

A.S. Voter's Guide

Off-Campus Representatives

JOE MANES

I'd love Ronnie's job, but right now I'll have to settle (hopefully) for off-campus representative. After almost two years of filling out forms "undecided" for my major, I'm in the process of declaring a political science and communication studies double

I'll be on the ever-popular five-year plan). Being an optimist is one of my strong points, although this may be considered naive by some. I feel that a lot of policies made within the next few years will be affecting students drastically. We could be losing our student loans and financial aid, or perhaps receiving an all expense paid trip to El Salvador, or forced to sleep on the streets for lack of anywhere else to go. An optimistic outlook will help in determining our options concerning these policies while a terminal cynic might think there is no hope. I know everyone gets tired of hearing that "students can make a difference," but I honestly believe that and I'm not willing to change that opinion. I can't rattle off a long list of offices that I've held or awards that I've received, but I have been active by working for Assemblyman Gary Hart's office through CAB and other volunteer projects. I'd really appreciate your vote.

JOHN TOSDAL

I would like to take this opportunity to inform you on the general outlook I will have as your A.S. Off-Campus Representative. Most of my experience and energy thus far has been focused on the draft issue. In Fall Quarter of 1980, I became an active member in the Coalition to Stop the Draft. This initial involvement gave me the inspiration to pursue the subject further. Last quarter I became active in the state wide organization against the war and draft, Students United Against War and Draft. Specifically, I played an active role in organizing its most recent conference here in Santa Barbara. This has led to further involvement in other progressive organizations such as Progressive People in Solidarity.

The draft issue is only one aspect of my overall progressive outlook. As your off-campus representative my diverse interests will lead me into many other important issues. For example, I strongly support

increased minority enrollment and urge improvement of the Equal Opportunity Program and Special Services Program. Also, I see the urgent need for the positive developments of the status of women. Furthermore, I hold a great concern for environmental issues. I feel that campus recycling and conservation programs should be supported with more enthusiasm. And finally, concerning the student housing problems, I can see a definite need to increase tenant to landlord communication and to implement more housing co-ops.

This is only a brief synopsis of my views and directions. As your off-campus representative, I hope to receive input on your opinions. Thank you for your time and please remember to vote on April 21 and 22.

Endorsed by Coalition to Stop the Draft, Sierra Club, Status of Women and El Congreso.

STEVE SPELMAN

I think that the key to a responsive student government is student involvement, both individually and collectively. We, as students, owe it to ourselves to get involved, to air our views and to insure that they are heard. This is why I am running for A.S. Off-Campus Representative. I hear everyone complaining about the "Inauguration Day Scandal," but at the same time, I fail to see many people doing anything about it. Without student support, our Associated Students organization has no meaning, nor does it have much purpose. I urge everybody to get out and vote, continue to be abreast of the issues, and hopefully become directly involved in our student government for next year.

I think that there are two main problems that should be addressed by myself as a candidate for off-campus representative. First and foremost is the issue of landlord-tenant relationships and tenant rights. I feel that students and other renters in Isla Vista are

being grossly exploited by the management companies, as we face rent increases of 10 to 30 percent annually. I think that we need to somehow promote better landlord-tenant relationships, to organize protests against high rents, and to give our support to housing co-ops and other tenant-based alternatives.

Secondly, the growing problem of crime and law enforcement in Isla Vista deeply concerns me. This problem consists in large part of an insurgence of delinquent high school students and other bums who require constant surveillance by the Foot Patrol. This results in the misfortunate harassment of many UCSB students and local merchants for violations of liquor laws, drug and alcohol possession and various other petty crimes. The solution is not easily obtained, and this problem should be dealt with in depth by us, as elected officials of the Associated Students.

Also, I think that the EOP and SSP programs are definitely steps in the right direction, but we still need much more progress towards the goal of increased minority enrollment and women and minority professorship at the university. In addition, we must keep in mind the persistent conflict between progress and environmental issues and try to find a viable solution which is satisfactory to all sectors of the community. Finally, I feel strongly that we must continue to implement comprehensive financial aid and student loan programs in the face of recent budget cuts.

Again, I urge everyone to get out on Election Day and take the first step towards involvement in your future. And remember to vote for me, Steve Spelman, for your Off-Campus Representative.

KATHY LELEVIER

My interest in running for A.S. Off-Campus Representative is to discover whether it is the A.S. Leg Council that needs to be made more responsive to community affairs or the student body that needs to become more aware and

concerned about the pertinent issues confronting UCSB. There is need for a more definitive representation of our campus — a representation which has yet been seen. Apathy may be a major contributor to this inaccurate representation — leaving many people ignorant to the issues being debated and voted on by the Leg Council. What is desperately needed is student involvement and concern in the present and upcoming issues. Unless Leg Council is adept and willing to inform the student body of arising issues and events, students may be continuously left in the dark.

This year's issues are in part a reiteration of previous years — uncontrollable rents, uncomprehensible teaching assistants and unyielding educational cutbacks. The rent situation in Isla Vista has continued to inflate leaving students faced with constantly increasing rents. In addition, the controversial Sea Wall has stirred concern among Del Playa renters because of the inevitable increase

in their rents — another example of landlords passing the buck. Students should stand up against this vagrant abuse and make the landlords and/or the state share in the cost.

Financial aid, a familiar service to many students should be re-evaluated. I am appalled at the number of undeserving students who are receiving financial aid only to put the money into savings or other non-academic expenditures. There is undoubtedly many people who need financial aid and yet are unable to qualify because of the free riders.

Tuition, another issue being debated, would have devastating effects if implemented. With the proposed cutbacks in student aid, imposed tuition would leave many students unable to further their education. We, as students, should pay close scrutiny to any tuition measures as well as all other issues that continuously confront our community, some of which were mentioned above.

Please support me with your vote.

KEN CLAYMAN

Hello. My name is Ken Clayman, I am running for Off-Campus Representative, and I hope that you will vote for me on April 21 or 22. Now that I have taken care of the important items, let me get into some trivia.

I have been attending UCSB almost five years, and in that time, I have seen many events take place. I have also been involved in some of these events in one capacity or another. Mostly, these events were generated outside of the A.S. government "walls." This past year has been a bit different, though. The level of activism inside A.S. has taken a sharp turn in the positive direction. This is one of the main reasons I decided to run

for office — I would like to use my own past and present experience to continue this positive trend of increasing A.S. activism, further it by developing means for greater participation by the whole student body, and increase cooperation between A.S. and existing student groups (such as El Congreso, BSU, etc.).

There are a great deal of issues that I feel are very important, and I hope that as a member of Leg Council I could address them all at some point. Some of these issues include:

1) Financial Aid — Both Reagan's budget cuts and the new minimum income levels established by CSAC have hurt a majority of us. As a representative, I would be actively involved in trying to get CSAC to reevaluate this new policy.

2) Housing — This is an issue that existed before I started to attend UCSB, and one that has only intensified over the years. My goal is to instigate more communication and awareness of the problems (and possible solution) on both sides of the fence by working with all of the parties involved — including A.S. and IVMAC. Related to this issue, I oppose the D.P. Seawall because of its projected affects on the rents in the area.

3) Women and Minority Faculty — How many women professors have taught a class that you have taken recently? How many

minority professors? Ever wonder why it's so few — if any at all? So have I, and I would like to find out the ways in which these situations can be changed — immediately.

4) Draft and Complicity — Very simply, I oppose them both.

5) Weapons Labs — The Los Alamos and Livermore labs have been the only developers of nuclear weapons in the U.S. since the beginning, and the ties by the U.C. are totally unacceptable. The conversion of the labs to constructive uses must begin immediately, and as an A.S. Representative, I will work actively towards those ends.

There are a number of issues, as I said before, besides these that need to be dealt with, but the main issue for me, to reiterate, is to generate ever more participation by you people in your government. While the A.S. election is the most visible event happening right now, immediately following the elections, the various committees and "arms" of A.S. government are selected by the new council. These other groups make up the "meat" of A.S. government, and are the perfect way to get involved with A.S. — so check it out! Remember, even if you do not vote for me — just remember to vote — it is the first and easiest way to participate in the decision-making processes which directly affect your life as a student. Thank You, Ken Clayman, Candidate for Off-Campus Representative.

CONNIE CURRAN

My name is Connie Curran and I'm a candidate for A.S. Off-Campus Representative. I'm currently a second-year business-economics major and over the last two years I have become con-

cerned with rising UCen food and bookstore prices, landlord/tenant relations, the Del Playa seawall, and women's issues. Student apathy is also a major problem that stems partly from poor communication between students and their government. The A.S. Newspaper that presently conveys Leg Council activities to the students may not be continued next year; this action would only compound the problem. Ideas for bookswaps and special workshops are solutions I would promote in hopes of remedying rising prices and landlord/tenant relations. The serious issues of sexual harassment is a growing problem on the UCSB campus and pressures must be placed on the administration to form effective policies to protect the student. I'm qualified for the job of off-campus representative because I am not only aware of these issues, but willing to devote the time and energy needed to promote solutions to them.

More Off-Campus Representatives, p. 3A

Off-Campus Representatives

TODD JERSEY

My name is Todd Jersey and I am running for A.S. Off-Campus Representative. I am a sociology major and currently have junior standing.

I am a little bit pensive about BS-ing on the topic of what I intend to do as a representative. I have

never held an administrative position so I really don't know. I am choosing then to focus on my interests as a person, although not my individual interests, and hope that your ideas bear a similar orientation.

I hope to concentrate on the housing situation in Isla Vista. Traditionally the university has played a passive role in the evolution of I.V. allowing primarily a business community to supply the students with housing. This has led to the powerful price setting capabilities of the rental management companies and landlords and the consequential rises in costs and shortages. I believe that it is in the university's interest, in order to maintain a student population from a wider range of economic backgrounds, to involve their minds and their

money to help alleviate the housing crunch in I.V. It is certainly in the students' interest. I will actively support and push for more housing cooperatives using university funds to purchase housing stock.

Overall my interests are progressive and I will push for policies that seek in their intent to establish a greater cooperative and egalitarian academic environment. This may include channeling more money into the Equal Opportunity Program and organizations to help the handicapped. In addition, I would like to research grading options, mechanisms to boost student incentive and alternative to the lecture/exam system. Underlying all of these interests is a desire to work hard and to help make my year personally rewarding and beneficial to those I represent.

JOAN HJORTZBERG

Welcome to the annual A.S. elections. In the past year I have been actively involved in the A.S. Commission on the Status of Women, the Sierra Club, and recently, the Student Lobby's Handgun Control Commission. I have taken time to familiarize myself with Leg Council procedures and am concerned about the lack of feedback from the students. A lot of potential exists for more visible student input on the various committees, and the importance is realized when one considers the possibility of

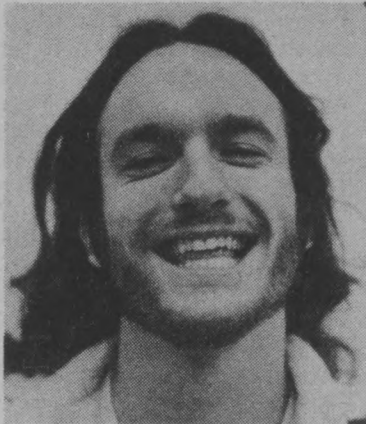

changed graduation requirements. To facilitate open lines of communication, I would ensure that the A.S. newspaper is continued. We must have a progressive, not a repressive government.

My concerns for the Isla Vista housing problem include working to organize a student tenant association, supporting the housing co-ops, and helping the I.V. Legal Clinic to aid students involved in landlord hassles. In addition, we must have affirmative action, increased financial aid to qualified students, strong lobbying against tuition proposals, greater campus and community safety, campus recycling, opposition to the draft, and opposition to the proposed D.P. seawall.

I believe in my abilities to initiate innovative projects, to see my goals accomplished, and when it comes to keeping everything in perspective having a good sense of humor. So please take the time this year to come out and vote — and next year's government will be a truly representative one.

Endorsed by:

- A.S. Commission on the Status of Women;
- El Congreso;
- Coalition to Stop the Draft;
- Sierra Club

MITCH STOCKTON

Would you buy a used car from any of these candidates? If not, then why would you give us \$14.00 per quarter when you know only

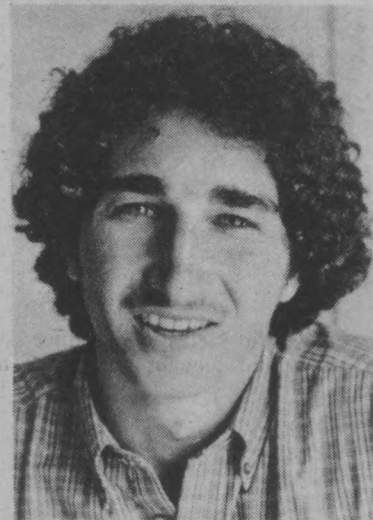

very little about us? These statements are probably the only contact that most students have with their representatives. This lack of interest in student government is unfortunate. Unfortunate for both those in student government and for the student body because if there is no communication between representatives and their constituents, it can't truly be said that there is "representative" student government. If you're going to take the time to read these statements and vote for whoever you think is the best candidate, then please take the time to talk to your representative, no matter who is elected.

By the way, my name is Mitch Stockton, and I would appreciate your vote on April 21 and 22.

Following is a list of my qualifications and a partial list of my endorsements.

Qualifications:

- Active member and co-facilitator of the Coalition to Stop the Draft;
 - Active member of the A.S. Commission on the Status of Women;
 - Active member of Progressive People in Solidarity;
 - Member of Pi Tau Sigma, Mechanical Engineering honor society;
 - Experienced with the finances of the Coalition to Stop the Draft.
- Partial List of Endorsements:
- A.S. Commission on the Status of Women;
 - Coalition to Stop the Draft;
 - UCSB People Against Nuclear Power.

LARRY BROWNSTEIN

No statement was submitted.

STEPHEN C. KALLY

No statement was submitted.

JEFF HICKEY

There are many issues confronting students that Leg Council members must address. My name is Jeff Hickey and as an off-campus rep next year I plan to

make the issue of alternative housing a priority.

Leg Council and A.S. must continue to support the Isla Vista Rochdale Housing Co-op, such as with the funding appropriated this year. I will work to continue this support. I have lived in the Co-op this year; this has given me the knowledge and experience to decisively pursue this issue.

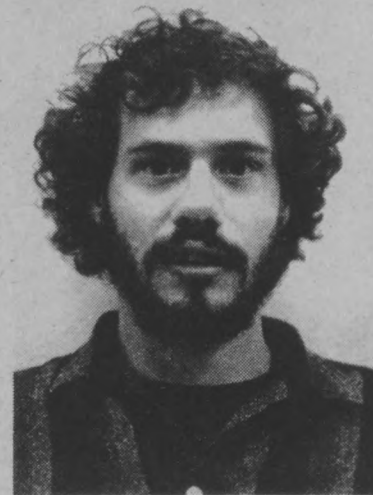

Another issue is Leg Council's effectiveness in serving you the student. Ineffective, wasteful controversies such as the phone vote dispute detract from other important issues and should not occur. I plan to work to avoid such useless controversy and to make sure that Leg Council voting is always open to public view.

I support expanded Leg Council assistance to such important concerns as A.S. Notetaking, CalPIRG, A.S. Bike Shop, and

better, more effective campus recycling. Leg Council has the power to aid and strengthen these programs, through financial and philosophical support. This type of concern for these programs will be a priority of mine.

Help me to serve you next year by putting me on Leg Council. I will bring to Leg Council the knowledge and experience I've gained in three years at UCSB. I have been hall president and treasurer in the dorms, CAB volunteer, a member of the Rochdale Housing Co-op, Judicial Council member, and an intern in the Santa Barbara County Own Recognition/Bail Reduction Unit.

I will continue to show this initiative and responsibility on Leg Council. Remember, on April 21-22, a vote for me is a vote for you. Thank you.

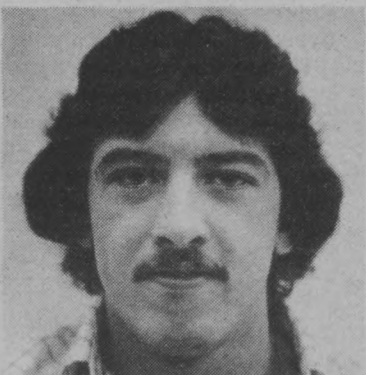

BRIAN MACDONALD

Legislative matters are decided like the way people catch elephants; one at a time. It is my hope that as your off-campus representative, we can move to improve and heighten our status as students. We have a potentially powerful voice in our U.C. Student Lobby and must use this force to implement our various projects and to voice our concerns on such diverse issues as the I.V. housing problem, the excessively low minority student enrollment, the threatened financial aid program, the need for more women and minority faculty and staff appointments, continued campus

recycling projects, plus the need to sever campus complicity with the Selective Service, and to cut U.C. ties with the weapons labs.

I will not make unreasonable promises, but I will definitely work to see that we have an active voice in the issues that concern us as students. More specifically, we need to improve the relationship between student renters and landlords, and continue to push for more student/tenants rights. Next, recently proposed cuts in federal student loans and the recent increase in the minimum family income for financial aid eligibility directly affect students from lower income families, particularly minorities. This will only add to the already low minority student enrollment. I will put forth a concentrated effort against tuition proposals like these. Furthermore, we need to continue to support our campus recycling program. I have direct acquaintance with the recycling program through my job at Central Stores on campus, and am well able to communicate with my supervisors on this issue.

This is a brief summary of my views. I have highlighted the issues that I feel most strongly about. As your off-campus representative I will actively participate in these issues and encourage feedback from you. Thank you and please vote on April 21 and 22.

JIM ALBERT

Well, it's election time again and here you are about to read the promises of the various can-

didates. My name is Jim Albert and I have no promises to make. No, I'm not an apathetic candidate, I merely see myself as a candidate who realizes the limitations of his office. As an A.S. representative, I would only possess one vote, therefore to make promises and guarantee their implementation seems unreasonable to me. I believe that careful and deliberate exercise of the A.S. voting right is a big responsibility. The right person for the job should be someone willing to fully accept this responsibility.

The present A.S. Legislative Council has been plagued by absenteeism. Too many candidates seek the glory of being elected and

then shirk their duties once in office. I would like my presence on the council to be productive. I believe in researching proposals before voting on them and consulting my constituents; the off-campus residents of UCSB. As a representative, I would hope to truly represent the students. I believe the votes I cast should represent your views as well as mine. Therefore involvement on your part is needed also. Don't take things for granted. You don't have to be a silent face in the crowd. The first step toward involvement is voting. Please get out and vote April 21 and 22 and I hope to hear from you once I'm elected. Thank you.

More Off-Campus Representatives, p. 4A

EXTERNAL VICE PRESIDENT

CINDY FASON

Rather than making some sweeping promises and assertions about the role I would play as A.S. External Vice President, I would first like to enumerate the responsibilities of this position. As outlined in the A.S. By-Laws, and apart from the collective duties of the executive officers, the external vice president serves as a liaison and official A.S. representative to Isla Vista government, the Santa Barbara Board of Supervisors, the U.C. Regents and Systemwide Administration, the California Legislature, the Governor's Office, the U.C. Student Lobby, and the Student Body President's Council.

With duties revolving around professional political organizations, experience determines not only the effectiveness of the external vice president, but also the esteem with which the community and

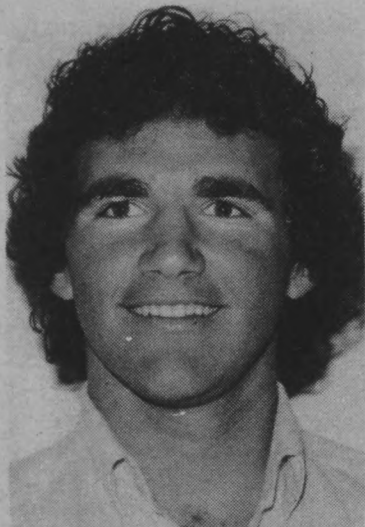

statewide organizations view student leadership. Further, the time commitment is extensive. Travel to Student Body President's Council (SBPC) and the regents' meetings takes a large chunk from weekend socializing. Meetings commence on Thursday mornings and end on Friday evenings. The travel is exciting and a valuable chance to work with statewide issues and legislators. The year-long commitment will not always be fun.

My experience as an off-campus representative to Leg Council this year has given me a fundamental understanding of A.S. structure and procedures. Service on campus committees and involvement in campus issues has given me a good sense of student needs at UCSB. More importantly, my service on the systemwide University Extension Committee,

my presentation to the Board of Supervisors against condo conversions in Santa Barbara, and my investigation into, and attendance at the Regents meetings has shown a sincere interest in external affairs, especially as they relate to the external vice president position.

My strongest issues include lobbying for increases in tenured women and minority faculty, in recruiting more minority students to the U.C. system, in lobbying against tuition institution, and in lobbying for student representation on systemwide Academic Senate Committees.

I have gained the endorsements of the current External Vice President, A.S. Status of Women, El Congreso, and People Against Nuclear Power. Please vote! Thanks, Cindy Fason.

JOHN COTTINGHAM

It's time for a change in the attitude of the A.S. government. We can no longer afford to stay apart from the university administration and the local community. The old school of thought has been directed only towards a few groups and not at an overall picture.

Having been at this school for four years, I have had the opportunity to experience many of the different facets that this school has to offer, and learn of the problems that it faces firsthand. Working in Isla Vista at the Lara Help Clinic and by currently living in I.V., I have seen the needs of the local community of students with regards to the continued housing shortage and discrimination towards student renters. I will work with the university towards

the solution of these problems.

I am currently on the Student Alumni Board of Directors and have been endorsed by the Community Affairs Board, better known as CAB.

Having the opportunity to have played water polo for three years here and by participating in the Intramural program I appreciate the experiences that sports provide each of us. The administration has removed the grading option from the P.A.-1 classes and in the future may try to abolish credit completely. They have already done so for some of the most popular classes in the P.A. Department offered, such as sailing. I would actively oppose any such actions in the future. I would also support efforts to expand our involvement

in NCAA competition, such as supporting a fencing team at UCSB.

On a more national vote, with regards to the Weapons Labs, such as Lawrence-Livermore, I don't believe that an institution that is dedicated to higher learning should be involved in nuclear weapon development. I would lobby against tuition proposals; for a California Bottle Bill and for a Truth in Testing law involving standardized tests such as the SATs and LSATs. I would support non-compliance by the university towards the Selective Service in opposition to the draft.

I have the time, the energy and the experience to do the job. Please vote for me in this election, it's time for a change.

GREG NACCO

Over the past year I have been actively involved in student government.

As an on-campus representative to Legislative Council I was appointed to the A.S. Finance Board, A.S. Community Housing Committee, A.S. Organization's Coordinating Board and the Student Advisory Committee. In addition as an on-campus rep. I served on the Residence Halls Association (Coord. Board), which is the governing body for the dorms.

A major concern of mine during the year centers on the quality, availability and cost of student housing. Solving the housing problem was the top priority of this year's Leg Council and while we didn't eliminate the problem, we took the crucial first step when the A.S. Executive Director (acting), the A.S. President, the Finance Board chair and myself worked out the details for an A.S. grant/loan financially supporting the efforts of the Rochdale Housing Coop.

Another critical issue facing our campus and the entire nation is the advancement of women's rights. Rape, the awareness of rape, violence and pornography are

horrors which should be known to both women and men. I've supported the activities of the A.S. Commission on the Status of Women and the Women's Center. Specifically I arranged for the education of dorm students via a slide show presentation and talk about violence and pornography and its affects on men and women.

The environment is a concern affecting all people and this year I've directed some energy toward the formation of Students for Natural Resource and Energy Conservation which is a new group that will consolidate all conservation efforts in water, electricity, heating and recycling.

Lobbying is another important aspect of student government which specifically affects the external vice president. This past year I have contacted various public officials by lobbying for such vital issues as pro-choice, the passage of the Bottle Bill, and most recently for the university to include lecturers and T.A.s in their funding request for faculty expansion.

A final concern of mine involves the relationship between

Legislative Council and the student body. As an A.S. rep and a Finance Board member I am disappointed with the turnout of A.S. reps at budget hearings. These people were elected for a full year and part of that job requires them to be at those hearings. If a student runs for an elected office, it shouldn't be to just sit at a meeting once a week, that's ripping off the students. A.S. reps and execs should be actively involved in the school and the community. This especially holds true when A.S. plans to fund a group or activity. For Leg Council members have the final authority on funding and if they neglect to, at the very least, go to the budget hearings, then they will be uninformed on the issues and they won't be doing the job students elected them for.

In sum, I would like to extend my support and thanks to those students and groups that actively voiced their opinions to the student body. These are the people who interact most with A.S. government. They are almost always the center of controversy, but they offer the students new information and an alternative point of view.

DAVID CHURTON

BE CERTAIN WITH CHURTON.

Student government is a tool, and like all aspects of technology, its net benefits for society can only be calculated by how the tool is used. If we as students take a lethargic attitude towards politics and life, and exist not as choosers, but those who are chosen for, we will stagnate in a sea of

bureaucratic red tape, passively accepting life's problems as the norm. However, when we question authority and recognize that each of us are individuals with worth and the power to instigate progressive change, the social benefits of student government will begin multiplying. Organization and teamwork is the key. I cannot produce change alone, we must do it together... as your A.S. Off-Campus Representative, this is my primary concern and top priority: To increase student participation and accessibility of Associated Student government to the student body so that the creative energies of myriad individuals can be united into a solid and organized student union.

We live in an era of wide-eyed, pearly-teethed political promises that are commonly not kept. For me, a promise is a vow, a serious commitment that should not be spread about like peanut-butter on rye. It is wrong to promise that which might not be achieved such

as rent control in Isla Vista, more women and minority faculty appointments or increased financial aid with lower tuitions for these are goals and dreams that no one can guarantee. Yet, even though I cannot promise the realization and attainment of these pertinent issues for all students, I can assure you that, if elected, they will receive the totality of my progressive support.

Practice makes perfect for sure, but I will bring into the 1981-82 Associated Students government far more than experience alone. It is with enthusiasm, determination and confidence that I will "represent" your vote.

Thank you for taking the time to examine my thoughts. Please get out and vote on April 21 and 22, because without you, our goals and dreams will never get off the ground.

REGINA SMITH

My name is Regina Smith. A.S. election time is here and I'm one of the ambitious candidates seeking the office of A.S. Off-Campus Representative. As a student living

off campus for two years, I am familiar with issues of off-campus housing such as: student discrimination, misinterpretation of contracts and tenants' rights. If I am elected as a write-in candidate for off-campus rep, these issues will be one of my main concerns.

I feel that there is underrepresentation of the minority viewpoint in Leg Council. I'd like to see other cultural groups have their needs serviced on campus in the form of lectures, student organization, concerts, plays and the Office of Student Life. With the diverse emergence of off-campus student concerns and organization issues existing, I would greatly appreciate your giving me the opportunity to focus on some of the specific issues by writing in my name, Regina Smith, for off-campus representative.

CAROLINE TESCHE

The position of A.S. Internal Vice President demands someone who can work effectively with the many interests on campus. Not only does the internal vice president provide leadership to the Legislative Council but also must have an excellent working relationship with the administration, A.S. boards and committees and all other organizations on campus.

As internal vice president I would be entirely dedicated to representing and understanding the diverse interests at UCSB while also conducting orderly Legislative Council meetings and meeting regularly with the Executive Coordinator and the Academic Senate.

I would advocate several measures to insure that Leg Council members remain responsible in their positions including strict adherence to established office hours and better

advance publicity for Leg Council meetings.

The leadership priorities that I feel are important for this campus include working for greater student participation on committees generally, and the Academic Senate in particular, consistent steps towards improving affirmative action and strong efforts to keep our education affordable.

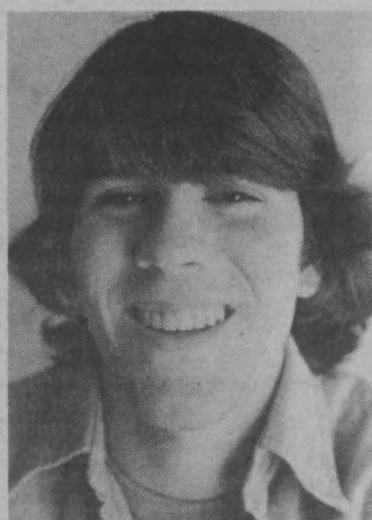

I am also highly supportive of the development of a Police Advisory Committee and have been in contact with local law enforcement agencies to gauge their views on the subject. I strongly believe that this committee could set the stage for what could perform a highly important public service.

And, inadequate or unaffordable housing is one of the major concerns that we face as students at UCSB. I plan to continue my

support for cooperative housing alternatives and hope to work closely with the Housing Office and the Isla Vista Municipal Advisory Committee in determining possible solutions to this crucial problem.

I have been an active member of the U.C. Student Lobby, Santa Barbara Annex for several years and was a participant in the 1979 and 1980 Legislative Conferences in Sacramento. I was also a member of the 1979 Task Force Committee on Committees as well as having been involved in IVCC elections. And, I served a Fall 1980 internship in Washington D.C. with Senator Alan Cranston.

I feel strongly that I could provide effective and responsive leadership for A.S. If you would like new dynamics for A.S. then your vote would be properly spent on Caroline J. Tesche for Internal Vice President.

JOHN FERRITER

I decided to run for A.S. Internal Vice President because as an off-campus representative on this year's council I found that the internal vice president could effectively serve as coordinator for all A.S. administrative, advisory and academic committees. As vice president I would seek to increase student input and participation on all A.S. committees, as it is essential that the students receive adequate representation on all academic committees. I also plan to increase the accessibility and visibility of A.S. government to the students and the surrounding community by continuing the A.S. News page in the *Daily Nexus*, and by introducing a Public Affairs Show on KCSB dealing specifically with student issues.

As internal vice president I would provide the necessary

leadership and guidance to the incoming Legislative Council so that the new representatives would truly represent and be responsible to the student community as a whole and not just select interest groups.

Housing once again is a crucial issue. Students should not be forced to pay exorbitant rents in Isla Vista and the surrounding community. I favor continued support for cooperative housing and plan to work with the administration and the Community Housing Office to find affordable housing for students.

I plan to work for the better disbursement of student fees. I will ask the Registration Fee Advisory Committee to earmark more funding for lecturers and teaching assistants to upgrade the classroom experience for the

students. I also would ask seek funding for student groups who are turned down during the spring budgetary process so that their effectiveness may be felt next year.

I served as one of Leg Council's Pro tem this year and gained valuable experience at chairing meetings. It is essential that the internal vice president know how to facilitate the meetings thus enabling council to be more productive.

If elected I will strive to make the Associated Students' government much more of a cohesive unit than it has been in the past. I have experience within the university, energy, and leadership qualities. Let me put them to work for you again this year. On April 21 and 22, elect John Ferriter Internal Vice President.

BOB FIGONE

My name is Bob Figone and I am running for the office of A.S. Internal Vice President. Generally, the duty of this office is that of an administrative coordinator concerned with on-campus issues. My interest does not rest with the implementation of my own personal feelings/viewpoints. I am interested in gathering student inputs and views and presenting them to the policy process. Faculty and student goals tend to be similar. The methods used to attain these goals differ. Coordination of these methods will enhance faculty student relations and build a trust between the two. I

am very interested in the campus recycling effort in which I have been directly involved with this year. Not nearly enough of the campus recyclable material is saved and stored in order to be processed and re-used.

The A.S. government has available advisory committee positions and make these available to all students who would like to participate in them. I am interested in coordinating new committees and positions for undergraduates. I would like to see Financial Aid work study jobs pay better wages and offer a wider range of jobs.

I support and encourage all student-involved activities on campus and will attempt to establish new lines of communication for faculty and students. I feel that this is the biggest part of the job of the internal vice president. I am interested in input to help coordinate student-based activities. Input can work for us all and I will help facilitate this.

I urge the student body to vote on April 21 and 22 considering the more recent turnouts have been unrepresentative of the Associated Students. So please take the time to vote.

MATTHEW STEARN

My name is Matthew Stearn and I am running for A.S. President.

For the past few years individuals have been elected to office that have not represented you. They have acted in self-regard and special interest.

If elected I and my administration will offer a real change. I will not disappear after the election is over, I will be the most easily accessible and highly visible president UCSB has seen in years. I intend to establish a Polling Committee that will afford the greatest amount of student input possible to the decision making process on the issues of vital in-

terest to all of us.

Also my administration will perform its functions within the scope of the A.S. Constitution and By-laws. I am currently a member of Judicial Council and I have seen A.S. government come to a grinding halt because certain individuals placed their own interests above the A.S. Constitution. My Judicial Council has been the most active, effective and successful in the history of UCSB. It is my intention as president to expand the judiciary, to provide the necessary check needed for a responsible, responsive, and fully accountable government.

Once government is made accountable, and proves itself to be responsible it will garner the respect of the student body, the administration, and the community which will in turn provide a more solid and effective bargaining base to argue for the reforms desperately needed at UCSB, in Isla Vista, and at the University of California as a whole.

Reform which must now be fought for are more women professors with tenure, and increased minority enrollment. We must be able to speak with a united voice against the threat of tuition

being r... per year... pulled o... are ben... police p... to insur... concern... question... must be... amount... already... Non... effective... without... govern... open-mi... helm... Vote f...

During my two-year attendance at UCSB, I have been involved in many diverse campus activities, several community development projects, and I have participated extensively in the student government. I believe I have acquired the skills and perspective to be an excellent A.S. President.

The skills I have acquired and developed include prudent time management, a thorough understanding of the A.S. budget and related financial procedures, advanced organizing ability, e.g., outreach programs, publicity campaigns, and delegation of responsibility, and I have the ability to spark initiative in others.

The perspective I have gained can be explained in two parts: 1) I understand the necessity of objectivity and compromise in decision-making. As an

elected official, I will often have to compromise my personal opinion to best accommodate my constituency; 2) I realize that, no matter what I do in office, I am going to please some people and piss off other people. My job is to please as many people as possible without pissing off too many.

Some thoughts I have for A.S. government next year include renewing the Academic Affairs Board, which has been dormant for two years, setting up a much more thorough and efficient committee appointment process which will greatly increase student input into university governance, and setting up regular meetings with many of the board and committee chairpersons to better exchange information and resources within A.S.

Extensive Leadership and Organizational Skills:

- A.S. Legislative Council member, '80-'81;
- Coalition to Stop the Draft (former co-facilitator '80-'81);
- A.S. Financial Board Representative, '80-'81;
- Environmental Studies Students Association (former facilitator), '79-'80;
- Students United Against War and the Draft (state-wide organization), '80-'81;
- CalPIRG Steering Committee and Board of Directors, '79-'80;
- Progressive People in Solidarity, '81;
- Bill Wallace and Stop Proposition 9 campaigns, '80;
- A.S. Voter Registration Coordinator,

DAVE HENSON

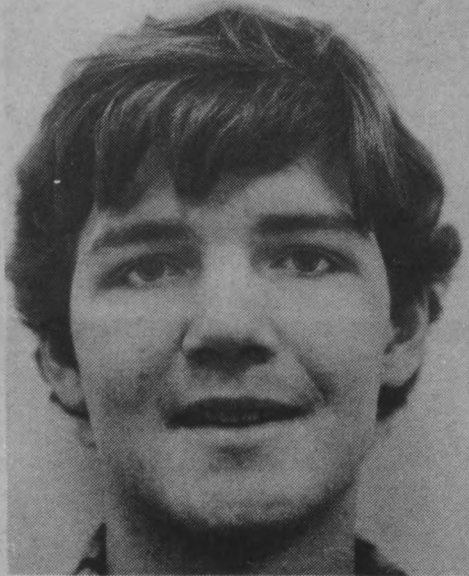

'80.

Concern for On-Campus Issues:

- Increased accessibility of A.S. government to students;
- Support of campus recycling and conservation programs;
- Lobby against tuition proposals;
- Maintenance of financial aid for qualified students;
- Support for more women and minority faculty appointments;
- Support of increased minority enrollment and support for EOP/SSP programs;
- Support for U.C. severance from weapons labs and divestment of U.C. funds from South Africa;
- Development of a program to place quality student representatives on university advisory committees.

PRESIDENTIAL CANDIDATES

CARL MARX

By virtue of not being a byproduct of the present student government system, I will bring a dynamic and constructive approach to the office of the president. It is very clear that the A.S. government can be run more efficiently by relying on the input of the student body as a whole, and not from a select group of UCen

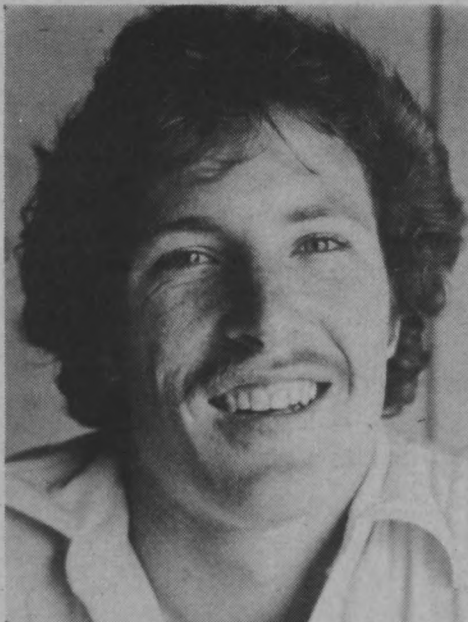

third floor people.

I see the president as being the caretaker for the A.S. funds. The most important thing is to make sure that those funds are allocated in the best interest of the student body. I am the neutral candidate, the only candidate for the office of A.S. President.

Vote Carl Marx for a change.

No statement was submitted.

MARK KAUDERER

GARRY JANES

I'm running for A.S. President because I feel it's time we get someone as president who will aggressively confront our campus related student concerns. As president I will work on issues such as increasing impact on University committee decision, increasing the quality of the concerts program, making sure T.A.s speak adequate English, and resisting the installation of tuition for U.C. schools. I will be spending the majority of my time specifically dealing with the internal campus issues rather than focusing on correcting nationwide issues such as draft legislation and nuclear power.

This concern for national policy is important, but there are A.S. funded groups such as the Coalition to

Stop the Draft and People Against Nuclear Power which can more effectively deal with these issues. When an executive officer becomes overly involved in these activities, the internal management of the campus tends to deteriorate drastically.

An example of this is the decline of student participation in campus committees. Did you know that the Letters and Science Executive Committee didn't have a student representative until Spring Quarter this year, or that several students from the Community Housing Community have regularly missed the meetings this year? This lack of participation stems from the lack of supervision and communication by the Leg

Council to the committee members. To correct these problems, I feel that three significant changes must be made in the organization of the committee structure. The first step is to break down the campus committees into three categories: Academic Senate Committees; Chancellor Advisory Committees; and Administrative Committees. A second change is to

have memos from committee meetings sent to the A.S. office so that Leg Council can keep track of who is attending committee meetings. A third proposal is to have mandatory quarterly meetings between committee members and Leg Council. With this more organized structure, committee

memb... superv... will en... more c... commi...

As A... workin... govern... the Isla... Gradua... Reside... IFC an... a grou... resourc... having... decision... leader... within t... by outsi... Garry J...

raised to \$3,000 per student, and financial aid being cut out from under those who benefited by it. In Isla Vista priorities must be realigned to ensure that they deal with the needs of the students, and the erosion of the Isla Vista seawall must be resolved within the least amount of damage to the students by tightly stretched budgets. Some of these concerns can be easily achieved or prevented with a changed, invigorated management with a responsible, open-minded executive at the

for a change.

members will be properly advised and trained; thus, A.S. ensure that students will have an impact on campus committee decisions.

A.S. President I will be working with the other student governments on campus such as Isla Vista Community Council, Graduate Students Association, Residence Halls Association, the Greek and Panhellenic. Together as a group I feel we can pool our resources and be quite effective in making an impact on university decisions. Let's elect a established leader who is supported from within the Associated Students and outside leaders as well. Write in my name for president.

DO YOU SUPPORT THE ASSESSMENT OF A MANDATORY FEE OF \$5.00 PER QUARTER TO FUND UNIVERSITY CENTER OPERATIONS?

YES NO

THIS MEASURE IS SPONSORED BY THE UNIVERSITY CENTER ADVISORY COMMITTEE, AND NOT BY THE ASSOCIATED STUDENTS.

Representative-at-Large

ROGER DREGER

I hope your not reading this from the bottom of your bird's cage... Since I have lived both on and off-campus in the last three years, I am truly a "representative-at-large." I have the enthusiasm and energy to represent you and your needs. So, get vertical and vote for ROGER DREGER! Have the courage to live in the eighties.

STEVE LADEN

Leadership, continuity, and finally, respectability and the ability to govern crumble under the weight of personal interests. This is not what we want or need.

What is needed is some direction. Leg Council ought to focus on issues which pertain to us all. For instance, how many of you have been apartment hunting the last few weeks? Fun, isn't it? But it doesn't have to be such a hassle. Leg Council can, and should, play a major role in helping to alleviate the housing crunch in Isla Vista. The \$35,000 loan A.S. recently made to the Rochdale Housing Co-op is a good first step, but its effects will be limited and go unnoticed for several years to come. A.S. needs to do more work in this area before we all end up living in Tee-Pee Village again, or worse, transferring to Berkeley.

Other issues which would demand my attention as a member of Leg Council would include striving for an equitable and reasonable allocation of A.S. funds, lobbying against the institution of tuition for U.C. students, and advocating increased student participation in extra-curricular activities. I feel that by taking stands on these issues many people will be able to realize the benefits, rather than just a chosen few. As a Leg Council member this is what I would be working to achieve.

I am no newcomer to the world of A.S. Over the past three years I have served as a member and chairman of the A.S. Organizations Coordinating Board, a member of the Community Housing Advisory Board, and as a student advisor for the Community Housing Office. I have seen a lot that needs changing, and this is the time to make those changes. Endorsed by A.S. CAB.

RICHARD CHUDACOFF

ADAM WOLPERT

I believe that the Associated Student government must be active on a number of levels. The first is the day to day level. I would encourage more student participation in student government and support development of new student groups. I feel that A.S. government must dedicate itself to helping minority and financial aid students and to lobbying against tuition proposals. I think it is important for us to work with the Isla Vista community as well, developing recycling programs and trying to find a more efficient and comprehensive way to deal with the I.V. housing problem. We must also improve student-police relationships and urge police to prioritize with an increased emphasis on rape and assault crimes. In addition, A.S. government must be active on a broader scale. I will actively support divestment of U.C. funds in South Africa and oppose the draft and campus complicity with the Selective Service. It is also vital that Los Alamos and Livermore U.C. weapons labs be converted into peacetime facilities which enhance and benefit our society instead of creating destructive devices which threaten the very survival of humanity.

I am a freshman and am

toss shadows on the roof and walls. In the back of his mind he thought of the South, the mystical image which was his by virtue of a writer, Mark Twain. And what happened to Becky Thatcher?

My name is Erich Luschei and I am running for a position as At-Large Representative. My major is sociology and I am fascinated by the perspectives that I have been introduced to in my studies. Perhaps the career options and opportunities for graduates in the Sociology Department are not too great. But the methods and insights of the social sciences will always serve as a core of knowledge upon which I can build. I take my studies seriously and I believe that all students should do so. Accordingly, I advocate a higher degree of student involvement in academic affairs. It gives credit to the university and merit to the students. Not that I favor a required senior thesis, but I do believe that some method must

presently a member of the Coalition to Stop the Draft. Most of my work in the group at this time is educational. I will continue active work and if elected will try to increase general political awareness on campus through various programs and speakers. I have worked with Progressive People in Solidarity and a member of Students United Against War and the Draft. A.S. government has many responsibilities. If it is run effectively and creatively it can greatly benefit UCSB students and the local community. This government can also be a powerful force behind the change of some fundamental U.C. policies. I will use creativity together with hard work to help A.S. government fulfill its potential in the upcoming school year.

DOUG YOUNT

I'm not going to be naive and list a thousand unobtainable campaign promises, such as \$3 textbooks and exemptions from the draft for all students. Instead, the purpose of this statement is to inform you of

be found to increase interaction between students and faculty. Maybe something in the form of a required independent studies project in the majors for which it would be suited.

Housing issues are becoming increasingly important. Any student who has waited in line for three days to get an apartment, or has gritted her or his teeth over an unavoidable rent hike, will agree that something is happening over which there is little control. Rent control is a highly controversial issue: And I doubt that a harmonious balance will be struck between tenant's and renter's interests in the near future. Yet, something must be done to remedy the housing situation in this area. What is our alternative? University owned housing cooperatives seem to be the viable choice. By pooling our assets we will be able to strengthen our control over the housing market. I believe that such a course of action is not only feasible but also necessary.

To describe myself I would not say liberal, nor would I say conservative. I am a student. As such, my interests focus on areas of student concerns, academic concerns and the large social concerns which my liberal education has made me aware of. As a sociology major I have developed a relatively liberal stance towards issues. But I am not sure of the proper course of action for our society. Should we mend the structural legacy of our past and cure the injustices, or should we cure the injustices so that we may change our social structure to fit the call of the future? Vote. Take part in the decision.

the true role that an at-large representative should assume. This is the role of constant response to student input, no matter how small or unnoticeable that input is. As a representative, I will do just what the title implies — represent our interests as students here at UCSB. This does not mean that I will be representative of the administration or faculty. A.S. is the major voice of the students, and should respond to the students input only. It is no doubt that our lives are centered around the campus environment. But this enhancement is only the result of student pressure, focused through their representatives. It is one of our only ways to check the power of the U.C. administrative system, and can be highly effective if input is here. If elected, it will be my job then, to see that our student voice is heard, loudly and clearly, and is, most importantly, the fundamental basis for any A.S. action.

LAEL BLAND

Hello, my name is Lael Bland. I am running for A.S. Legislative Council Representative-At-Large. This is my first year here, at UCSB. In my first year, I have been involved in A.S. as well as the Residence Halls. I am currently a representative on Finance Board and co-chair of Santa Rosa Dorm. I feel this gives me a big advantage, because I now have insight into how these two student governments work. Being on Finance

Board has given me the chance to learn about the procedures, rules and regulations, of A.S.

In the past, I have been student body vice president and president of my high school (Newbury Park). I like to get involved in student government. For all these reasons, I hope you will vote for me. Remember Lael Bland for Rep-at-Large

On-Campus Representatives

BRIAN BRANDT

As a candidate for A.S. On-campus Representative, I stand for a platform of conscientious legislative progress for the betterment of the individual student. I believe it is time to get back to the basics of student government. What this campus does not need is a council that is more concerned about things like the affiliation between the University of California and the weapons lab, rather than seeing to the improvement of distribution of A.S. funds and the promotion of campus wide participation in all aspects of college life. It is time that more time and energy is spent on making every student's stay here the best we can possibly make it.

In striving to achieve this ideal, I can promise you these things: better contact with the student body, by keeping regular posted office hours. This will enable me to communicate with students and be aware of their needs. Second, a full understanding of the benefits and consequences of all measures I vote on, and most importantly, my actions will reflect what I feel are the sentiments of the student body, based on my close contact with the various student groups. By presiding over two committees, as well as being a liaison officer to two other committees it will enable me to be better exposed to the needs of various organizations.

As a candidate I stand for you the student and the improvement of your college experience here at UCSB.

DWIGHT RIM

No statement was submitted.

TODD HAUPTLI

Hi. I'll try to keep this short and to the point. My name is Todd Hauptli (that's pronounced Hop-lee), and I am running for A.S. On-Campus Representative. My friends have come up with 101 cutesy campaign slogans revolving around my last name, but the idea is to get votes not lose votes, so I'll refrain from subjecting you to them. I could also bore you with a detailed list of what this job entails and a list of my qualifications, but I won't do that either. Suffice it to say that I do know what this job is all about and I am qualified. Instead, I'd like to tell you three of my reasons for running:

- 1) I like to be involved.
- 2) I know I will do a good job.
- 3) I feel that the freshmen deserve to be represented in the A.S. Legislative Council.

I hope you'll take the time to vote, and naturally, I hope that you will vote for me. I'm ready to do a good job, and I'm asking for the chance to try. If you give me that chance, I won't disappoint you. Todd Hauptli for on-campus representative. Thanks...

BARBARA FISKE

Everyday I hear complaints; complaints about dorm food, complaints about crime (including rape), complaints about the fear that these crimes cause, complaints about campus waste, and complaints that A.S. is a self-serving organization. This is why I, Barbara Fiske, decided to become involved in trying to end some of these complaints. This is why I am running for the office of A.S. On-Campus Representative, and am asking you for your vote.

I am asking for your vote because I know that I am qualified for the job. It all began my freshman year when I started writing for the *Nexus*. This was the perfect introduction to the campus and the many organizations that are involved in its operation. After this brief but thorough overview I quickly immersed myself in campus bureaucracy — I started a new club, the UCSB Sierra Club. My experiences this year as Sierra Club chair have convinced me that there is no better way to learn the ins and outs of Associated Students and the Office of Student Life than to start a new club. I learned the role of each office, the ways in which these different offices interface with each other, and how to organize my efforts with these offices in the most time-efficient manner. As well as learning about A.S., OSL and the other campus offices, I learned about the many student organizations we have at UCSB when I became involved with Progressive Students in Solidarity as the Sierra Club representative to this coalition of student groups.

With your vote I plan to focus my experience and my skills on solving some of the problems facing UCSB students today. I plan to get an efficient recycling program instituted on campus. I plan to improve campus security so that women can go outside without the fear of being raped (possibly through the improvement of student-police communications). I plan to work on the student housing problem. Two of my goals in this area are to increase student-tenant knowledge and to end week-long waits in front of rental agencies!! I strongly oppose the D.P. Seawall as being impractical, unfeasible and unhealthy — both economically and environmentally — and will fight its construction. I plan to create channels of communication between students and A.S., perhaps through polls and committees, so that students feel that their government is representing them.

There will always be complaints, it is only a problem when the complaints never change, for this indicates a lack of progress. Help me solve this year's problems so we can move on to new goals. Vote for me, Barbara Fiske, for on-campus representative.

Representatives-at-Large

DAVID WALSH

The single most important issue I perceive in this election is the recurring absence of measurable student input and involvement in A.S. actions and policy-making. That the general student body exerts minimal influence in the affairs of their elected legislators is reflected in the relatively low percentages of annual voter turnout. A.S. needs to solicit and encourage involvement by a wider range of students. Leg Council has

to attain and maintain a closer contact and dialogue with general student sentiments. I feel that it is the responsibility of the council members to seek out and identify the issues of highest priority to the students, rather than merely wait for representative elements to appear at council meetings, or wander into the A.S. offices. I think that the uproar over Inauguration Resistance Day reflected a healthy concern by greater numbers of students, a concern not readily found in the preceding months, and indeed years. It took a major controversy, fired by a staunch opposing position by the *Daily Nexus*, to stir the student body into not only forming opinions, but expressing them. The Associated Students cannot possibly hope to achieve any viable influence in the community, or with the university itself, when it does not represent the majority of the students' viewpoints and cannot meld the student body into a politically potent voting force. A.S. representatives cannot successfully negotiate with Isla Vista's landlords, or affect the long-heralded severance from the weapons labs, when they cannot claim the interest, let alone the

support, of more than 20 percent of the student body.

I propose to increase active student participation in the workings of Leg Council. More detailed descriptions and announcements of the appointed offices and committees should be made. Greater emphasis should be placed on the function and accessibility of A.S. in summer and fall orientation programs. Perhaps even the size of the elected council should be enlarged through constitutional amendment. Most important of all, Leg Council has to strive to generate increased interest by the student body, so that Leg Council and A.S. elections will accurately reflect the concerns of the general student body.

I honestly do not know to what extent measures such as these will be effective. I do feel that some action in this direction is imperative.

I want to encourage everyone to vote. As a write-in candidate I want to ask you to especially consider my candidacy. Regardless of that, the important thing is that the students really turn out and vote so that A.S. can accurately represent your opinions. Please try to vote.

Ballot Measures

1. Do you want to continue a Constitutional Allocation of \$.65 per student per quarter to the *Daily Nexus*?

PRO

A "yes" vote on proposal one will continue the current constitutional allocation of 65 cents from each student's quarterly A.S. fees to the *Daily Nexus*. Reaffirming this locked-in funding will continue to help support the operation of this campus' only daily newspaper. Your "yes" vote is needed.

Pro Statement
Program Board Lock-In
by Jim Reeves
Program Board Commissioner

The A.S. Program Board, in its third year of existence, is improving in both its goals: diverse programming for the student population and training for the student staff. The seven committees, Concerts, Cultural, Films, Lectures, Publicity, Special Events and UCen Activities, all

run by students, provides a wide variety of entertainment for the campus. These goals are funded by the \$2.30 per student per quarter that the board receives from the A.S. fee. In order to provide the entertainment we do, ranging from Jimmy Buffet concerts to free noon concerts to lectures, we need this funding to provide an alternative to standard campus events.

So, please vote "Yes" on the Program Board lock-in. Thank you.

CON

No statement was submitted.

2. Do you want to continue a Constitutional Allocation of \$2.30 per student per quarter to the Associated Students Program Board?

No statement was submitted.

3a. Do you want to continue a Constitutional Allocation of \$.35 per student per quarter to the U.C. Student Lobby?

3b. If you voted yes on No. 3a, do you want to increase the A.S. fee by \$.10 thereby Constitutionally allocating an increase to the U.C. Student Lobby of \$.10?

This Tuesday when you vote on the Associated Students Ballot measures you'll be asked to continue constitutionally allocating 35 cents per student per quarter to the U.C. STUDENT LOBBY. Then you'll be asked to raise both the A.S. allocation to the STUDENT LOBBY and your A.S. fee by 10 cents.

This 10 cent increase could go far in saving you mega bucks in the future. And I mean mega bucks. You see, with the threat of tuition once again, now more than ever the STUDENT LOBBY needs our collective support.

The STUDENT LOBBY is the statewide lobbying branch of the U.C. Associated Students. As such they are our voice in the California State Legislature. Their top priority has and will continue to be lobbying against tuition.

The lobby also works extensively in the area of the U.C. Budget, making sure that student priorities and concerns are included within it. Included in this involvement has been a long term attempt to force the university to take its

commitment to teaching more seriously than in the past. This year the lobby was successful in gaining more lecturer position within the university system. Lecturers spend their entire time teaching, i.e. no time is allocated to researching. The STUDENT LOBBY also actively seeks the opening up of the many Board of U.C. Regents meetings that are held in Executive Session as well as divestment of U.C. funds from South Africa.

On other fronts the lobby has worked effectively in the anti-draft movement, affirmative action and sexual harassment.

Vote YES on 3a and 3b. You'll save yourself money in the long term while at the same time supporting those that are working towards improving your education here at the U.C. If you don't I'll probably do it by phone vote anyway.

YES on 3a and 3b.

Tibby Rothman
Associated Students President

No statement was submitted.

4. Do you want to continue a Constitutional Allocation of \$.80 per student per quarter to Communications Personnel?

No statement was submitted.

Communications Personnel Lock-In

A no vote on Ballot Measure 4 will insure viability of the various student media (KCSB-FM, Daily Nexus, La Cumbre, Student Directory, Map). A no vote will shift the burden of personnel costs from the various media to the broader based Associated Students' budget as a whole. This shift will accomplish two objectives. First, communications personnel funding will be made consistent with the funding of the other A.S. employees. Secondly,

the inflation-caused impact of rapidly rising salary and benefit costs will no longer directly impact the individual media groups, thereby guaranteeing their continued fiscal solvency. Presently, the spiralling effect of communications personnel costs inhibits the regular operating budgets of the media. If the present trend continues this effect will essentially bankrupt these student groups. Therefore, you are strongly urged to vote no on Ballot Measure 4 to help keep student media and communications lines flowing freely.

More Ballot Proposals p.11A

Ballot Measures

5. Do you want to continue a Constitutional Allocation of \$.80 per student per quarter to KCSB-FM? (includes staff personnel expenses)

5a. If you voted no on No. 5, do you want to reduce the Constitutional Allocation of KCSB-FM to \$.57? (deletes staff personnel expenses)

5b. If you voted yes on No. 5a, do you want to increase the A.S. fee by \$.08 thereby Constitutionally Allocating an increase to KCSB-FM of \$.08?

PRO

No statement was submitted.

5a) A yes vote on Ballot Measure 5a coupled with a no vote on Measure 5 reflects the removal of present personnel costs from KCSB's budget. Therefore, a

reduction of the budget allocation from 80 cents/student/quarter to 57 cents/student/quarter adjusts the KCSB budget to reflect the removal of personnel costs.

5b) A yes vote on Ballot Measure 5b coupled with the yes vote on Measure 5a will restore a portion of KCSB's budget to reflect the level of funding as passed by the original Communications' Amendment vote. A yes vote for KCSB's budget to be increased by 8 cents/student/quarter will go a long ways toward offsetting the inflation-caused reduction in operating revenues with a minimal impact on student fees. KCSB radio directly involves over 100 percent participants and serves to

educate, inform, and entertain countless other student and community listeners. Your support of KCSB will ensure that Santa Barbara county's only alternative and non-commercial radio station will continue to provide both a student training ground, and a form for free expression.

In summary, you are strongly urged to vote no, yes, and yes for Measures 5, 5a, and 5b respectively.

La Cumbre is produced by and for students, and the passage of A.S. Bill No. 6 will bring the yearbook back within reach of the average undergraduate's wallet.

La Cumbre 1981 is a 480-page commemoration of the year at UCSB for \$17. Allowing for inflation of production and printing costs, a comparable book will cost \$19 in 1982, and prices will continue to rise thereafter.

Bill No. 6 will allow locked-in funds to absorb the cost of production, bringing the price of the same yearbook down to \$10 and making it financially accessible to a greater number of students. The \$10 per book fee would be used to cover publishing costs, and La Cumbre would continue to operate

on a break-even basis.

At one time, A.S. fees absorbed 85 percent of the total production and publication costs, and each student received a free book. Today, La Cumbre is funded through book sales, limited portrait commissions, page sales to departments, and minimal A.S. support. Without the return of locked-in funding, yearbook prices will continue to rise and quality will suffer under a tighter, fixed budget.

A yearbook is a piece of lasting journalism, invaluable to the preservation of memories and enhancement of school spirit. Bill No. 6 will ensure the present standard of quality, and make nostalgia affordable again.

6. Do you want to Constitutionally Allocate \$.50 per student per quarter to La Cumbre, thereby increasing the Associated Students fee by \$.50?

UCSB students are more involved in individual pursuits and tend to be more autonomous from the university as an identifying community. The subsidization of the La Cumbre would not serve the particular student body at UCSB.

7. Do you want to increase the Associated Students fee by \$1.00?

Last year approximately 40 student related groups were not allocated funding by the Associated Students Government during the budget hearing process. This year approximately 20 groups and services will not be funded. Each year rising staff costs and inflationary increases cut into the Associated Students budget limiting funding earmarked for student groups even more.

We are urging a yes vote on Ballot Measure 7 thus raising the

Associated Students fee \$1. The dollar increase would cover inflationary increases and insure more funding for student groups. The Associated Students fee will have to be raised to cover inflation and equipment maintenance within the next few years. We are asking that it be raised now so that we can include more funding for student groups as well as providing the necessary monies to cover the salary increases of the Associated Students staff.

UCSB students should vote NO on Ballot measure 7 because it will not benefit the students. The proponents of Ballot measure 7 claim that the Associated Students will be able to fund more student groups with a dollar per student per quarter fee increase; however, very little of the money that Associated Students presently receives is spent on student groups. Most of the money is spent on A.S. Administration and Committees, and community services like the I.V. Legal Clinic, The I.V. Medical Clinic, and the Rochdale Coop; there is no guarantee that the money generated by the fee increase will be used to fund only Student groups and not the out-side organizations. Also most of the Student Groups funded by the Associated Students

are activist ones like the Coalition to Stop the Draft, and Progressive People in Solidarity; there is no guarantee that apolitical groups will receive much funding with the dollar increase.

As a matter of fact, most likely not many more student groups would receive funding, but that those presently funded would only receive more.

Furthermore, the \$1 increase would be such a large increase that it more than covers all the reasonable funding requests presented to Finance Board, resulting in a useless funding surplus. For your own sake you should vote against Ballot Measure 7, the \$1 increase in the A.S. fee.

CON

5) A no vote on Ballot Measure 5 will insure that KCSB-FM will no longer continue to be fiscally at the mercy of inflation-related increases in personnel costs. In 1978 the students voted overwhelmingly (95 percent) to fund KCSB at the 80

cents per student level. However, the intention at that time was to not use any of this funding for personnel costs. Inflation forced KCSB to use these funds otherwise. A no vote on 5 tied to an appropriate yes vote on 5a and 5b will correct this situation.

Ballot Measures

8. Are you in favor of deleting Article III — Legislative Department, Section 4d — Duties and Powers of Legislative Council? (refers to bi-annual Constitutional review)

PRO

No statement was submitted.

CON

No statement was submitted.

9. Are you in favor of correcting Article III — Legislative Department, Section 3b — Apportionment of Elected Representatives; Article VI — Executive Director, Section 1 — Selection & Term; and Article VI — Executive Director, Section 2g — Duties & Powers, of your Constitution to reflect grammar, intention, and university policies?

Whereas Article III Section 3b of the ASUCSB Constitution currently reads

"The determination of Associated Students Membership for purposes of apportionment shall be made by the Executive Director based upon total membership, as of the close of the previous fiscal year, and shall be ratified by a majority vote of Legislative Council by the first regular meeting of Winter Quarter.

and Whereas Article VI section I reads

"The selection and job description of the Executive Director of the Associated Students shall be the responsibility of Legislative Council at least ninety (90) days in advance. The Legislative Council shall require a three-fourths (3/4) majority approval of the voting membership before a letter of dismissal can be effective

and Whereas Article VI section 2 g. currently reads

Act as trustee for the Associated Students in maintaining trustee accounts for various university organizations.

and Whereas there are inconsistencies or inaccuracies in each of these sections. Be it therefore resolved that these sections be changed to

Article III Section 3b—

"The determination of Associated Students membership for purposes of apportionment shall be made by the Executive director based upon average total membership, etc.

Article VI Section I—

"The selection and job description of the Executive Director of the Associated students shall be the responsibility of Legislative Council. The Executive Director's term shall be indefinite, and shall be terminated by written notice of either the Executive Director, or the Legislative Council at least two weeks in advance. Etc."

Article VI Section 2. g.— delete

UCen Fee

This year the University Center Advisory Committee is recommending that the University collect a \$5 fee per quarter from all undergraduate students to support UCen operations.

What? Another UCen Fee? Why? Currently undergrads are assessed a \$6 per quarter fee which goes only to pay off the bonded indebtedness incurred in the original construction of the UCen, the UCen II addition, and for capital improvements. Since the UCen was built, almost 14 years ago, there has never been a fee increase or augmentation.

How would a UCen Operations Fee help? These monies would be used for 1) improving existing facilities, 2) improving current services and adding new ones, and 3) creative projects, as recommended by the University Center Advisory Committee, which has a majority of students as voting members.

Examples of how the Monies-Could be Spent:

1. **Programming** — expansion of programming, producing more free concerts and other free entertainment events.
2. **Physical Improvements** — paintings, sculpture, and graphics.
4. **Support** to non-revenue producing areas of the building e.g., meeting and conference

rooms, programming areas, and public areas.

5. **Reducing** the inflationary cost spiral of UCen goods and services.

6. **Development** of a terrace along the lagoon-side of the UCen.

7. **Arbor II** — the construction of another Arbor on the engineering-side of campus.

8. **Purchase** additional bike racks.

9. **Establishment** of a UCen reprographics department.

10. **Purchase** A/V and sound equipment.

Fees on Other California Campuses

To give you a basis of comparison and to help you make a judgement about the fairness of the fee: The average fee for student centers in the California State University and College system (which has a fee structure similar to UCSB's) is \$10 per quarter or \$30 a year per student. The fee here is presently \$6 per quarter or \$18 per year. The highest fee at any state college is \$42 and the lowest is \$20. With this new fee UCSB students would be supporting the Center at a level that approaches the Cal State average, and would reap the benefits of making the UCen a more comfortable, attractive, and useful "living room of the campus."

Undergraduate students shouldn't have to pay a fee to the University Center, while the faculty, staff, and graduate students don't. The \$3 per quarter per student fee would take \$9 each year from every undergraduate, and give it to the UCen to provide expanded service and price subsidies that would benefit not just undergraduates, but also graduate students, faculty, and staff.

If you feel comfortable knowing that your money would be spent to benefit your hantiest Professor, the surliest secretary in your department, or the worst T.A. you ever had, go ahead and vote for the proposed \$3 per quarter per undergraduate fee. If not don't, save your money and don't feel bad about it.

For students who don't use the UCen much shouldn't have to pay for those who do. Why should someone who eats in the Commons pay for someone who eats in the deli to have a cheaper ham and swiss on rye? Why should someone who bought his books at the I.V. Bookstore pay to have someone pay less at the UCen Bookstore?

The University Center should be

able to operate without a subsidy from the students. Unlike a real business, the University Center doesn't have to pay taxes. Better management, not subsidies are the answer to the UCen's problems.

As it is, it was undergraduate students who paid the bond to build the UCen. You can't see it but there in your Reg fees are \$3 per quarter to pay the UCen's indebtedness. Why should you pay \$3 more for the operating budget?

Incidentally, the University Center hasn't shown itself particularly favorable to undergraduate students. All last summer, while the undergraduate students weren't around, UCen food prices stayed at the same level at the '79-'80 school year while the facilities themselves stood near empty losing money serving almost entirely staff, faculty, and graduate students. But come the first week of Fall Quarter, and the undergraduate, prices hit record highs. Don't get blinked again, vote NO on the UCen fee!
