Danforth Foundation Offers Scholarships To Future Teachers

The Danforth Foundation, an educational foundation located in St. Louis, Mo., invites applications for the eighth class (1959) of Danforth Graduate Fellows from college senior men and recent graduates who are preparing themselves for a career of college teaching, and are planning to enter graduate school in September, 1959, for their first year of graduate study. The Foundation welcomes applicants from the areas of natural and biological sciences, social sciences, humanities and all fields of specialization to be found in the undergraduate college.

President Clark Kerr has named Dr. Henry A. Turner, associate professor of political science, as the liaison officer to nominate to the Danforth Foundation two or not to exceed three candidates for these 1959 fellowships. These appointments are fundamentally "a relationship of encouragement" throughout the years of graduate study, carrying a promise of financial aid within prescribed conditions as there may be need. The maximum annual grant for single fellows is \$1400 plus tuition and fees charged to all graduate students; for married fellows, \$1900 plus tuition and fees charged to all graduate students with an additional stipend of \$350 for each child. Students with or without financial need are invited to apply.

A Danforth Fellow is allowed to carry other scholarship appointments, such as Rhodes, Fulbright, Woodrow Wilson, Marshall, etc., concurrently with his Danforth Fellowship, and applicants for these appointments are cordially invited to apply at the same time for a Danforth Fellowship. If a man received the Danforth appointment, together with a Rhodes Scholarship, Fulbright Scholarship, or Woodrow Wilson Fellowship, he becomes a Danforth Fellow without stipend, until these other relationships are completed.

Excess Funds Given Associated Students

At the end of the last fiscal year \$1,740.19 was transferred from the athletic fund to the Associated Students of UCSB. The transference was made possible by the reaching of \$8,000 in the emergency athletic fund, stated Graduate Manager Robert Lorden.

This fund, as provided for in the By-Laws of the Constitution, is to be used in case of emergencies such as the cancellation of games because of rain or other expected causes. Up until this year there has been a deficiency in this fund.

Since 1952 the athletic department has been building up the fund. Last year \$3,391.95 was made on game receipts. Of this amount \$1,651.76 went into the emergency fund to bring up the total to its full strength. The remainder, \$1,740.19, was given to the Associated Students.

Fulbrights Offer Overseas Study

Competitions for 900 Fulbright and Latin-American scholarships for graduate study abroad will close Nov. 1, it was announced by the Institute of International Education.

The scholarships offer Americans international travel expenses in most cases and partial or complete tuition and maintenance for study in 39 foreign countries during 1959-60.

The Fulbright awards for study and research in Europe, Latin America and the Asia-Pacific area cover international travel, tuition, books and maintenance for one academic year.

General eligibility requirements for the awards are U.S. citizenship, a bachelor's degree or its equivalent before departure, language ability sufficient to carry on the proposed study, and good health. A good academic record and demonstrated capacity for independent study are also necessary.

Persons interested in these awards may write to the Institute of International Education, 291 Geary St., San Francisco 2, for "U.S. Government Grants," a brochure explaining the Fulbright and IACC programs, and contact Dr. Paul Wienpahl, Department of Philosophy, UCSB Fulbright advisor.

Requests for application forms must be postmarked before Oct. 15. Completed forms must be submitted by Nov. 1.

ITALIAN MUSIC RECITAL PLANNED

Miss Dorothy Westra, internationally known soprano and assistant professor of music here, will give a recital of Italian music tomorrow evening at 8:30 in the campus auditorium. Lloyd Browning, pianist and associate professor of music, will join her in this recital.

The all-Italian program will be presented by the Department of Music and the Committee on Drama, Lectures and Music as the first of the 1958-59 series of faculty recitals given at UCSB. Included are selections covering a range from the 17th to the 20th centuries.

Faculty recitals at UCSB, as the regular Tuesday afternoon all-college lectures and many special events, are open to the public free of charge.

DAVIS CUP SQUAD PRACTICES HERE

Members of the U.S. Davis Cup tennis squad are presenting a free exhibition at the Municipal Tennis Stadium, East U.S. 101, today from 2 p.m. until dark.

The exhibition will consist of practice matches played between members of the squad. Appearing will be Ham Richardson, Alex Olmedo, Hugh Stewart, Jackie Douglas, Don Kierbow and Perry T. Jones, captain of the squad and chairman of the Southern California Tennis Assn.

Koel Brown, considered by many to be the West Coast's top tennis player, will narrate the matches.

GGR TRIAL RUN

Tryouts for the Galloping Gaucho Revue will be held in the campus auditorium Thursday, beginning at 6:30 p.m. Any group not present for the tryouts will be automatically eliminated. The skit must be ready for a trial presentation and should not exceed 10 minutes. Two copies of the script must be available for the Homecoming chairman. A schedule will be posted in the Graduate Manager's office of the time that each group will appear.

Prof. Writes About 'Pressure Groups'

"Pressure groups attempt to exert influence on every phase of the political process," writes Dr. Henry A. Turner, associate professor of political science here, in his article, "How Pressure Groups Operate," which appears in the latest issue of *The Annals*. This is the official publication of the American Academy of Political and Social Science. The current issue is devoted entirely to the topic of pressure groups and lobbies, including articles written by prominent political scientists at the request of the editor.

Dr. Turner discusses the multiple roles of so-called "pressure groups" within the framework of democratic government.

Mayor Sets Start of UCSB Homecoming Celebrations

By Linda Garver, *El Gaucho* Reporter

This year's Homecoming has an ever greater meaning to the students at UCSB than preceding Homecoming celebrations. The townspeople of Santa Barbara, through Mayor Bohnett, are proclaiming the week of Oct. 19 through 25 "Homecoming Week in Santa Barbara."

Activities of the week begin on Monday, Oct. 20, when GGR rehearsals are held in the campus auditorium. Then on Wednesday, the enterprising gentlemen of the campus will go to the polls to select the Homecoming Queen for '58.

The following evening the Galloping Gaucho Revue opens at 8 for its two-day run. The performance includes the crowning of the queen and the presentation of her court and is especially for students, who will be laboring far into Friday night on their entries for the parade.

Parade Saturday

When at last the preparations have been completed, the Gauchos will display their work to their fellow students, visitors, townspeople and alumni as they parade down State Street from Micheltorena to Haley, beginning at 2:15 p.m. The parade will be led by Barbara Rush, 20th Century-Fox star.

Rally at Sunken Garden

In anticipation of the big game that evening, the students and alumni will adjourn to the Sunken Garden behind the Courthouse for a morale-boosting rally. Then the excitement will continue to mount until the Gauchos unite at La Playa Stadium to watch the big game with the San Francisco State Alligators. Halftime activities will feature the reintroduction of the queen and the presentation of the Parade and GGR trophies.

Hal McIntire's Music

To climax the fun-filled week, all Gauchos are invited to dance to the music of Hal McIntire and his band at the Armory. The band has just begun its career on the West Coast, but has had many successful engagements at large colleges in the East. Hal McIntire has played with the Glen Miller and Benny Goodman orchestras. His recordings have been for RCA, Columbia and Decca.

Strict Rules

Homecoming activities are governed by strict rules. Each organization planning to have entries in either GGR or the parade has received a brochure which thoroughly states the specifications of such entries. There is need to stress the point that any deviation from the specifications will result in disqualification of the entry. The parade theme is "UC Salutes Santa Barbara" and floats will be judged on their relationship to the theme. There is no theme for the GGR entries.

"This year's Homecoming promises to be bigger and better than any preceding years," said general chairman Kathy Grant. "Let's all get out and have a lot of fun while we're making it great."

Gabel To Present Slides on Indians

Dr. Norman Gabel, associate professor of anthropology, has stated that he will premiere his slides of the Southwest Indians and discuss their social adjustment to the modern world. Dr. Gabel, a cosponsor of the combined Sociology and Anthropology Club, will speak to that group tomorrow at 3:30 p.m. in the classroom auditorium. Those students and faculty who remember this outstanding lecturer will recall his slides of the Fiji Islanders taken while on sabbatical there in 1954.

Dr. Gabel will cover the Pueblo and Navajo Indians and their social adjustment to modern society. Having lived among these people for a number of years, his interest in them is longstanding and genuine. His studies of their ethnography and adjustment are unique and outstanding contributions to anthropological science.

After graduation from the University of Michigan, Dr. Gabel attended the University of Arizona for graduate work in anthropology and took the masters degree. Moving East once more he continued his study at Harvard University, where he was awarded a Ph.D. Dr. Gabel taught at the University of Arizona for six years before coming to Santa Barbara in 1946.

Whitman vs. Linn for Frosh Prexy; 29 Candidates Vie

by Phyllis Fisher, *Gaucho* Reporter

Freshman Class elections and a special Associated Students election will take place today and tomorrow. Polling stations will be open from 11 a.m. to 1 p.m. in the Student Union and Dining Commons, and from 9 a.m. to 3 p.m. at the Library.

"We hope to have a large turnout for this first campus election of the year, and especially want to see all you freshmen supporting candidates of your choice for your class officers," stated Carolyn Jones, AS Vice President and Elections Committee Chairman.

No Runoff

Here's Preferential Voting System will be used for the elections. This is a method in which a number is placed beside all candidates for each office in order of the voter's preference. This will eliminate runoff elections.

Competing for Freshman Class president are Larry Linn and John Whitman. Other Freshman Class offices and candidates include: Vice president, Kay Moore, Edwin Strom, Steve Schonfield, Peter Patrick and Roger Dawson; secretary-treasurer, Rita Mattern, Jay Tait, Judi Martin, Cynthia DeMille, Doris Worrel, Kathleen Kennedy, Penny Larson and Nancy Draper.

All freshmen who present their student-body cards and Freshman Class cards are eligible to vote for their Freshman Class officers.

Sorority Rep

Candidates for sorority representative include Bonnie Bivins, Nancy Frey, Rosemary McDermott, Sharon Holden, Sue Saylor and Anne Lowry. Sorority representative will be elected by vote of all women students affiliated with social sororities.

Running for the office of non-affiliated men's representative-at-large are Daryl Vaughn and Frank Rath. Men students who are not affiliated with a social fraternity or a residence hall may vote for this office.

Candidates for the office of Associated Women Students freshman representative are Donna Briano, Kathie Sizoo, Judy Allen and Caroline Hill. Those running for the office of Associated Men Students secretary are Ned Wilson and Mike Oster. Students who are members in these organizations and who show their membership cards are eligible to vote for these candidates.

Counting of the ballots will take place Wednesday afternoon by members of the Election Committee and those approved by the Legislative Council, according to Sandy Meyer, member of the Election Committee. Results will be posted and winning candidates notified.

India Court Figure In Santa Rosa Talk

Indian Supreme Court advocate Kannaiah Konuri speaks at UCSB Sunday evening, Oct. 19. Mr. Konuri, guest of International Students' Committee and the UCSB Committee on Drama, Lectures and Music, will discuss India-America relations at the 8 p.m. session in the main lounge of Santa Rosa Hall.

Mr. Konuri, an authority on India's economy and president of an Indian river valley development group, will welcome questions from the audience. Admission is free and all students are welcome.

Stanford Professor Speaks on Liberal Arts College Today

"The Liberal Arts College in the 20th Century" will be the topic of a talk by Dr. William H. Cowley, Jacks professor of higher education at Stanford, today at 4 p.m. in the classroom auditorium.

In this talk Dr. Cowley will give a critical view of American education during the past century and show the challenge in the field today. He will review and point out the changes in education brought about through the work of modern educators; and he will also discuss research and extracurricular influences in higher education.

Holds 5 Degrees

Dr. Cowley, one of the most distinguished authorities in his field, holds five college degrees. These include his B.A. from Dartmouth, Ph.D. from the University of Chicago, two LL.D.s from Hamilton College and St. Lawrence University, L.H.D. from Hobart College, and his Litt.D. from Union College.

President of Hamilton

While he was president of Hamilton College (1938-44), he made a survey of various educational methods and set up what is considered one of the finest liberal-arts programs in effect today. Dr. Cowley has also backed one of the new programs at Stanford which prepares students to become college administrators.

He will be introduced by Dr. Maurice E. Faulkner, associate professor of music at UCSB. Dr. Faulkner is a personal friend and former associate of Dr. Cowley.

Cast Is Announced For Irish Drama

CASTING for "Juno and the Paycock," by Sean O'Casey, has been completed, according to Dr. Theodore Hatlen, associate professor of Speech.

Dr. Stanley Glenn of the Speech Department will play the role of Captain Boyle, the Paycock (Irish for Peacock). "The role is an extremely difficult and demanding one," said Dr. Hatlen. "It demands a substantial and professional actor." Diane Percell is cast as Juno, the long-suffering wife. Allen Knight will play the role of Joxer, a "buttie" of Captain Boyle. Johnny Boyle will be portrayed by Michael Biette. Ann Zantop will play the daughter, Mary Boyle.

Susy Burns was cast as Mrs. Madigan. Nick Scott will play the role of Needles Nugent, the tailor. Gerald Bradley and Fred Stange play two Irregulars of the Irish Nationalists. Manny Sedacca and Robert Flore will play the moving men.

The play is considered by many authorities to be the finest play of Sean O'Casey, Ireland's greatest living playwright. The play originally was written for the Abbey Theater. It toured this country and introduced to American audiences some of Ireland's greatest actors. Barry Fitzgerald was the original Joxer. Sarah Allgood was Juno and Dudley Diggs was Captain Boyle.

The play will be performed in the Little Theater Nov. 13, 14, 15, 20, 21 and 22 at 8:30.

ARNOLD

KOVAR TELLS OF VISIT TO COMMUNIST POLAND

By Debby Frieden, Feature Reporter

"I was amazed at the degree of freedom of speech in Poland. People feel free to criticize the government verbally," relates senior Mike Kovar in accounting his experiences behind the Iron Curtain as a delegate of the Experiment in International Living this summer.

"Amazingly enough Poland is one of the more liberal of the Communist countries, but the people expected far more than they got in liberalization. Every phase of economic life is controlled — shops, transportation, movies."

"Following the Polish revolution that climaxed in the first free election of Premier Gomulka in 1956 and the abolition of the secret police, the government has gradually tightened the reins again under the Soviet 'squeeze.' A prime example is the strict Moscow party line followed by the Polish press in blasting the American marine landing in Lebanon as an act of Imperialism. The common people, however, reflected relief that 'America finally took some action.'"

An interesting sidelight is that Mike remained completely uninformed of the American viewpoint until two weeks later when the American and British newspapers finally arrived at the International Press Club.

An unfortunate story of undemocratic government control without due process of law and the complete disregard of individual rights was related to Mike. In 1954 a small factory was seized by the government. Finding their bank assets frozen, evicted from their home, and branded as capitalists, the family was dealt a further blow when the son, an engineering student, was expelled from the university.

After many appeals the family was permitted to remain in their own home, but because of a housing shortage were ordered to take in two workers' families. The ordeal ruined the father's health and the son, after working a year in a foundry, was reinstated in the university. Mike relates that al-

though the house is in a state of disrepair, the father has no desire to fix a house that "doesn't belong to me."

With an insight and understanding of the Polish people, Mike describes the Polish character. "They are rebellious in not passively accepting Russian domination as do the Czechs. Very romantic in the emotional sense, the Poles are strongly nationalistic, a spirit reflected in Premier Gomulka, who is Polish first and a Communist second." Remembering the German invasion, it is difficult to say who the average Pole hates most, Germany or Russia, realizing that a break with Russia is impossible because of the consequences.

Living conditions are extremely poor, according to Mike. An

average working salesgirl earning 800 zloty a month needs two weeks' pay or 400 zloty for a decent pair of shoes. A good men's suit costs 2500 zloty. Highly skilled workers receive about 2000 zloty per month, and the unskilled about 1000 zloty. In a comparison of wage and position — a gas-station attendant in America earns more than an engineer in Poland.

"Religion is a great escape for the Poles," explains Mike of the nearly all-Catholic Poland. It is the great rallying point, and many of the young people attend church just out of pure spite to the government.

To wrap up some interesting

odds and loose ends, the Poles have never heard of toast, but American Sunkist lemon juice concentrate is available at 75 zloty (\$2) a can. The young Poles are avid rock-and-roll fans, but it is completely forbidden in Czechoslovakia.

Fraternity Initiates

In a ceremony featuring a talk by fraternity co-trustee Clyde Keener, Epsilon Pi Tau, national honorary professional fraternity, initiated 21 new members Oct. 2.

The fraternity operates in the fields of industrial arts teaching and management. A December banquet will honor the initiates.

UCSB SEEKS 4TH LOOP WIN SAT.

Gauchos Whip Diablos, 20-6; Ned Permenter Scores Twice

by Jerry Robbins
Sports Editor

Fresh from a 20-6 conference win over Los Angeles State, and their third loop win of the season, Coach Ed Cody's Gauchos yesterday began pointing for the road game with Long Beach State Saturday. The game, to be played in Long Beach's Memorial Stadium, draws an 8 p.m. kickoff.

Long Beach has played only one CCAA game to present, dropping that contest to San Diego State, 20-12, a team UCSB soundly trounced in its season opener, 25-0.

In Pasadena's famed Rose Bowl Saturday afternoon spectators saw the Diablos strike for a TD early in the first period for a 6-0 lead on a pass from fullback John Adams, who changed from his customary running role to take to the air.

Passing Attack Stymied

But in second-quarter action two Gaucho scoring thrusts, by fullback Ned Permenter and a 44-yard pass combination from QB Jim St. Clair to Duke Ellington, gave UCSB a comfortable point margin. Six more cushion points were added by Permenter in the third period and a lead the Diablos weren't capable of overcoming.

It was the Gauchos all the way after the first quarter in the game that bottled the Diablos' passing attack and Hank Lewis, ranked fourth nationally in small-college passing. Lewis completed but four out of 14 for 27 yards.

Permenter Rambles

On the ground it was almost the same story as UCSB held the loop's leading ground gainer, Diablos fullback Adams, for 64 yards in 15 carries for a little better than a four-yard average. The publicized duel between Adams and UCSB's Ellington didn't materialize but Permenter ran rampant over Los Angeles, gaining enough yards for both of them. He galloped, spun, twisted and dove for 138 yards in 21 tries for a 6.5 average and claim to the ball game's leading-rusher honors.

After taking possession of the ball on its own 30 following the

opening kickoff, Los Angeles, with the running of Adams and passing by Lewis to end Dave Ross, moved to UCSB's 19-yard line. A 15-yard holding penalty placed the ball back on the 34. Adams, on a pitchout from Lewis, rolled out to his left and flipped the 34-yard TD aerial to Ross in the end zone.

Dyas Applies Stop

Gauchos end Benny Dyas put the stop on Adams' attempt to run the ball over in the conversion try for two points.

With the ball on the 18 following an exchange of punts, UCSB drove to a first down on its own 45, utilizing the efforts of Ellington and Dave Standifer in the process.

Permenter, taking the handoff from St. Clair, bucked the line off tackle, knocked down two would-be tacklers and eluded three others down to the 10-yard line, where he was brought down from behind by Adams, a 10.1 sprinter. First-quarter action ended simultaneously with the tackle.

Four Plays to Tally

It was a first down on the 10, goal to go, four plays to tally, but it took only one with Permenter bolting over to even the score. The conversion kick by tackle Frank Brisslinger, the first of two, put the Gauchos ahead and they never were challenged.

The second TD drive started on UCSB's 32, covering a total of 68 yards in four plays with 59 seconds remaining in the half. Pass-conversion try by St. Clair was incomplete.

Final TD of the day was Permenter's four-yard run, the last of 68 yards covered in the march that stressed ball-control, taking 18 plays to score, all running plays. St. Clair held and Brisslinger converted.

Ray Schaack, Bob Lopez, Leon Schumaker, Dyas and Larry Popkin stood out in the line that contained the Diablos so well.

The Gauchos got only one penalty this time, for 15 yards—quite a contrast to the 125 they received last week.

TOUCH FOOTBALL SEASON BEGINS

Intramural touch football begins this week. Three games are scheduled today as Sigma Phi Epsilon meets Kappa Sigma on Field A, Lambda Chi tussles with Delta Tau Delta on Field B and on Field C Delta Sigma Phi meets SAE.

Scheduled for Wednesday are: Toyon vs. Birch, Field A; Sequoia vs. Cypress, Field B; Pine vs. B.C., Field C.

Thursday: Phi Psi Zeta vs. Sigma Pi, Field A; Lambda Chi vs. Delta Sigma Phi, Field B, and Kappa Sigma vs. SAE on Field C.

Members of this year's Intramural Council are Dick Ruston, Pine Hall; Dana Goldman, Cypress Hall; Jim McMichael, Toyon Hall; John Zellhoeffer, Kappa Sigma; Roger Wells, Lambda Chi, and George Mahailoff, Sigma Phi Epsilon. Student advisor is Gil Romoff, Kappa Sigma.

Sports

Robbins' Nest

By J. R. Robbins, Sports Editor

One of the Best? . . .

With the prospect of having one of the best seasons in UCSB history, Coach Ed Cody will meet Long Beach State this weekend, again on the road, and it won't be until Homecoming, against San Francisco State (Saturday, Oct. 25) that local fans will see the Gauchos. If UCSB takes Long Beach, the decision should go right down to the wire for the CCAA title, with Cal Poly, as it did last season.

It was after winning their first three conference games, scoring 106 points to their opponents' 6, that the Gauchos were whipped 40-20 by Cal Poly in both colleges' finale last year. Could well be the same situation this year—at least this will be both colleges' last game.

UCSB has had few outstanding seasons in football over the years dating back to 1921. A recent slate, in 1952, shows the Blue and Gold with 8 wins, 2 losses. Only year better than this was in 1936 when UCSB won 9 with 1 loss.

Last year two losses marred UCSB's slate, with six wins. . . . And it was Cal Poly doing the main damage.

So, with four games remaining, and not a real powerhouse team up to Cal Poly left on the schedule, UCSB could enjoy all the esthetics with a winning ball club.

Having lost to Whittier 7-6 already, the best that can be hoped for is an 8-1 record . . . and that's high hopes. Cal Poly looms as big and dark as the clouds which must have confronted Noah.

In four games the Mustangs have run roughshod over their opponents, scoring 133 points to a meager 6. They have a well-balanced attack, and a total of 12 players have hit the scoring column for the Mustangs.

Three of the men in their backfield are averaging better than nine yards per carry—Claude Turner (17.3), Fred Ford (15.2) and Willis Hill (9.2).

So in the final analysis, will this year be a repeat performance of last year . . . and in the same respects, can this team lay claim to one of the best records in the college's history? Time and "eleven" players will tell.

Awards Job Open

Applications for the secretarial position of the Awards Committee will be closed after today. Applications are being accepted in the Associated Students office.

Tomorrow Proclaimed Block 'C' Day

Tomorrow is Block "C" Day on the Santa Barbara campus. All UCSB lettermen are requested to wear their sweaters or jackets.

At its last meeting the Block "C" organization formulated its plans for Homecoming. Among the other activities planned are the selection of a Queen of Block "C" for the fall semester. Plans are also under way for the formation of a Gaucho Hall of Fame for the new gymnasium.

A meeting is scheduled for Friday at 2 p.m. in the Huddle.

'A View From the Bridge' Successfully Opens Series

by Arlen Collier
News Editor

"A View from the Bridge" opened last Thursday night as the premiere production of this year's UCSB theater series. Dr. Stanley Glenn turned this difficult vehicle, written by Arthur Miller, into fine drama ranging in its moods from delicate Bach-like counterpoint to melodramatic crescendos. The play's difficult subject proved no match for the abilities of Glenn.

The story centers around Eddie Carbone's incestual desires for his niece, whom he has raised and who now wishes to marry an illegal immigrant. Walter Tibbetts presents us with an understanding, sympathetic portrayal of Eddie Carbone. He is a very powerful, commanding person in contrast with his wife, played by Joan Howard. Her high, plaintive voice does much to set the mood of the play, a mood which lessens when she is not on stage.

Hauben Gets Sympathy

Rounding out a trio of excellent performances was Laurence Hauben as Marco, a "submarine" or illegal immigrant betrayed by one of his own relatives. Hauben asked for and received great sym-

pathy for Marco from his audience. His line in the lawyer's office, "I come here to work," creates a perfect picture of frustration.

Irene Schilling, as the niece, on occasion rose to equality with Tibbetts and Miss Howard and was excellent in a bit of "woman talk" with her aunt.

Narration Done by Vesper

The narrator in the play (which has been compared with the Greek chorus) was well done by Fred Vesper, although his foreign accent kept slipping into an out-of-character brogue.

Herb Bernau is cast as the rival for the niece's affections. Lacking the professional experience of Tibbetts, Hauben and Miss Howard, he fails in an attempt for a polished performance. He didn't quite seem to master either his accent or his character. He does show promise of developing into a fine actor.

Amusing By-play Superb

A highly amusing bit of by-play occurs in the first act between Tibbetts and two of his longshoremen buddies. The buddies are laughing at the niece's sweetheart, much to the chagrin of Tibbetts. The emotional contrasts are typical of this play. It must be seen to be appreciated.

Ed Bronstein and George Goyer (especially the latter) are excellent as the buddies.

Dr. Glenn is to be greatly admired for his ability to create so much movement on the small stage of the Little Theater. Powerful pacing to a fight scene occurs in the narrow confines of the small but well-designed set of Robert Crumb, who also acts as the technical director. Due to the fine direction, no matter how

Leaflet Describes Graduate Program

A new leaflet describing the growing graduate program at UCSB is now available for general distribution, it was announced by Dr. Elmer R. Noble, Vice Chancellor.

Since moving to the new campus four years ago, the Master of Arts program has been added to the undergraduate curricula in 10 fields of study. The M.A. now is offered in biology, botany, chemistry, economics, English, history, physics, political science, psychology, and zoology. The advanced degree in mathematics will be added to the program in the fall of 1959.

The new publication describes the general purpose of the graduate program together with a statement about the scope of each of the individual major fields.

Copies of the leaflet may be obtained at the office of the registrar.

many persons are on stage at once they never seem crowded unless that is what Glenn wants.

Proscenium Arch Lost

The magical proscenium arch is removed in this production, creating an atmosphere of theater-in-the-round without the disadvantages of having an actor's back to the audience. Much of the action took place in front of the stage on the main floor.

The smaller supporting roles were adequately portrayed by Bill Miller, Allen Knight, Herbert Williamson, Fred Stange, Carol Nelson, Mike Castillo and Patrick Hayes.

Glenn's greatest achievement of the evening was the finesse with which he treats the very melodramatic ending (for which Miller is noted). This highlights a most enjoyable evening.

FROM THE PRESIDENT'S DESK . . .

Each year around Homecoming UCSB is flooded with complaints amount missing lumber, stolen rolls of chicken wire, as well as other materials which are necessary, it seems, for the construction of floats. In recent years this situation has grown worse and worse, creating, as you can readily imagine, a tremendous amount of ill will among citizens of both Goleta and Santa Barbara toward the campus community.

Many students do not realize

that the good will of these citizens is vital to our school. They advertise in all of our student publications, attend our sports and cultural events, support our Homecoming Parade, go to bat for us on various problems that both the Associated Students and the University may have, and in general perform an invaluable service to this institution.

In days gone by, lumber yards and construction outfits were happy to donate materials, but thievery by our students has brought this to an abrupt halt.

Stealing of this sort, innocuous as it may seem, is still a crime. If the stolen property is in excess of \$150, it is a felony, and we are led to understand that violators will be prosecuted to the full extent of the law. The Associated Students' Special Events Committee this year has passed a ruling that any float that is known to have been constructed with any stolen material will be automatically disqualified from the Homecoming activities.

This is not meant to be a sermon or a lecture, but I sincerely urge every member of the Associated Students to be aware of this problem and to take all steps necessary to curb this petty thievery.

Stan McGinley
AS President

Goleta Valley Plan

Charles Luckman, of the planning, architecture and engineering firm of Pereira and Luckman, is expected here Oct. 22 to lead the presentation of the Pereira and Luckman Community Zoning Study of the Goleta Valley, according to Vice Chancellor Noble.

Dr. Noble stated that the Regents of the University assigned the study to Pereira and Luckman as an additional duty to their continuing role as supervising architects and master planners for the campus. The presentation itself, which is to take place in the new Dining Commons Building on the Santa Barbara campus at 8 p.m., Oct. 22, will be directed to the County Board of Supervisors and the County Planning Commission.

"No decisions are expected at this meeting, since it is not an official hearing and all interested citizens are invited to attend," said Dr. Noble. "Moreover, I hope no one gains an impression that the University is trying to impose a plan upon the community. These are good ideas and suggestions which will undoubtedly be improved in discussion and co-operation with the official planning agencies."

Exposed -- The 'Secret' Police . . .

Parking problems at UCSB do not end when the motorist finally finds a space. One of the biggest problems is with that all-important sticker. A word of warning needs to be given to all, lest more wails resound from unsuspecting students on the second floor of Building 427. To the unlightened that is the location of the police department and where new stickers are obtained.

New stickers to replace those that might have gone with the traded-in old car, or demolished in a wreck, or stolen or lost, cost the same as the old ones—that's right, \$5! If you can produce the old one a new one will go for just a buck. Even at the second figure a good profit is made by the University, of say around 95 cents. A sticker for a second car one might be driving to school also sells for \$1, but there must be a guarantee that the purchaser will not drive both cars to school at once!

El Gaucho only became aware of the replacement charge of \$5 after two students previously in ignorance of this rule got soaked. One student "totaled" his car and the other sold his (not to another student). We must admire the police department's ability to keep a secret.

The sticker people lay the blame for this extra charge when the old sticker is not presented to the State Comptroller who must have a record of replacement. Just moisten the old sticker and it is supposed to come right off. If it doesn't, the department will take it in pieces provided it is recognizable.

Turning in the old sticker is supposed to keep the student honest. We propose it will do just the opposite. When he can buy a sticker for a second car for only one dollar, why should he admit he sold the first car with its sticker attached? It would seem only by trusting the student will honesty be encouraged, not by keeping rules and regulations secret and accusing the student of possessing a dishonest nature which must be constantly guarded against.

Coffee Rated Good Mixer By Guests of Junior Class Event

by Pat Gower
Feature Editor

If the success of Friday's Student-Faculty Coffee Hour is any indication, a new tradition may be in the making on the Gauchito campus.

At least 25 faculty members and as many students attended the Junior Class-sponsored event in the Huddle from 3 to 5 Friday. The friendly atmosphere of students and teachers conversing in a completely informal setting brought this comment from Junior Class president Guy Shipp: "Get-togethers of this sort may be a small but important way of retaining intimacy on a campus destined to rival in size the larger branches of the University."

Administrators, professors and students alike seem to be in favor of future coffee hours.

Dr. Charles Spalding, head of the Social Science Department, commented, "The atmosphere was pleasant and relaxed. I enjoyed it. It gave me a chance to get acquainted with some of my students I see in the back rows of my classes. I was personally asked to attend by a student, and I feel that professors, who usually find it difficult to take time out for such events, will respond more readily to this type of invitation."

Junior Howard Reichner, who spoke with several faculty members, said, "I'm only sorry that there were not professors there from more departments. It's hard to get to know instructors who aren't connected with your major. I felt like I really got acquainted with the few I talked to."

For freshman Jacquie Sue Funderburk it was her first time to meet a faculty member outside of class. "I think the Coffees are a great idea. But I think there should have been more publicity. The frosh, especially, are a little more unsure of what's expected of them, but they'll come if they hear more about it. I enjoyed the informality."

Sally Richards, Junior Class vice president, was happy to add a little prophecy to her comment. "I'm sure the popularity of these events will grow. It's a wonderful tradition to establish, and I hope our class has started something."

Shipp reported that Junior Council has set the tentative date for the next Student-Faculty Coffee around Thanksgiving.

Useful Lives Seen For Women Grads, Says Prof. Williams

"The energies of college-educated women can and will be used to supply those things which change the life of the modern woman where it is one of the routine existence of an errand boy to that of a creative satisfying participation in significant human achievement," writes Dr. Alma V. Williams, assistant professor of education at the University of California, Santa Barbara, in her article, "The Domain of the Educated Woman," which appears in the National Chi Omega Fraternity Quarterly Journal.

Time To Be Filled

Dr. Williams comments that "freedom from back-breaking labor in homemaking and ease of child bearing have given the well-nourished career woman and housewife of America time and energy for which no ready-made demand has been created. . . . (She) may well question the importance of her place in the scheme of the world today."

Education's Use at Home

Dr. Williams advises the girl still in college to be "sensitive to the many opportunities of employing her college education for the direction of the modern home and for assuming the cultural and humanistic leadership in the present-day society." She warns that "the college-educated woman must prepare herself to the point that she will not relapse to the behavior of the uneducated."

Legislative Council For Proposition 3

Proposition 3—the \$200,000,000 bond issue for state construction—was unanimously endorsed by the Legislative Council of the Associated Students at UCSB, it was announced by Stan McGinley, president.

In one of its first actions for the school year, the student leaders went on record in support of this issue which involves the financing of construction of several key buildings on the Santa Barbara campus scheduled during the next five years. The Regents have approved a building program totaling \$30,000,000 for the local UC branch during 1959-64.

The State Department of Finance has warned that the much-needed construction for the state university and state colleges can only be financed by an increase in taxes unless the voters provide money through the sale of bonds, which spreads out the cost over many years, McGinley stated.

Seventy-five per cent of the funds allocated for state construction will go to university and state college buildings. The remaining amount will go for construction of mental hospitals, correctional institutions and the California Youth Authority.
