A large group of members of the Carpinteria Valley Chamber of Commerce attended the meeting which was held last Thursday evening in the reception room of the Veterans' Memorial Building and heard Wallace Penfield of the County Planning Commission outline the proposed zoning ordinance for the Carpinteria District. Penfield pointed out that the Board of Supervisors, which would be covered by the ordinance, would divide the district into which it would be divided, and the uses permitted in these smaller areas will be explained by procedure by which the requirements of the proposed ordinance were reached.

Penfield stated that, following the request of the Chamber of Commerce, a thorough survey of the district involved was made as to present uses and possible future needs and a tentative plan outlining the proposed ordinance as of today, Penfield, is not yet final and may be changed if desired by request of local residents.

Penfield also made it clear that adoption of the ordinance depends upon re-action of property owners in the area involved and that following the presentation of a petition signed by a representative number of the property owners two public hearings will be held by the planning commission and each by the Board of Supervisors in whose hands final action on the matter rests.

All maps involved with explanation appear elsewhere in this issue and a further discussion of the district as a whole is to be presented by the various districts in Carpinteria Valley.

The following is the third of a series of articles issued at the request of the Carpinteria Chamber of Commerce as an aid to create various use districts in Carpinteria Valley. The first two articles outlined the purposes and general adaptability of the ordinance and the procedure for adopting such a plan for Carpinteria Valley.

The Zoning Plan

Area Affected by Zoning Ordinance

The following districts are created in order to cover various use districts in Carpinteria Valley. The first two articles outlined the purposes and general adaptability of the ordinance and the procedure for adopting such a plan for Carpinteria Valley.

The Districts Created

In order to cover various use districts outlined last week, the following districts have been proposed:

RA—Rosedale Agricultural District
RI—Single Family District
RD—Group Dwelling District
C1—Commercial Dwelling District
M1—Industrial District

These five districts are created to fit existing conditions as close as possible. They are a sincere attempt to reflect the type of growth and development which is now present in Carpinteria Valley, and which, it continued, will reflect credit upon the community.

There are several other provisions of the ordinance which will be described in detail next week. It is hoped that this ordinance does not list uses prohibited, but only uses permitted in accordance with existing conditions.

Ordinance Not Final

This ordinance is now in the formative stage. It is not final and may be changed until it is finally adopted. A thorough understanding of its provisions is necessary by the public owners of Carpinteria Valley. Comments and suggestions will be welcomed, and every effort will be made to fit it conform to the wishes of interested property owners.

The Chamber of Commerce has now pamphlets available describing the ordinance in more detail which may be secured from Secretary W. H. James.

LOCAL DRIVE FOR PARALYSIS FUND NETS OVER $175

Final returns of the drive to raise funds for raising Camp Almquest paralysis which was held during the latter part of January reveals that $175.92 was contributed by Carpinteria residents according to figures released by David Safwenberg chairman of the committee.

Safwenberg was assisted in conducting the drive by Mr. B. E. Franklin and Miss A. G. Wood and the committee wishes to express their appreciation for the response to the drive for this worthy cause.

Carpinteria Is Featured In Travel Folder

The Carpinteria Valley Chamber of Commerce has just received 100 copies of the attractive new folder issued by the Mission Trails Association in which Carpinteria receives excellent publicity. The folder is printed in blue and orange, is eight by nine inches and contains 16 pages of scenes and descriptions of the Coast counties represented by the Mission Trails Association.

The opening paragraph of the (Continued on page 8)

WALNUT MEET TO BE HELD IN CHINO FRIDAY

For the twenty-first consecutive year, walnut growers will convene in the auditorium of the University of California, at Chino, on Feb. 10. This announcement is made by J. L. Smith, Emergency Assistant Farm Advisor in San Bernardino County, with the cooperation of a group of growers of that county, is well-rounded and promises much interest to growers.

Mr. A. R. Bichle, well-known walnut authority and Director of the Citrus Experiment Station at Riverside, will preside in the morning, Mr. J. A. Smiley, Chairman of the Edible Nuts Department of the California Farm Bureau, will be the afternoon chairman.

The program, arranged by Mr. H. J. Wider, Farm Advisor of San Bernardino County, with the cooperation of a group of growers of that county, is well-rounded and promises much interest to growers.

The program is as follows:

WALNUT FESTIVAL
GAS TAX INCREASE
AUTO CLUB OPPOSES

The Automobile Club of Southern California will protest any increases in the gasoline tax. A bill to raise the gas tax 10 cents was introduced in the legislature yesterday by Senator George Magee of Mendocino County.

Voicing the motor club's opposition, General Manager, L. Mitchell said last night: "Anticipating that a proposal to increase the tax on motor vehicle fuel would be made at the current session of the legislature, the club's district managers have instructed club executives to make every effort to prevent the passage of such a proposal.

Proposition 4, which was on the

bailot last November but rejected, by only a small vote, was drawn in part for the purpose of obtaining more efficient use of such highway revenues by state and local authorities.

"Public spiritedness can always spend more money. What the people really want and deserve is such a tax on gasoline as will buy greater value of services than the state now pays. The objective by highway authorities will make unnecessary any present increase in the gas tax."

"Motorists and taxpayers who wish to express their protest against an increase in the gas tax, are urged by the club to mail a letter to their state and federal representatives expressing their disapproval of the proposal."

"The club has been made aware of the fact that the public has had a long experience with increased costs and that a more thorough knowledge of the needs of transportation has been gained during the past few years. The club's system of road and highway improvement is now in a position to serve the public better than ever before."

"Aided by the recent gasoline tax increase, the club has been able to undertake a number of projects for the benefit of the public. These include the construction of new roads, the improvement of existing roads, the provision of better lighting, and the establishment of more efficient traffic control systems."

"The club is aware of the importance of effective road and highway improvement in the general welfare of the public. The club is therefore committed to the maintenance and improvement of its system of roads and highways in the best interests of the public."

"The club is also aware of the need for public education in the matter of transportation, and is working to increase public understanding of the problems involved. The club is therefore committed to the provision of educational materials and programs for the public."

"The club is also committed to the provision of educational materials and programs for the public. The club is therefore committed to the provision of educational materials and programs for the public. The club is therefore committed to the provision of educational materials and programs for the public.

"The club is also committed to the provision of educational materials and programs for the public. The club is therefore committed to the provision of educational materials and programs for the public.

"The club is also committed to the provision of educational materials and programs for the public. The club is therefore committed to the provision of educational materials and programs for the public.

"The club is also committed to the provision of educational materials and programs for the public.
Bank Summary Shows Trends of Business

Encouragement as to the continuation of the recent movement is contained in the Monthly Summary of Business Conditions for February issued by the Department of Research of Security First National Bank. Resulting from Market Week disastrous effects from the last half of 1938. Particularly favorable results were received the Combined Market Week in the last half of 1938. Particularly favorable results were received the Combined Market Week in Southern California wholesale markets.

In the wholesale markets there are many who expect that rapid rise which occurred during February 1938, leading to a period of readjustment and consolidation is normal under these circumstances and that the Reserve Board's index will advance in response to the recovery in general business activity, influenced by rapidly expanding shipments of naval oranges from Southern California and the near record volume of cauliflower from Florida, orange prices have declined to a very low level. Lower prices also exist in California in 1938 was 22 per cent lower than in the previous year, according to estimates of the United States Department of Agriculture. Income above those of a year previous while that from livestock and livestock products declined only 18 per cent. Government payments increased from $5,306,000 to $12,361,000.

SOUTHERN PACIFIC PLANS BIG DISPLAY AT S. F. EXPOSITION

With the Golden Gate Internationl Exposition scheduled to open on February 18 on Treasure Island and San Francisco bay, finishing touches are being given to elaborate exhibits of Southern Pacific Lines, according to R. E. Metzler, vice president in charge of passenger traffic.

Fashioned in its display, to be known as the "Round House," will be the largest railroad exhibit at the exposition, occupying 3142 square feet. Metzler said it will feature the latest in model railroad system running through spectacular dioramas depicting Southern Pacific's four transcontinental routes. The company's earliest equipment will contrast with its modern luxury trains.

Other exhibits will include an animated full-size reproduction of the company's longest streamlined locomotive, an actual map showing the territory served by Southern Pacific with the location of every freight and passenger train at 10 p. m. on an average night.

Boarding out these usual exhibits will be displays of the railroad's fast overnight merchandise trains service together with the enthusiasm with which buyers from all parts of the country received the Combined Market Week which was held during the latter part of the year and are now realized in the southern states and are an important industry.

**Philharmonic Orchestra Due Tuesday Night**

**Truly regional is the interest that has developed in the series of concerts which the Los Angeles Philharmonic Orchestra is giving at the Fox-Arlongton Theatre in Santa Barbara this season under the direction of Dr. Reinhardt, the Music Branch, Community Arts Association, Santa Maria, Carpinteria and Santa Ynez Valleys are setting a pace that will reach Monte carlo city and Monte carlo music lovers.

**The initial performance of the series, given last month, showed that a complete symphony orchestra is being brought from Los Angeles for the Santa Barbara performance. The acoustical properties of the Fox theatre have been brought to perfection by an expensive architectural operation and that every one of the 1600 auditorium have been treated with an oil solution. The program numbers.

**The closing number will be “Sister Beatrice” at Lobero tonight, Friday and Sat.**

**Santa Barbara—Max Reinhardt’s exquisite production of Maurice Maeterlinck’s “Sister Beatrice” will have a gala opening tonight, Feb. 9, at Santa Barbara’s Loberto Theatre. A cast of fifty, headed by Helene Thimig (Mrs. Max Reinhardt), celebrated European actress who is making her first appearance in America, and a chorus of singers will repeat the performance on Friday evening and Saturday afternoon.

**Unusual in the program of this production is a mystic drama with intensely gripping cli-max. One of the great scenes of the play occurs on the last night when the statue of the Madonna, played by Mrs. Reinhardt, miracu-lously comes to life in the convent chapel and it is with a great sense of the mystery of the convent walls. Unlike the great staples for which Dr. Reinhardt is so famous in America and Europe, “Sister Bea-trice” is written in the tech-nique of the “Italianate” theatre. American people have known Reinhardt’s “The Miracle” and “A Midsum-mer Night’s Dream” but few are familiar with his operas. Dr. Reinhardt created the operas, will have their first appearance in America, and a.**

**The climax of the play will be the last appearance of Mrs. Reinhardt, who will be present. The concert, conducted by Dr. Reinhardt, will include the performance of the Los Angeles Philharmonic Orchestra under his direction. The evening will open with Shostakovich’s Symphony No. 1. Then will be heard “Pictures at an Exhibition” by Mussorgsky-Ravel. The program will be repeated with slight changes. All local music lovers are invited to be present. The concert will be given sponsored by the Junior class in Santa Barbara Woman’s Club at Mission Cany on next Sunday afternoon at 3:30 when Mrs. Josephine Reinhart Ger-litz, Los Angeles Philharmonic commentator, will give an illustrated talk about the program for which no charge will be made. She considers the forthcoming program at the Santa Barbara Municipal Auditorium, Patrons from Ventura county will have their first opportunity of observing another phase of the Reinhardt genius.**

**The chorus is under the personal direction of Isaac Van Groo, a favoritie of audiences at the Santa Barbara County Bowl where he di-reoted the symphony orchestra of the summer festival series. The graceful, simple settings in the medieval comedy were designed by Nicolos Reinmiff.**

STEEPLECHASE AT POLO FIELD THIS SUNDAY

A double card of equine hurdle contests will be staged over the brush jumps at Fleischmann Field Sunday afternoon at 2:30.

The two steeplechases will be preceded by a polo game in which "Hubie" Williams, Alec Bullock, C. H. Jackson Jr., and George Oliver, who brought the stands to their feet cheering on several games this season with their spectacular plays, will be seen in action.

The Converse Plate Trophy steeplechase is a two-mile affair in which Hopeful Jim, owned by Mrs. Jock Whitney, will try to turn the tables on Bing Crosby's Lindon, the winner of the last steeplechase is a two-anile affair who brought the stands to their feet cheering on several games.

Mrs. Jock Whitney, will try to do the same field by 200 lengths. An English ride again over the two brush jumps at Fleischmann.

The racing committee of the AT POLO FIELD
throughout the medium of the Chronicle to all students and basketball fans in Carpinteria and vicinity to attend the gala affair.

The program opens at 7 o'clock with the State College freshmen meeting an All-Star team from the Recreation Department's major league. This promises to be a thriller from start to finish. To top off the end of the program, "Wee Willie" Wilson's Gauchos cagers will meet a victory hungry representing the Mustangs of Cal Poly at San Luis Obispo. Coach "Brooks" O'Daniels' warriors dropped two one-point decisions to the Gauchos last season, and they will be out to avenge on Saturday night.

The third top feature of the program will be a dance following the games featuring Frank Greenough and his eleven piece band. During various intermissions in the sports events, exhibitions of tumbling and fencing will be staged, Kaime said. Outstanding about the entire progress in the fact that the sports events will be one home stretch drive of their sensational race for the 1989 Southern California Conference crown this week-end, when they fare Pomegranate's potent outfit in a two-game series.

The Bengals will play in the Camarillo gym Friday night and will serve as hosts the following evening. Both battles are slated for 8:15.
CIVIL SERVICE EXAMINATIONS ANNOUNCED

The United States Civil Service Commission has announced that it will accept applications not later than March 6 or if received from States east of Colorado, and not later than March 14 or if received from Colorado and States westward, for the positions named below. Applicants must not have passed their 36th birthday.

Industrial economist (labor economics), $1,000, also senior grade, $4,000 a year, and principal grade, $6,000 a year, Wage Board, Department of Labor. Associate industrial economist (minimum wage laws), $3,300 a year, also assistant grade, $2,000. Minimum Wage Board, Department of Labor. Applicants for the associate grade must not have passed their 35th birthday; for the assistant grade (minimum wage laws) they must not have passed their 36th birthday.

AGENT MUST THINK FAST

Fast thinking is a necessity in the life of all motorists. Too many people have suffered injuries from the consequences of a moment's lack of thought. Here are some tips on the subject of safety in driving:

1. Headlights must be used when visibility is poor.
2. Buzzing and changing lanes can be dangerous.
3. Never pass another car when making a turn.
4. Watch for pedestrians and animals on the road.
5. Keep a safe distance from other vehicles.

JESSIE JAMES VS. TARZAN ORTH ON MAC CARD TONIGHT

Coming into his due at last, Tarzan Orth brought down the plans on which he had been working for the last two years and a half. At the same time, he was determined to give the public a show that would be unlike any other. The result was a spectacular production that left the audience in awe.

MOON'S PHASES: Last quarter, Feb. 16, 8:12 p. m.
Zoning Plan

Dr. C. F. Moore.

Constitution Committee

The Constitution Committee of which Dr. C. F. Moore is chairman was voted to change the constitution to provide for three general meetings a year, viz., one meeting to be held on the second Thursday in January, the first Thursday in April and the first Thursday in October, at which time special programs will be presented.

The board of directors will meet on the first Thursday of each month with the exception of January, when the meeting will be held on the second Thursday. The date for the semi-annual spring dinner will be set for the first Thursday in April and further plans for the event will be made at the next meeting.

It was announced that the high school band will be presented over the Santa Barbara radio stations on February 21st and 22nd. On the 21st the program will be heard at KTIMS at 7:30 and on the 22nd at 11:15.

A communication received from the State Senator Hollister stated that he had introduced a measure which would permit use of county roads by interstate trucks.

Mr. and Mrs. Joseph Calderon of 1224 East Canon Perdido street were treated at St. Francis hospital for bruises received when their automobile hit another in which a Mrs. Max of Chicago, who was riding collided. Mrs. Max received severe burns and lacerations and several fractured ribs.

Martin Paisn, 35, itinerant, received painful injuries Monday night when two cars side-瑞kind on Rincon Hill at about midnight.

Robert J. Wilson, 23, a native of Alhambra, another occupant of the car in which Paisn was riding, was held for investigation by the Sheriff's office after other occupants of the car told officers he had thrown Paisn from the train while it was traveling at a speed of approximately 30 miles per hour.

The bill was introduced in response to a recent request made by the Chamber of Commerce.

Carpinteria in Folden

One field is devoted to Carpinteria and reads as follows: "Fort stop on the Summer route north (U. S. 101) is Carpinteria. It is a home of the entire world. There is a great nut-bush beach, great groves of walnuts, orange groves and lemon trees; and beautiful hill-top haciendas—homes of the Carpinteria Valley ranchers. Standing parallel in the ocean and in back of the valley is the magnificent chain of mountains known as the Santa Ynez Range. The lemon trees, which are almost never without blossoms, roll fruit and sweet, fragrant, white blossoms at the same time, are the pride of the Carpinteria Valley."
