No. 37

CAREFUL STUDY OF FACTS REQUESTED BY NAIMAN

by Bruce Loeb, *El Gaucho* Editor

In an unexpected move the Legislative Council voted Tuesday night to request the Faculty Committee on Student Conduct to reopen the case of the Delta Tau Delta fraternity. The Deltas have been placed on probation until February, 1960, for violation of Regulation 25 concerning the serving of alcoholic beverages at their "Viva Zapata" party March 7.

The surprise motion was presented by Men's Rep Dennis Naiman and passed by a considerable margin after lengthy discussion.

The motion states: "... Legislative Council request that the joint faculty-administrative committee reopen the case against the Delta Tau Delta fraternity to review more carefully the facts and the decision with the aid of the Associated Students' Standards Committee."

Damage Relations

Commenting after the meeting on the effects of Council's action, AS President Stan McGinley stated, "If there are any effects, it will result in damage to the relations between the faculty, administration and the students." (See Editorial, Page 6.)

Naiman presented the motion with deliberation. He began by stating he was "not standing up for the Deltas" but "standing up for Standards Committee and the student body."

Lesser Penalties

To support his motion, Naiman cited examples involving the Sigma Phi Epsilon fraternity and the Kappa Sigma fraternity in which lesser penalties were given for violating University regulations.

He stated the school's public relations with the city of Santa Barbara were damaged more by the action of the Kappa Sig's theft of lumber for Homecoming than were UCSB's relations with USC as a result of the fight at "Viva Zapata" involving a USC student.

It was learned Wednesday that the man who engaged in the fight with Crawford is "Ton" Morgan, formerly of USC, now attending Long Beach State.

Naiman expressed the view that the Deltas should not be punished for the actions of non-Delta John Crawford who took part in the fight at the party.

Bypass Standards

He strongly questioned the reason for bypassing the Standards Committee in handling the Delt case. "Why do we have a Standards Committee when they take their power away all the time?" Naiman asked.

He remarked that President Clark Kerr and Chancellor-elect Samuel B. Gould have indicated recently that more responsibility should be placed in the hands of the students.

'Go Home, Kiddies'

He concluded his remarks by saying that, in this case, the administration appeared to have taken the attitude of "go home now, kiddies, the game is over." He called for Council to "stand

CHARTER DAY TUESDAY

Huxley To Receive Doctorate of Literature; President Kerr, Chancellor Gould To Speak

by Carole Kinser

President Clark Kerr and Chancellor-elect Samuel Gould will take part in the three days of charter anniversary ceremonies at UCSB next week. Featured during the anniversary observance will be a cap-and-gown formal ceremony with Aldous Huxley, visiting professor at large, giving the Charter Day address. Speeches will be made by President Kerr and Vice Chancellor Noble.

Classes Dismissed

Students will be dismissed from class for the ceremony, to be held on the Mall between the Music and Classroom Buildings, at 11 o'clock Tuesday.

Rev. Matthews of the First Methodist Church of Santa Barbara will give the invocation and benediction. Music for the program will be provided by the University Chorus, led by Dr. Roger Chapman, and by the Brass Choir, directed by Dr. Maurice Faulkner with Shirley Munger at the organ.

Montecito Banquet

Prof. Lloyd Browning, UCSB music professor and chairman of the Charter Day ceremonies, stated that Huxley will speak at an informal banquet at the Montecito Country Club at 7:30 p.m. Monday. Reservations for the \$3-a-plate dinner may be placed through the business manager at UCSB.

The annual Faculty Research Lecture Wednesday will conclude the anniversary observance. Dr. Hugh Kenner, professor of English, will speak on "Letters in the Space Age" in the Classroom Building auditorium.

Resident Assistant Jobs for 25 Open

Men and women students who wish to apply for the position of student resident assistants in the residence halls on campus should contact the Housing Office immediately for an application form, announced Mrs. Velma Morrell, Housing Supervisor.

There will be openings for 13 women and 12 men for the 1959 fall semester. The selection for the Residence assistants will be made by the Personnel Deans.

The Deans have requested that all applications be completed as soon as possible so that personal interviews can be held. Interviews for both men and women will be scheduled through April 15. It is hoped that final selections can be made by May 1.

Student resident assistants receive their room and board free in exchange for duties and responsibilities assigned to them in the residence halls.

Only upperclass students who have lived at least one semester in the residence halls are eligible to apply. Further information can be obtained from the Housing Office.

RECORD 161 PINTS FOR BLOOD DRIVE

While the goal of 500 pints was not approached, the 1959 Larry Adams Blood Drive was a greater success than any in the past years, according to Helen Drew, director of the Tri-Counties Blood Bank.

Miss Drew announced that 161 pints were collected from the drive. Last year's total was 115.

"This year's drive was the best organized of any we have had at the college" commented Miss Drew. "Karol Nelson (the AS Charities chairman of the Blood Drive) did an excellent job."

How Original Is Original Sin? Asks Huxley; Environment, Genetics Create Personality

Environment and genetics both play an equally integrated part in molding man's personality. Each must be given equal importance, stressed Aldous Huxley in his lecture last Monday in the Campus Auditorium.

On-Campus Housing Applications Ready

During the week of March 23-27 the Housing Office will issue re-application forms for the 1959 fall semester to all residence hall students who wish to continue living on campus, announced Miss Velma Morrell, Housing Supervisor.

These re-application forms are to be filled in at the Housing Office. Contracts will be issued at that time. Each student must make his own re-application for housing.

This same procedure will be followed for the off-campus students who desire to live in the residence halls next fall.

Miss Morell pointed out that unless students apply on the above dates accommodations on campus cannot be assured.

The price for the 1959 fall semester is \$390 for Anacapa Hall and Santa Rosa Hall and \$375 for Las Casitas Halls.

The Housing Office is open daily from 8 a.m. to 5 p.m.

Service Club Initiates Seven New Members

Blue Key at UCSB initiated seven new members this Sunday—Lon Robinson, John Fiscalini, Dennis Naiman, Ned Permenter, Bill Haskel, Norm Badion and Howard Reichner—announced new club secretary Preston Burton.

The campus service club also announced a new annual trophy, to be presented by Blue Key each year to the top athlete with the highest grade point average. A permanent plaque bearing the names of the winners through the years will be hung in the gym.

In addition, the club will initiate an annual action this year by naming six faculty members as honorary Blue Key members. In following years, one name will be added to the honor list annually.

Queen Contestants For Relays Picked

Sherry Howard, Peggy Humphreys and Wendy Ross have been selected by a panel of judges as the finalists for the annual Easter Relays Queen Contest. The selection was made yesterday at an assembly.

Monday and Tuesday the students will vote for the Easter Relays Queen. Voting will take place in the Student Union area and in front of the Library.

The Queen will reign over the Easter Relays held in La Playa Stadium Saturday March 28.

GREEK COUNCIL OF WORK . . .

GREEK WORK WEEKEND KICKS OFF WITH DANCE

Charity benefits as UCSB's 14 fraternities and sororities kick off their traditional Greek Weekend tonight with a dance. Highlight of the Friday-Saturday-Sunday Greek Weekend is free maintenance work by the groups for the city, at Pershing and Laguna parks and Santa Barbara Boys' Club.

This evening's activity begins with an exchange dessert, where Greeks host one another at their houses following dinner. Then Greeks meet at Cabrillo Pavillion in Santa Barbara to dance to the music of Steve Roland's all-Greek band from 9:30 to 11:30.

Pancakes at Park

Tomorrow, Uncle John's Pancake House provides breakfast, served at Pershing Park. Each Greek is assessed 25 cents for the Student Union fund.

Then the Greeks split up into three groups. One remains at Pershing; the others go to Laguna Park and the boys' club.

Fish Fry

The City of Santa Barbara will

say thank you tomorrow afternoon by hosting the workers at a fish fry at Pershing.

Sunday morning, Greeks will go in groups to the church of their choice.

Friday afternoon from 3 to 3:30 KEYT features Bob Chambers, who will discuss Santa Barbara fraternities and sororities.

Object of the annual project, sponsored by Interfraternity and Panhellenic Councils, is to maintain good relations between the fraternities and sororities themselves, as well as between Greek and non-Greek students and between Greeks and townspeople.

DEBATERS EARN EXCELLENT RATE

Two UCSB debate teams earned ratings of excellent at the annual Championship Debate Tournament held in Bakersfield last Saturday.

Top ratings of superior were awarded to four teams in upper division competition. George Hart and Dave Peterson compiled a 5-1 record while Bruce Loeb and Karol Nelson won four and lost two.

Bob Oldham and Pat Hansen, participating in their first tournament, won three and lost three in lower division men's competition.

FINAL PLANS for Greek Weekend, which begins with a kickoff dance tonight, are being formulated by (left to right) John Lauritzen, chairman; Ro McDermott, co-chairman; Josette Traceburu, work-day chairman, and Don Leavey, Fraternity Council Rep. —Photo by Bob Quittner

MUSIC CENTER, INC.
1325 State Ph. 2-7754

Standards Chairman Gay Wert immediately pointed out he had contacted Vice-Chancellor Elmer Noble and as a result of the meeting a plan was being formulated to deal with future cases concerning student conduct through Standards Committee.

No Obligation
Senior Class President George

Hart pointed out that under the AS Constitution the Standards Committee acts only as an advisory board to the Faculty Committee on Student Conduct. He added that Standards was not bypassed since there was no obligation for the Faculty Committee to give it the case.

Dr. Robert Kelly, Council Advisor, agreed with Hart, saying that to the best of his knowledge when Standards has made recommendations to the Faculty Committee in the past they have been followed.

Conflicting Evidence

Relating specifically to the Delt case, Naiman asked, "How could adequate evidence have been presented when the chaperones differ so much?"

"Something seems funny to me," he went on. "It seems as though the chaperones were at different parties—one at a Delt party down south somewhere."

'Even Give Odds'

IFC President and Men's Rep John Fiscalini explained that the motion would not accomplish any purpose. He said that a wise, judicious decision had been made by the faculty-administrative committee. "Anyway," Fiscalini went on, "I am willing to bet—even give odds, that their decision will not be changed" by the Council motion.

Dean of Men John Groebli told *El Gaucho* after the meeting he had no idea whether the Faculty Committee would honor Council's request to reopen the case.

"If that is the way they feel it is perfectly fine. I don't concur in their logic all the way through. I feel the Delt's got a fair shake, and their penalty fits the case."

In other Council business a move to set up a pay scale for editors of *El Gaucho* and *La Cumbré* was postponed until next week pending further study.

Kerry Gough was officially approved as editor of *Spectrum*.

\$35,936 In National Defense Loans Available at UCSB

Students at the UCSB may apply immediately for a substantial cash loan from \$35,936 allocated to this campus by the student loan program of the National Defense Education Act, it was announced by Dr. Lyle G. Reynolds, dean of students.

The local procedure is now established whereby the qualified collegian can borrow up to \$500 for this current semester—and have check in hand within two days. Necessary qualifications include financial need, high academic record and U.S. citizenship.

Information and application forms may be obtained from the dean of student's office on the campus. After completing the forms an interview must be arranged through the office of the dean of students.

The unprecedented action by the Federal government to provide loans so that promising young people may begin or continue their education was put into law last September.

It is designed to help assure the security of the nation with the fullest development of the mental resources and technical skills.

It seeks to educate more of the talent of the nation and give assurance that no student of ability will be denied an opportunity for higher education because of financial need.

Summer Session

Bulletins listing courses scheduled for the coming summer session are now available, announces the UCSB Summer Sessions office. The free booklets can be picked up at the office (Bldg. 104, Room 115), the Registrar's and the student bookstore.

UCSB READIES FOR EASTER TRACKFEST

Star-Studded Lineup Set for 21st Annual La Playa Stadium Pageant Next Saturday

by Wils Winnek, Sports Writer

Some of the world's finest track and field athletes will come to Santa Barbara a week from tomorrow to participate in the 21st running of the Easter Relays. Local fans will not only get a chance to see some great individual stars, but will also have an opportunity to watch three of the most powerful track teams in the nation vie for the Relays' crown; USC's NCAA champions, San Jose State and the independent Southern California Striders.

The Trojans, ineligible to defend their national title, may encounter the new NCAA champs in San Jose State College. Coach Bud Winters deems his Spartans capable of taking the national crown away from SC. Since, however, there will be no way of determining the validity of Winters' opinion due to the penalties inflicted upon Southern Cal, the Easter Relays could well supply the answer.

The Southern California Striders, a team composed mostly of athletes who have completed their college competition, boasts such individual stars as shot put king Parry O'Brien, distance runner Jerome Walters, ex-Trojan pole vaulter Ronnie Morris and Wes McLeod, middle distance ace.

One of the most noteworthy individual duels will be a repeat of the shot put competition that claimed national attention three weeks ago. O'Brien will place his world record on the line against the giant Trojan freshman, Dallas Long. Both have

RELAYS DUCATS PLACED ON SALE

Tickets for both the Easter Relays and the annual banquet that accompanies the event are currently on sale at the Carrillo Hotel under the sanction of UCSB and the Santa Barbara Junior Chamber of Commerce. The banquet will be staged March 26; the Relays the 28th at La Playa Stadium.

pitched the 16-pound ball better than 61 ft. this spring.

Also coming to the Relays from the Los Angeles area will be the Olympic decathlon champion, Rafer Johnson. Johnson, student body president at UCLA, will be making his first local track appearance of the year.

A special event of the Easter Relays that does not count towards the team title is the Nick Carter Mile Run, named in honor of UCSB's amiable track coach. This year's race may well be the highlight of the trackfest, with a good chance of a sub-four minute mile being recorded.

Last year's winner was the Hungarian-born Laszlo Tabori, who won in the slow time of 4:10.3. Tabori has since run the distance in less than four minutes and heads a field of entrants that reads like the "Who's Who" of track and field. Walters of the Striders ran the mile in 4:00.3 last year and teammate Max Truex has toured the distance in less than 4:05.

Relays officials are hoping that Arizona State's Alex Henderson—holder of the American two mile record—will enter the meet. With Henderson, capable of attaining the famed "four minute mile," Walters and Jack Marden of the Santa Clara Valley Youth Village all pushing Tabori, a sub-four minute time is not out of reach.

READY and waiting for the approaching Easter Relays is Gary Hildebrandt, Gauchito pole vaulter and broad jumper. The 21st annual event is set for a week from tomorrow at La Playa Stadium.

EX-GAUCHO DIES IN TRACK MISHAP

Former Gauchito Louis Clark Finn, 40, died this week of injuries suffered when he was struck in the face by a shot put in a recent Pacific High School track meet in San Bernardino. Finn was the track and field coach at Pacific.

For the third time in as many weeks, Coach Nick Carter and his Gauchito spike squad leave for the Los Angeles area, this time to meet UCLA and Cal Poly in a triangular track meet on the Westwood oval tomorrow.

The Bruins, as usual, are favored to run away with the meet. However, both UCSB and the Mustangs are better balanced and stronger than last year and could challenge the Uclans for top honors.

Cal Poly sports one of the CCAA's best sprinters in Vic Hall, a transfer from Oregon State. Hall has been clocked at 9.6 for the 100-yard dash.

The Goleta contingent is strong in the javelin with Dave Mead fast approaching the 200 ft. mark. Should Don Kelliher be not able to compete for the

Cartermen, Jim Perino and Don Smith are capable of taking up the slack.

Dave Boraker, a pleasant surprise last week as he won both sprints against Long Beach State, should pick up valuable points for the Gauchos if he continues at his current pace.

Hampered all season by back trouble, broad-jumper Duke Ellington has been slow in regaining his 1958 form. Carter has been bringing the Gauchito star along gradually and may pick tomorrow as the day to test his injury.

The hurdles must be conceded to UCLA however, for Bruin timber-topper Ken Thompson blazed over the 120-yard highs in 14.1 and the 220-yard lows in 23.3 last weekend.

GAUCHO TANK CREW TO HOST UC, RIVERSIDE

Coach Frank Rohter and his Gauchito swimmers splash into Redlands this afternoon, hoping to shake a two-meet tailspin.

The UCSB mermen, who hit the deck twice last weekend against Cal Tech and Whittier to drop their seasonal mark to 1-2, will return home tomorrow to host their "Little Brothers" from UC, Riverside in a 1 p.m. waterfest in the campus pool.

Plagued by the absence of several key performers in last Saturday's defeat to Whittier, the Gauchos hope to return to the form that subdued San Fernando St. in the season opener as Rohter hurries to whip his squad into shape for the fast-approaching CCAA season.

Why did
14,436
sophomores
enter advanced
Army R.O.T.C.
during 1958?

Many more applied. Not all were accepted. In more than 200 U. S. colleges, 14,436 college sophomores met the high standards set. These students were selected to continue officer training in the advanced R.O.T.C. course. Why did each of these young men decide that he would benefit by fulfilling his military obligation as an Army officer? Here are two important reasons. Perhaps they'll help you make your decision.

1...TRADITIONAL RESPONSIBILITIES

As an Army officer, you're in command of men. More men than the number supervised by many civilian executives years older than yourself. To meet your command responsibilities, you employ a great many of the LEADERSHIP principles acquired in advanced R.O.T.C. training. And your executive potential develops while

you gather LEADERSHIP experience. The executive ability you gain as an Army officer will be an important advantage in any civilian career. That's why employment directors often prefer men who have served as commissioned officers. These men have already proven their capacity to handle executive responsibility.

2...TRADITIONAL REWARDS

In every organization, greater responsibilities mean greater rewards. The traditional prestige of an Army officer is matched by material advantages. A second lieutenant earns a minimum of \$355.88 per month—plus substantial fringe benefits. Think you might want to marry soon after graduation? An officer's salary can

make things a great deal easier for a married couple just starting out. What's more, an Army officer is entitled to take his dependents with him, wherever possible. Imagine sharing the fun of travel with your wife—in the United States or foreign countries like France, Germany or Japan.

TRADITIONAL Responsibilities Rewards

U.S. ARMY R.O.T.C.

SOPHOMORES: Are you considering whether to apply for advanced Army R.O.T.C.? Why not discuss your decision with the Professor of Military Science and Tactics at your college? He'll be glad to talk it over with you.

Lilies Sale

Tomorrow the Alpha Delta Pi sorority will sell lilies on State Street in observance of National Crippled Children's Day. The ADPis annually sponsor a project to aid crippled children.

HUXLEY LECTURE . . .

Continued from page one

derplaying of hereditary factors, it is worthwhile to go into what is original and inherited in the human individual.

Man Most Variable

"In general, we find that as we go up the evolutionary scale the variability of species increases. When we reach man we find the species with the highest level of variability.

"There are extraordinary inherited differences between human beings.

"These anatomical and physiological differences are important because all such differences must be reflected in our mental and psychological life.

"What are the consequences of this enormous variability between humans?

"Liberty is a very precious thing. If we were all the same, then there would be no point in liberty.

"Human variability imposes upon us the duty of preserving individual liberty and encouraging tolerance.

"The advantage of a large complex society is that it does permit the variability of human beings to express itself in a great variety of ways. There doesn't have to be intense conformities which we find in primitive small societies. There is always a drive for conformity which is imposed from without and which individuals impose upon themselves from within.

"We try to be what the society in which we were brought up thinks desirable. Some people try to be the exact opposite of what, by nature, they are, which leads to disastrous results.

"This process is always present in any society and it always has to be present. What we have to discover is some method of making the best of the social drive toward conformity while safeguarding the genetic variability of individuals. Here it is important to stress that in order

THE COPY CAT...

by J. Colette Brittenham
(The Copy Cat is taking a one-issue vacation and feature reporter Jayne Brittenham is sitting at the keys for today's paper. See you next week.—P.G.)

Today, at the peak of Greek Week, it just might be barbarian to cite other activities of our campus civilization. Still, we can't ignore past glories like Pi

Phi Sue Swift who is now reigning queen of the Military Ball. Congratulations! . . .

And let's write of the Chi Omega's Fireside Conference held this last Ides of March in the Huntington Sheraton Hotel, Pasadena. President Sally Richards and actives Josette Yraceburu, Gretchen Ziegler, Ann Bonine and Judy Wolf drove down for the conference.

Industrious Chi O's also threw their hat in the Carnation Ring by sponsoring this May 3 affair which offers an opportunity for all associated UCSB girls to gather in the Santa Rosa patio and publically announce their engagements while a Mademoiselle bridal fashion show is in full swing . . .

At the Pi Beta Phi house last Monday Sue Saylor revealed a Sig Ep pin from the heart of one Rich Carter.

to make the best of genetic variability we have to improve the environment to the greatest extent.

Equal Opportunities

"Only when everybody has equal opportunities can we see what their naked congenital possibilities are as opposed to what eugenists talk about.

"It is necessary to have the best possible environment so that we can see what are the full genetic possibilities of individual men and women."

We can end up by saying that what these facts show is that liberties and tolerance is of immense importance and that a descent equal environment for all is of immense importance.

It is necessary not to try to push people who are genetically different into being like everyone else. One must permit each individual to develop according to the laws of his own being.

Our ideals should be to have an open society composed of open selves.

ONCE-BEATEN GAUCHO NINE INVADES SC

Warriors Deal First Setback to UCSB Baseballers

Tiny Westmont College tumbled the University of California, Santa Barbara from the ranks of baseball's undefeated Tuesday afternoon.

The Gauchos, unable to find their clutch hitting, skidded to a 6-4 setback at the hands of their cross-town rivals in the first of a three-game, non-conference series on the loser's home grounds.

Coach Rene Rochelle's crew banged out eight hits, the same number as their opponents, but left 12 men stranded on the base paths, twice loading the bases with one out and not scoring.

Jim Hezlep opened on the mound for the losers, but gave way to Jim Escareno in the fourth, who absorbed the loss, his first against three victories.

Frank Stevens and Ron Williams each rifled out a couple of hits for the Gauchos, while Bill Shortell, Ron Huesser, Vaughn Wipf and Bob Fraas each added a single safety to the UCSB plate brigade.

INTRAMURAL CINDER TEAMS VIE TUESDAY

HEAVE-HO — Gauchito George Chappell and his track and field mates travel to UCLA tomorrow for triangular meet with Cal Poly and Bruins.

by Jerry Patch
Sports Writer

UCSB men's Greek and living organizations will hit the campus cinderway next Tuesday for the 1959 edition of the annual Gauchito Intramural track and field meet in an effort to gain the fine trophy offered to the winning squad by Intramural Coordinator Stan Williamson and his staff. The meet is open to all students who are not representing the university in either varsity or freshman track and field. The meet will begin at 3 p.m. and will consist of six field events and nine running heats.

Points will be given to the five top finishers in each event, with five points going to the winner and his organization.

An extra added attraction devised this year by Williamson is the indirect participation of women's organizations. Before the meet the intramural council will draw the pairings of respective men's and women's organizations. The men will then wear their women's sponsor's colors.

Gauchito Linksmen Prepare To Invade San Diego April 3

Spring recess will see Santa Barbara's golfing Gauchos journey south to San Diego to meet conference foe San Diego State on April 3. Coach "Doc" Kelliher's men will remain overnight in the border city to engage the U.S. Marine Corps on Saturday, April 4, at the Marines' Camp Pendleton course.

The Gauchos squared their 1959 conference record at 1-1 Monday with a 30-24 decision over Long Beach State. Second-man Don Wise led the UCSB linksmen with a blazing 68, two under par for Santa Barbara's municipal links.

by Tom Morgan
Sports Editor

Still reeling from their first taste of defeat, the University of California, Santa Barbara diamond-going Gauchos stagger into Los Angeles this afternoon for the opener of a two-game series against the University of Southern California.

Coach Rene Rochelle's local baseballers will test the defending NCAA kingpins in a 2 p.m. contest today, before returning tomorrow at 1:30 p.m. for the concluding half of the weekend doubleheader.

The Gauchos, now 4-1 on the season, will be approaching perhaps their toughest hurdle of the now-aging schedule, which has included such formidable foes as the San Diego Naval Training Center, the San Diego Marines and UCLA.

Rochelle is undecided on his

pitching rotation for the Trojan series, which will be the last game for UCSB until April 7 when they get a return match with Westmont. "I might open with (Bill) Wetzel today, or I could use 'Hez' (Jim Hezlep) and 'Esky' (Jim Escareno) today and save Wetzel until tomorrow's game. I still don't know."

The whole is equal to the sum of its parts

(But some of its parts are more equal than others!)

Even Euclid had to admit...

It's what's up front that counts

Euclid proved that a straight line is the shortest distance between two points. And if you'll walk a straight line to the nearest pack of Winstons, you'll find it the shortest distance to a really enjoyable smoke. It's the tobacco up front that makes

the difference and that's where Winston packs its own exclusive Filter-Blend—a special selection of light, mild tobacco, specially processed for filter smoking. You'll find Filter-Blend gives Winston a flavor without parallel. In fact, it's axiomatic that...

WINSTON TASTES GOOD, LIKE A CIGARETTE SHOULD!

OBSERVATIONS ON DELT CASE . . .

Getting all the facts of the Delt case is nearly impossible. You can't determine the rumors from the truth—the alibis from the reasons. It's like trying to tell the players without a program.

But a few conclusions can be drawn on the basis of the evidence available at the present time.

1) The remark that the Delt may have had wilder parties in the past, and the cry that "all fraternities are boozers" is not a justifiable excuse for the Delt's action.

Gambled and Lost

The law on serving liquor in fraternities is spelled out clearly by the University, the National organization, and the state. The Delt knew the law. They gambled and lost. The fact that others take the same chance and get away with it is flimsy justification for their activity.

2) For their own protection the Delt should have exercised more foresight in selecting chaperones and in discussing the party afterwards.

Rude Awakening

"Viva Zapata" was Dr. Mortimer Andron's first fraternity party. It must have been a shocking initiation.

Had the Delt selected another chaperone like Bob Magruder, who is seasoned to fraternity habits, the case may not have gotten off the ground.

Various Delt and their dates were not tactful in discussing the party. The word about the drinking and the fight got around fast and, from the fraternities' point of view, to the wrong places.

Slap at Administration

3) Council's action Tuesday night in requesting a reopening of the case was unwise. It was a clear slap at the administration.

Council based its reasons for a re-examination of the case on hearsay and reports in the paper. Neither source is sufficient grounds for inferring that the faculty-administrative committee did not handle the case properly.

Council should realize by now that the University ALLOWS student government to exist here just as it does on other campuses. The University exercises final authority over all student action, even though it may try to give students as much responsibility as possible.

Like it or not, this is the way things are. Unfortunately, Council hasn't studied the rules of the game.

In "standing up for the student body," Dennis Naiman and his supporters may have actually knocked student government down as a result of their blind bungling.

If Council's purpose was to strengthen Standards Committee and student government, they set about it in an untactful way.

Council bit the hand that feeds it—and it is quite a generous hand at that.

Was the Delt's penalty of one year's probation too stiff? Until all the facts are known, the answer to this question depends upon whom you ask.

One thing is sure—either business in local liquor stores will drop as a result of the clamping down, or "private parties" will enjoy a boom.

Letters to The Editor . . .

College Day Thanks . . .

Dear Editor:

Through the medium of *El Gaucho*, I should like, on behalf of the administration, faculty and the College Day Committee, to thank students for their splendid assistance in making the event a success.

Acknowledgement is given to the leadership for student guide participation provided by Sandy Meyer and Art Herman as members of the planning committee.

Ralph K. Nair,
Assistant Director
Office of Relations with Schools

S.B. Music Teacher Holds String Clinic

Stefan Krayk, associate professor of music at UCSB will hold a string clinic for teachers and performers at the Western Division of the Music Educators National Conference convention, starting Monday in Salt Lake City.

Krayk has accepted the invitation of the American String Teachers Association to conduct the clinic.

A performing violinist, Krayk has concertized throughout the United States and Europe.

Among his many musical activities here, he conducted the world premiere of Vernon Duke's two act opera at UCSB in December.

Applications for BA, Credentials Are Due

Dr. Paul W. Wright, Registrar, has announced that today is the last day to withdraw from courses without grade penalty and to remove grade E, incomplete, marks.

Dr. Wright also stated that today is the deadline to file application for candidacy for teaching credentials and the Bachelor of Arts Degrees.

Fish Parasites

Parasitologists from Southern California will gather tomorrow at UCSB for a 1:30 p.m. meeting.

Vice Chancellor Elmer R. Noble will speak to the scientists about fish parasites.

AS Chairmanship Open

The position of Chairman of the Assembly Committee of the Associated Students still is vacant, AS President Stan McGinley announced. The position entails arranging, directing and promoting all assemblies sponsored by the AS. The chairman is also in charge of arranging for special artists' events.

Any student wishing to apply for the position must fill out the standard application blank in the AS office before next Tuesday evening's Council meeting.

Rabbi Max H. Kert is available for counseling and questions from any and all interested students on Mondays from 3-5 p.m. at the U.R.C. Building.

"L&M is kindest to your taste," says TV's George Gobel. "There are two mighty good reasons why I think you'll go for 'em. They're truly low in tar, with more exciting taste than you'll find in any other cigarette."
LOW TAR: L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly low in tar.
MORE TASTE: L&M's rich mixture of slow burning tobaccos brings you more exciting taste than any other cigarette.

LIVE MODERN... CHANGE TO MODERN L&M
