LEGISLATIVE COMMITTEE TO SET POLICY FOR SPECIAL EVENTS PARTICIPATION

As a result of confusion and misinterpretation of recent decisions concerning major all-school events last fall, Legislative Council has scheduled consideration of this problem at its next meeting on Tuesday, Oct. 9.

At that time, according to Special Events Subcommittee Chairman Jerry Combs, decisions will be made on the following issues: participation by various campus groups; divisions in judging for awards; and a suggestion that the name "Gaucho Review" be removed from the calendar of University of California publications.

The Special Events Committee's function is to make recommendations with regard to homecoming, GBC, and Spring Sing. One of the primary items on which the committee does or does not vote is final competition.

The Chairmen Comment...

To the Editor: L. J. Bailey

I firmly believe that we should keep all remaining traditions that have been instilled in the student body over the years.

The GGR is definitely one of our strongest traditions. It completely overshadows all parts of Homecoming events. Besides the GGR, there is another event, it is a great meet towards the new year, and brings many new students, which is a problem at this university.

Homecoming is one of the biggest events at the end of the year. It will not take away from it by voting down the GGR.

Co-Chairman, Special Events Committee

EX-REGENT NEYLAN BLASTS ATTEMPT TO COMMENT ON THE PROPOSED STUDENT UNION BALLOT

To the Editor:

I am writing in response to the article concerning former Regent Neylan's request that you be allowed to comment on the proposed student union ballot at UCLA, whose name and title are associated with the matter, and to extend my congratulations on his recent retirement.

Neylan was doubtful that Prof. Goode will have a more work for the Special Events Committee, this neither Jim Bailey nor I find.

The problem faced by the Special Events Committee is the fact that there are many groups that want to get in the competition, which is fine, but it is not a problem of fair judging but of too many groups.

Calls for Co-Chairmen

Neylan's comments are cordially invited.

The Board of Regents of California is interested in the proposal to comment on the proposed student union ballot at UCLA, whose name and title are associated with the matter, and to extend my congratulations on his recent retirement.

Neylan is doubtful that Prof. Goode will have a more work for the Special Events Committee, this neither Jim Bailey nor I find.

The problem faced by the Special Events Committee is the fact that there are many groups that want to get in the competition, which is fine, but it is not a problem of fair judging but of too many groups.

Co-Chairmen are not required to take the results.

This next Tuesday night at 7:30 p.m. the 1956-57 Legislative Council meets in the Mesa Auditorium to discuss and resolve the important problem. Said problem concerns RHA elections for Fall 1956-57, and will be voted on by the 1956-57 Legislative Council.

From the President's Desk

GAUCHO REVIEW
ANDRON SPEAKS IN 2ND ALL-COLLEGE LECTURE; TELLS HOW TO BEAT HORSES

Dr. Martinor Andron, associate professor of economics, will speak at the next All-College Lecture, second in the fall series, on Tuesday, Oct. 10, at 4 p.m. in 451, Rem. 102.

His subject is entitled "The Rationality of Gambling." Students are invited to hear the results of this economist's studies of an intriguing and significant problem to economists, businessmen, laymen, and, possibly, gamblers.

The risks which confront the 20th Century citizen are probably just as drastic in portent as those of earlier simpler times—particularly those in the area of economic activity. Dr. Andron's lecture will deal with the question: Is it possible to approach problems of economic risk in the rational manner of the scientist? Dr. Andron explained his particular interest in this question, which was recently the subject of a paper read before the Western Economic Association.

"The economist is conversant with rational behavior. Our economic life, motivated by a hope for profit, seems risk over which the businessman has some control, in most cases. But how does he meet the situations which involve risk which he cannot control? How far is it reasonable and rational to gamble?"

Dr. Andron used gambling as the experimental basis of his study because it is a situation of pure risk, in the same way that a physical scientist might approach the study of a vacuum or the temperature of absolute zero.
In the movies, will speak in the public square on Saturday morning, 10 a.m., 

Thomson, Mitchell's son, is now with the Air Force in England. 

After a lengthy discussion which followed the presentation of a motionative by Legislative Council Faculty Advisor Dr. Robert Eastman, the Council held its last regular meeting of the term, on Wednesday, Oct. 3, 1956. 

The bowling teams will have entries pouring in by the hundred. 

COUNCIL VOTES TO TAKE EAST ROAD THROUGH HARBOR 

A change in the rules governing the election of candidates for the Student Body and the ASB's Office of Publicity will be made. 

The program will be under the direction of the Department of the Arts.

GRIDDERS FACE STRONG FORTY-NINERS AT HOME

Continued from page one can perform well, and that's more than they have ever accomplished before.

The Gauchos will line up on the Westwood football's home turf on Saturday afternoon at 3:30 to meet Los Angeles State, with whom they played a scoreless tie last year.

The Forty-Niners will be led by halfback Tony Baca, who gained 86 yards against Occidental in game three and has a total of 175 yards in the first three games. The Gauchos hope to slow down Baca and keep the Forty-Niners from scoring too many points.

Gaucho head coach Tom Hughes has been working hard to get his team ready for this game against the Forty-Niners. He has been practicing the team every day, and they are expected to do well.

The game is scheduled to begin at 3:30 p.m. and admission will be $1.50 for adults, 75 cents for students, and free for children under 12.

Women Netters Plan Intercollegiate Loop

An extensive program of intramural and tournament tennis for women was revealed today as Miss Alice Coutts, associate profes-

sor of physical education, announced the plan. It will be the first time a program of this nature has been started in any college in the country.

The plan, which was drawn up at a meeting of college women, will start January 15, 1956, and continue until April 15, 1956.

Women's P.E. Dept., or come to the tennis clinic during the prac-

tice sessions. Miss Coutts said that the group has tentatively scheduled two clinics for January and February, and that a tournament will be held at the end of February. Two doubles teams for each college will be drawn,

The next meeting of the Intercollegiate Loop will be held on the campus on January 22, 1956.

Gauchos Take Second Straight Win

By an entry of flashy backs and an iron forward-wall, the Santa Barbara College Gauchos flattened Occiden-
tal's Tigers, 31-6, in their home debut at L.A. Stadium Friday night.

To the delight of some 7000 fans, the Gauchos backfielder reeled off 364 yards rushing, the most yards gained by any team in a game at the 1956 wares of the Santa Barbara College cross-country team.
