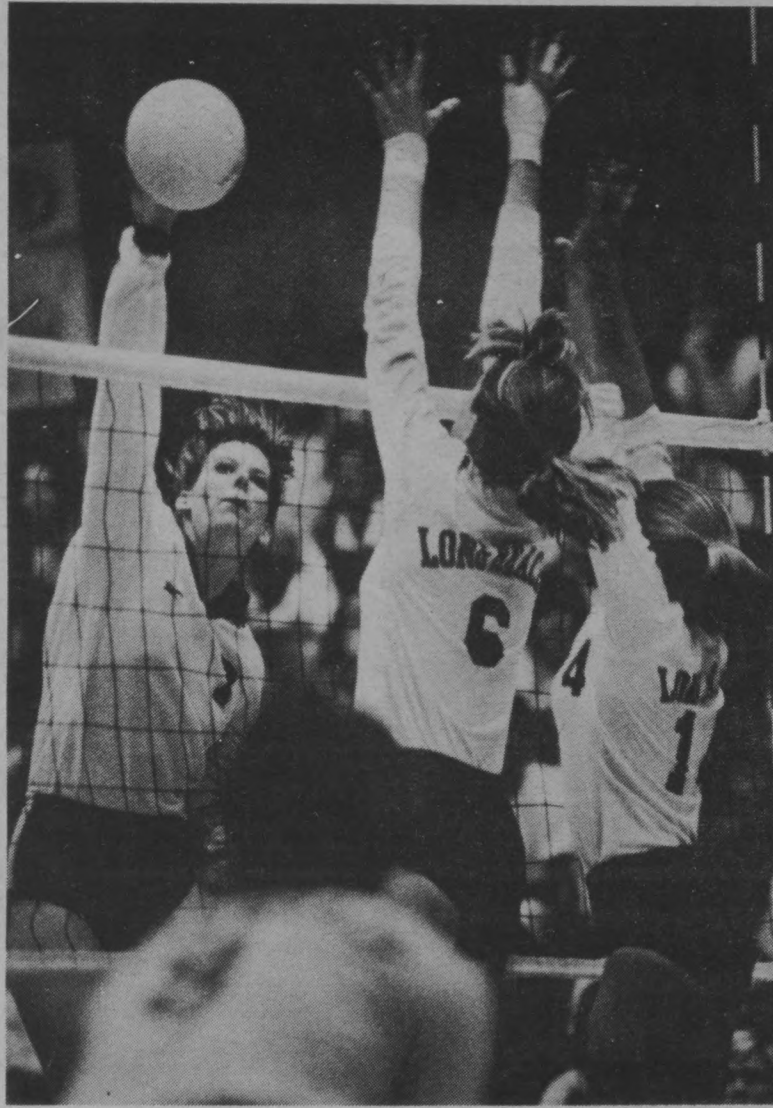

So call 1-800-THE-CARD and ask to have a Special Student Application sent to you. Or look for one on campus. The American Express Card. Don't leave school without it.™

Dear Mom and Dad,

It has been a year since I left home and came to UCSB. I was originally scared to learn; especially things about myself. You told me that college should be a place where I can put together all the experiences I have had and become a person; unique unto myself. That is what I have done since September.

There are many experiences I want to tell you about. Some of what I will share will hurt you, and some will also make you tear (but with happiness). I'll start with something that some people consider major and some only minor in significance. I don't even know why I or anyone else should ever have to say something like this but my world has certain standards by which I am compelled to abide. I am gay.

I don't think that is surprising to you. I think that you and I knew it for a long time. I wish that I did not have to "come out" but I have had to hide a very important aspect of my life in order to protect my family's status. I also needed to "come out" because I could not live what I am not. In the past I was forced to hide; that is in my past!

I want you to realize that I am the same son that I have always been. I still love you both very much. Nothing has changed except that you now know one more thing about me. You already know that I hate tomatoes, like flying, am allergic to penicillin, have brown eyes, etc. This is just one more aspect of the many things which make up your son. It is not any more important than any of the other items.

It was very difficult for me to get to this point. I searched for other people who felt a void inside and were hiding like me. I eventually found a gay and lesbian rap/support group which met weekly at the Women's Center. I also found a student group that had dances and other programs to meet other people like myself. Being gay is not very different, just more demanding. I have to remember that before I had come out I was in the majority. I did not have to feel inferior because I was like everyone else. I now know that I am not inferior; only different. I am unique. I also believe that it is better this way. It would be horrible if

everyone were the same.

Once again, I know you are still shocked but I know that you are confident of my own growth and that I am not evil or disgusting. I still love you. I hope to hear from you soon.

Love,
R. J.

P.S. Talk to Susan's parents. She told them that she was a lesbian while we were juniors in high school. They might be able to help you understand and feel more comfortable.
