Notice of Impending Development

In accordance with Section 13549 of the California Coastal Commission Administrative Regulations, the University of California, Santa Barbara (UCSB) hereby gives notice of impending development to begin on or near April 1, 1994.

Project Title: Military Science Building.

Description: The proposed project will provide relocation space for the UCSB Military Science program. The existing Military Science buildings on Main Campus will be removed for construction of the Humanities and Social Sciences Building. The project consists of single story, pre-fabricated modules placed around a central quadrangle that will be used for assembly and drill and ceremonies. The project includes construction of a parking lot and provision of utilities to the facility. The Military Science project would be the same size as the current Military Science facilities (8,740 overall gross sq. ft.) with no increase in the number of faculty, students or staff.

Location: The proposed location for the project is on Storke Campus, just west of the southwest corner of Harder Stadium. The project site consists of approximately four acres of level, disturbed non-native grassland located south of the east Storke Campus wetlands and north of the Storke Field recreational area.

Additional Information: Please contact Catriona Gay, at UCSB, (805) 893-8430 or write:
